<i>About the Author</i>	246

## Mitali

She was young, she was bold and beautiful  
To her family and friends always faithful;  
Her hair was curly with beautiful hair cut  
Blue eyes showed deepness but quite;  
Smile everyday even though she is sad  
Only anger can distract and make her mad;  
Her soul lives with animals and her pet  
She feeds a street dog wherever she met;  
Never did any harm to anyone knowingly  
Yet hurdles came to her life continuously;  
She felt ashamed to show weakness and cry  
In sadness play her violin and remain shy;  
She was talkative all of her friends know  
When she brings smiles to others her face glow;  
Showed courage and confidence during toughest time  
Soon she proved that everything is fine;  
Lived her life as per her choices and will  
Her void in our lives nothing can fill.

## My Wife Mitali

She was my eyes, ears and nose  
Looks better than a beautiful rose  
No one in the world was so close  
Her smiles gave me inspiring dose  
Now without her, my life is in pause;  
The heart is now empty and void  
Every moment, tears I can't avoid  
Without her smiles, life is now burden  
In life, Mitali was my beloved warden  
Why did God call her all of a sudden?

## She Made Me Decent

I was lying as an ordinary piece of coal  
With love and care she made my soul  
In her two beautiful arms she hold  
Put pressure to make me strong and bold  
She forced me to blow hot, blow cold  
Finally, I became her diamond studded with gold;  
I was dirty, disorganized and easy going  
She forced me to be decent and moving  
Visited Temple and Church for praying  
Never thought the holistic she is dying  
Now I have no alternative except crying.

## Straight Forward Mitali

She was straight forward, misunderstood by many  
Straight line was her life's course and tourney  
Yet colourful and joyful her life's straight journey;  
Disliked lie, hypocrisy, and double standards very much  
In life so she faced lot of hurdles and curse  
Still on honesty, truth and God she trusts;  
She was loved by kids and animals like mother  
With her company, everyone feels beautiful weather  
Her external smiles and love attract animals nearer;  
Storms always destroy straight and tall trees first  
God took her early to him because of her trust  
In the domain of our lives, she will never become past.

## Beloved Wife Mitali

Mitali is my beloved wife

At the same time, she was my life

Without water life on earth impossible

In absence of wife, life is now measurable

Every moment her absence is palpable;

The night is dark, and sky is full of black clouds

Mind is full of thousands of unanswered doubts

Fireflies are the only source of light to move forward

Moving few steps forward will be big reward

The Sun will rise again and will bring new award.

## Who Will Cry?

When I die, only selected few will cry  
For new friends, whole life I did not try  
To develop relationships, I remain shy  
I thought love, respect money can buy;  
Whole life I was busy for career and money  
On these two points, I concentrated journey  
With Nature, I forgot to keep balance and harmony  
Now suddenly destiny ends my tourney;  
I am alone in graveyard, no one coming  
Missed life without thinking departure timing  
So, in the graveyard, lonely me is crying  
For a better journey never stop trying;  
No one will remember you for the money you get  
But for the relationships with people, you met  
Today is the best time for a new attitude to set  
Once the train leaves the platform, it will be too late.

## Pain And Pleasure

Now I am doing everything in pain  
Yet doing everything for comfort to gain  
Don't know whether comfort will give pleasure;  
Pleasure and pain lives in same place  
When one expresses the other take rest  
But life long they live in the same nest;  
Even the extreme pain in body, brain can't tolerate  
Some people induce pain in body for pleasure  
There is no remedy for grief except surrender.

## Mistry Is Still Elusive

Mystery of creation still elusive  
To the unknown we are submissive  
We don't know the reason of our existence  
Single step we can't move without resistance  
Everywhere the natural forces have presence;  
If we ask fundamental questions, we have no answers  
Not convincing science and religion browsers  
No proof that the prophets had actually met God  
In comparison to the universe, science is tiny tod  
After birth, we are forced to live but death we can't avoid.

## No Answer

Birth, marriage and death is in the hand of God  
We never wished to be born nor die in uncertainty  
Once married, it also ends in separation  
Either through divorce or through death  
But for separation we never do preparation;  
Every story is different without any control  
To face the separation some are strong and bold  
Some cannot withstand and quickly become old  
Ask questions to God without any answer  
This way life continues in the world forever.

## God's Wishes I Must Abide

Everything in the house reminds same  
But changed the rules of life's game  
Without one hand and a leg, I am lame  
For the situation no one I can blame  
My heart is now caged in a photo frame;  
Life changed forever till I remain alive  
The pain and grief will never subside  
In my heart it will always reside  
My love and affection for her is my pride  
I have no option; God's wishes I have to abide.

## **I Dream For A Better Tomorrow But.....**

In the night I always dream for a better tomorrow  
But the newspaper in the morning brings me sorrow  
Cruelty and intolerance of man increases every day  
I lost hope for better tomorrow, rainbow and its ray  
For cruelty, intolerance, hatred, mankind will heavily pay;  
People can easily kill father, mother, wife, near and dear  
For sin and punishment most of the people don't fear  
Technology has reached its peak looking for new universe  
But the mindset of civilized man is going reverse  
A world with violence, war and killing no one deserve.

## Life Promises Nothing

In the end of the journey, life promises nothing  
Yet we are all busy doing something  
Life forced us to do eating, smiling and crying  
We know in this universe nothing is everlasting  
In the arrow of time, there is no bargaining;  
The journey is tough, tears and full of sorrow  
Our hope is for good days and better tomorrow  
No one knows that tomorrow he may need transplant of bone  
marrow  
To keep him alive family and friends have to borrow  
But life promises nothing, but grief and sorrow.

## Life Is Tough

Life is unfair, difficult and tough  
The road ahead may be rough  
We may not get opportunity to laugh  
An invisible virus may bring cough;  
In the long run, journey is the reward  
We have no alternative but to move forward  
Those who stop the journey are coward  
Take little rest inside the tunnel when tired;  
The tight rope walk is difficult to balance  
Fear of fall down will give big resistance  
Then it is better to move in silence  
Complete the journey with due diligence.

## Everyone Has Different Story

Everyone has a different life story to tell  
For some life is heaven, for someone hell  
Different people will feel different smell  
Any moment any one can hear warning bell  
Yet happiness, joy, smiles we try to sell;  
The story of Cinderella is not true  
During childhood we had no clue  
Yet we move on to become a superman  
During old age we realize we are lame hen  
But the memory of good story brings smiles even then.

## I Am in A Black Hole

I am walking in the darkness of a black hole  
Neither light can come nor escape from it  
As if the big bang has not yet occurred  
There is no past, present or future;  
My existence is only my consciousness  
Not in the form of matter, energy, or anything else  
Even the existence of God in the black hole is false;  
Even the soul, light, sound all is immaterial  
The black hole and its infinite gravity are real  
One day an explosion may happen, and a new baby will cry.

## Is Life Has A Reason?

We say everything happens for a reason  
But the sufferers landed in mental prison  
For them the happening is worst solution  
Grief and trauma are God's wrong creation;  
Many innocent sufferers without any reason  
For them the remaining life becomes poison  
They move in darkness without direction  
No one knows what is life's final destination;  
We don't know even the reason of life  
But life forced to walk on a sharp knife  
Sometimes forget the bleeding in hype  
One day life ended without reason and wife.

## In The Domain of Time

In the domain of time no one is hero  
Tomorrow you may become zero  
Everyday heroes died and born  
Only for few weeks people mourn;  
Alexander, Napoleon not different  
They also died in the ever flowing current  
Destiny can take you from world any moment  
Rest in peace will be the people's comment;  
Your footprints may not remain on sand of time  
If you can live well and happily that is prime  
Don't spoil your time in hatred, anger and crime  
Even the hero doesn't know tomorrow is not his time.

## Waiting For My Gown

No one will understand depth of my grief  
Nothing in the world can give me relief  
Life is now tougher than climbing a cliff;  
Spirituality was not the way of my journey  
Doing good to mankind was my tourney  
I choose this path from available many;  
Now the pillars of my life broke down  
No need in life anymore wealth and crown  
Waiting eagerly for my funeral gown.

## Rituals

All rituals for the dead are fake  
In their benefits the priest take  
In grief, rituals only put brake  
Different journey for us rituals can't make  
In dear one's death we are in grief lake;  
Yet, for us rituals divert attention  
But from grief it is temporary solution  
Again, and again grief comes with new resolution  
Time can only make slow dilution  
Our life becomes a slave of the situation.

## The Best Healer

People say time is the best healer  
But sometimes it becomes a killer  
Sometimes time is grief carrier  
Sweet memories can make merrier  
In the memory lane no time barrier;  
In physical world past is gone forever  
But in the mind, everything we remember  
Nothing erodes from our hearts chamber  
The departed souls become more dearer  
Good memories also make us stronger.

## We Need Mental Integration

We have seen natural evolution

We have seen natural selection

We have seen God's incarnation

We have seen political revolution

But our problems have no solution;

We now need better consideration

We now need though rationalization

We now need scientific standardization

We don't need any more permutation

We need religion, politics, and science integration.

## The Missing Link

The link, monkeys losing tail and becoming homosapien is still missing

Though in the name of civilization, the nature, human beings are destroying

Before the arrival of homosapien, the environment was calm and pure

All living beings were getting enough food to eat and survive was sure

The survival of the fittest was the law of nature during that time also  
But biodiversity and ecological balance was followed by animals in toto

No need to cut trees, destroy hills and islands in the name of progress

The roads, dams, airports pushed too many species to distress

The bombs and wars not only killed millions of human beings

It also destroyed many other natural and living things

The double-edged sword of civilization will one day force extinction of man

The four-footed animals will rule the planet once again.

## We Are Not at Peak

We claim that our civilization is best and superior

All other older civilizations were agrarian and inferior

We claim this even after learning about relativity

Claiming the present civilization as superior is stupidity

Civilizations came and vanished in the domain of time

To rate a civilization, advance or agrarian, time is prime

After several thousand years, our civilization will become underdeveloped

The people of that time will laugh at us, we were stupid and inferior

Don't claim that we are at the top of development now

We are only carrying the flag of relay race destroying nature somehow.

## Back Biting

Conflict of minds is real and can happen

Telepathy natural signals to supplement

Back biting can transmit the signals

To receive the concerned human is logical

Friends turn foe and foe become dear

For backbiting and criticise better to fear

There is no permanent friend or foe in life

Everything is matter of convenience and gain

Friends and foe come and leave, depending on rain

Praise or love someone remotely without communication

You can observe another person's positive attention

Don't ignite conflicts of mind with back biting

Your solitary bad remarks may become disturbing.

## The Four Goals

The goal of life is good food, good sleep, good health and peace of mind

All these important things of life are easy to achieve and find  
Only requirement is focus and discipline in day-to-day life  
When discipline becomes your habit, you can easily achieve these  
No need to pay doctors or spiritual gurus, a hefty fees  
Once you can get rid of your ego, greed and embrace positive attitude

It is very easy to achieve all the good and solitude  
We always take difficult path and terrain to good sleep  
Simply walking and doing activities, good sleep you can achieve  
Tension free mind also necessary for sleep, meditation can give  
Your expenses in gym, for a sightseeing trip, you can keep  
For good sleep no need of palatial building for you  
Even on roadside, sleeping well, you can find few  
Change your attitude and mindset to achieve the fundamental things  
Moving forward with simplicity, you can smile and sing.

## The Paradox

Carbon, hydrogen, oxygen and silicon came from where how and why

Science has no perfect and convincing formula or explanation  
Big-Bang is only debatable and non-verified imagination and postulation

After combination of hydrogen and oxygen, science has all description

Why the process of evolution started to create living things is unknown

We are only told that from combination of atoms we have grown

At some point of explorations, religions are in better position

Through the invisible almighty God, they have all solution

But inquisitive minds will always ask when how and why atoms combined

To resolve all the paradoxes, the human brain and scientists are determined.

## Consciousness Of All Animals Are Not Same

Consciousness of all mammals are not same  
For this, evolution process is to be blame  
Through the same evolution, they also came  
But in between the process, they remain lame  
Human beings took all credits and fame;  
The different consciousness is also a missing link  
Even in mammals, male and female differently blink  
All the roses are also not of the same colour pink  
The reason for the missing link is difficult to think  
All materials are made of protons and electrons, but all are not zinc.

## Life Is Only a Circus

In the world, we don't have a real purpose  
In fact, we all are jokers in the big circus  
All theories about our purpose are bogus  
Our lives are no different from the fungus  
The so-called purpose is mental valgus;  
A random cosmic event, that is called life  
In false hope of excellence, we try to strive  
We realize late that life is double edge knife  
At eighty plus age, all understand purpose was hype  
Life was only a funny circus of different type.

## Problem Of Insecurity

We are heartbroken not because of failure  
We are heartbroken because, we are insecure  
We don't know how long will last our tenure  
But journey is uncertain, that we are sure  
For broken heart, there is no quick fix cure;  
Insecurity is problem for most of the people  
Even for the richest, to overcome it is not simple  
In failure, their sufferings may be triple  
In breaking hearts, insecurity creates ripple  
Ultimately people take refuge in Jesus and Bible.

## In Sufficient Knowledge To Answer

I asked, my journey is how long? how long?  
They only replied, be strong, be strong  
Is asking how long is fundamentally wrong?  
When we ask, how long, we are considered tong  
Those who question, are put in a different hong;  
Knowledge, wisdom and curiosity forced to ask  
But in the present-day knowledge pool, it is difficult task  
In this question, religion and science try to put mask  
Without the answer also, in sunshine, life can bask  
During our lifetime, the answer will not unmask.

## Why Old Fear Death?

All old people fear death, because it is painful truth  
For truth and justice, fight is always lead by youth  
I don't fear death, never comes from young men's mouth  
Because young people know that telling it is untruth  
But old man saying, I don't fear death needs couth;  
Fear for death and desire for life is basic instinct  
At old age too many unfulfilled wishes become distinct  
Many of old man's best friends already extinct  
The courage to accept reality of death becomes tinct  
For old people truth and reality becoming succinct.

## Don't Blame Others

Don't blame anyone for your failure  
In your life, you are the captain sailor  
Battle of life you have to fight as lonely warrior  
You have to be courageous and your own saviour  
Success or failure, one day you will become senior;  
For failure, we used to blame other  
Sometimes we say, it is because of father  
Many orphans become successful without mother  
So, for failure, blame yourself rather  
Correct yourself now, you will not get life another.

## Comparison And Competition

We live in the periphery of a globe called world  
With comparisons we can never become bold  
Our own life and strengths we have to uphold  
Otherwise, our beautiful story will remain untold  
Rather than comparing, your own story unfold;  
If you are in the competition to acquire material thing  
Lots of misery and useless belongings it will bring  
You are unlikely to go to the grave becoming a king  
Even like Alexander, in the middle may snap, your sting  
It is better to be satisfied with the necessity of human being.

## Journey With Same Lateen

Grass on the other side is always green  
To envy neighbours, people are very keen  
Inside there is pain, look at Diana queen  
Celebrating others success, rarely seen  
It happens only among few friendly teen;  
To show the outside world, people preen  
As neighbour, you should behave like tween  
Envyng neighbours should be out of your screen  
With your skills, make your own beautiful treen  
Your journey is on the same boat with same lateen.

## Did You Appreciate Any One Yesterday?

It is important to learn to appreciate

Our life, naturally everyday depreciate

In social activities, it is important to participate

Social life and relationships are very delicate

To love and respect us, to no one we can dictate;

In social life, no one is interior or our subordinate

Our appreciation, through respect, people will reciprocate

With written appreciation, important to authenticate

If we always criticise alone, people will alienate

Appreciation with a smile is a good way to motivate.

## Let's Think Positive, Work Constructive

Let us not worry about the purpose of life  
It is better to enjoy with friends and wife  
If we think about infinite galaxies and stars  
It will never help to stop quarrels and wars  
Till now we even don't details know about Mars;  
Individual can describe own purpose, but that is relative  
The description by different religions is also subjective  
Science even can't give a definition of purpose, indicative  
The approach of religion about purpose is conservative  
We should have our own purpose and move, that must be positive.

## The Ultimate Goal

Whether we are rich or poor or middle class  
The final goal is for good digestion and sleep  
Without these two, good health we can't keep  
We spent sleepless nights to earn more  
But to sleep well at night is life's goal core;  
Neither money, nor soft bed can give, sleep excellent  
For this, good health and physical work is important  
Even to have a full meal, to be hungry is pertinent  
With poor appetite and bad sleep, happiness elude  
For peace of mind and good health also they include.

## Do Not Do Rituals For Me

Don't do rituals when I die  
If you really love just cry  
Otherwise with smile say bye;  
All rituals are false and lie  
To extract money the Priest try  
Without money the Priest will fly;  
No need of brokers to meet God in his base  
I am capable to meet and present my case  
For the misery and suffering my point I will raise;  
If I am pushed to hell by my loving father  
For his injustice and cruelty, I will wander  
When rape is imminent, I will surrender;  
Neither the priest nor prayer can save me  
I myself must boldly face the omnipotent The  
If God made mistakes, I will see.

## Living Longer

Every man's goal is to live more  
For long life health is the core  
No one knows what is in future store  
Long life sometimes become bore  
Life on wheelchair is worse than poor;  
Live a good life today with a smile  
Think for the underprivileged for a while  
Travel in the world several thousand mile  
Living longer alone is dust gathering file.

## Antibiotics

Antibiotics are not always healer  
Sometimes it becomes a killer  
They are drugs companies' dealer  
Doctors are middlemen seller  
Yet, antibiotic medical world's ruler;  
Without antibiotic there will be more pain  
Death will come to thousands like rain  
Immunity through good health is gain  
Prevention is better than cure we always train  
But in our lifestyle, it is impossible to remain.

## Today Be Cheerful

Today may be the brightest  
Yet the night can be darkest  
You can lose running fastest  
Disease will not spare the wisest  
Death will come even to richest;  
Enjoy the day when it is bright  
To be cheerful today is right  
This is the time to fly like kite  
After sunset there may not be light  
Tomorrow there may be survival fight.

## Live With Detachment

Life is full of many resentment  
Life always gives unfair treatment  
Life has also many achievement  
Strive for more accomplishment  
One day life will give compliment;  
To realize life is unfair is important  
Nothing in life is permanent  
Fluctuate always our sentiment  
We lost our faith in the omnipotent  
It is better to live life with detachment.

## No Permanent Friend Or Foe

No one is permanent friend or foe  
All are in life temporary glow  
One day everyone will go  
Don't be judgemental, be slow  
Like river, friends and foes will flow;  
The world is full of selfish people  
To get a good friend is not simple  
With too many friends you have to dribble  
To the foes also sometimes be humble  
He may also help you during trouble.

## Love Is A Disease

Love is an incurable disease  
With time it always increase  
Momentum it may cease  
Any time life it can freeze  
Though love is cool breeze;  
Love changes course of life  
Provided you have loving wife  
But sometimes it is like a knife  
Your peace forever may wipe  
For many people true love is hype.

## Everything Has Expiry Date

Everything in the universe has a expiry date  
In case of humans, we called it as fate  
Someone dies early, someone die late  
Regarding death time no one can bet  
Even we can't predict death time of our pet;  
Creator keeps it in his hands as a mystery  
So that his prayers become necessary  
Through expiry he keeps man within a boundary  
Control death is not in the human's territory  
To live by default till death is our goal solitary.

## Life Is Same Every Where

Birth and death, everywhere life is same  
Though different may be the temporary game  
After ninety minutes play you are tired and lame  
Even on the sand of time, temporary will be name  
Whether you win or lose there is no point any one to blame;  
The sky, the air and water no difference anywhere  
How can you find blue colour blood somewhere?  
Love, brotherhood and humanity is only matters to share  
Surprisingly now a days all these are rare  
For universal brotherhood and one world no one care.

## Good Morning

The morning comes good as usual  
We only make the day good or cruel  
Some days we add to jealousy new fuel  
Next day with a friend we start quarrel  
One morning with neighbours we fight dual;  
Mornings never comes bad in our lives  
It is like the fairy-tale honeymoon days wife  
But to make the day bad we sharpen knife  
Through bad days, bad lifestyle strive  
In our hearts, good morning should be alive.

## If You Want To Live Long

If you want to live long  
Make your health strong  
Otherwise, mind will go wrong  
You will sign only sad song;  
Living longer alone is not enough  
Remember, life in old age is rough  
To move on the road, you must be tough  
No one likes to accompany old man with cough;  
Longevity with healthy body and mind is good  
Bed ridden old people consume only food  
Family and friends slowly show bad mood  
Without good health better die in early hood.

## Celebrate Your Birthday This Year

We celebrate birthday, because we move near to destination  
Moving closer to destination is always a great satisfaction  
To move on towards the end point happily we need determination  
Celebrating birthday give us mental pleasure and satisfaction;  
We want to forget that one day we have to leave everything here  
So, birthday is the time to enjoy, cheer with friends and share  
Next year, on the birthday some of the friends may be there  
To claim that same friends will be with you is false and not fair;  
This birthday may be the last one to celebrate  
So, prepare to celebrate with fun, food and vibrate  
Even if you depart before next birthday, you will not regret  
The grand birthday of this year, neither you nor friends will forget.

## Life Begins At Sixty

Some say life begins at sixty  
But that life is of low intensity  
All females lost their fertility  
Most of males lost mating activity  
People lost many of the sensitivity;  
After sixty you can't play rugby  
Playing football, no more your hobby  
For you batting in cricket crease not sabby  
In your body diabetes, BP makes lobby  
Enjoy life before it begins at sixty, be savvy.

## Beautiful Life After Sixty

You can't drink alcohol as you like  
Dangerous to drive high speed bike  
Red meat may destroy coronary dyke  
Difficult to go for a hilltop hike  
Have green tea at home with wife;  
Children will not like your habits  
So, better play with dog and rabbits  
Grand children think you are in days of 2G  
With friends they will be busy playing PUB-G  
Life will be beautiful because vision is hazy.

## **We Can't Live with Food Alone**

Survival of the fittest is the law of nature  
Struggle for food, cloth, shelter our future  
Love, hate, jealousy, greed is all integral part  
Sex and reproduction we can't keep apart  
To create an animal like man, God is really smart;  
We can't live by basic needs, it is our instinct  
So, our life becomes full of burden and hectic  
Technology failed to eradicate diseases and war  
A beautiful, refined, painless world is still too far  
Human life and humanity will always be with scar.

## Man Proposes God Disposes

God never disposed my proposals favourably  
I am sure, my proposals are bad undoubtedly  
Otherwise, God would have resolved some positively  
Yet still I am proposing to God continuously  
My nature forced me to propose unknowingly;  
The criteria of disposing proposals I never knew  
Else, I would have certainly proposed only a few  
The proposals were the steppingstones of my present  
Without proposals progress in life would have been absent  
Now I have no proposal, no resentment and I am decent.

## Time Is Illusion

Time is only an illusion

Don't waste and do its dilution

Using it is the only solution

Past, present, future is in combination

Time never does its own distortion;

Concept of time is only a thinking process

Even for the non-living mountain it progress

We blame time as cruel and regress

But to misuse time we are habituated and obsess

When we are at the end, we become distress.

## Don't Be Fanatic

Don't be fanatic mad after religion  
Religion didn't give Covid19 solution  
Religion can give only mental satisfaction  
Not true all the religious scripts information  
In dynamic world religion needs modification;  
Religion failed to change mindset of people  
To stop war, for religion also not simple  
Even with religion civilization may cripple  
Need of the hour is to be tolerant and humble  
Follow simple things to solve humanitarian trouble.

## Fate Of Big-Bang

If Big-Bang hypothesis is really wrong  
Future students will sing different song  
Hindu philosophy says, there was no beginning  
Only the matter and energy God is recycling  
What JW telescope showing is tantalizing;  
Hypothesis about birth of universes is not proven  
All theories are like philosophy and imagination driven  
Definitions, hypothesis are created in human brain  
Old concepts, teachings one day we have to drain  
Learning and unlearning is forever a continuous chain.

## Living More

Thank God, I am already successful than Jesus, Diana and Bruce Lee  
So, I am ready to pay God anything he wishes from me as his fee  
Jesus, Diana, Bruce Lee died much younger than me  
Even after sixty years, I am comfortably hanging in the life tree  
Because God wishes to give me life more than these three;  
Majority of people think success in life is living longer  
So, for a better living they never make their base stronger  
To live hundred years, even in coma, many will be happier  
People failed to live today in the hope of living more  
But I will always prefer 'Around the world in eighty days' tour.

## God's Best Compliment

Death is truth and ultimate comfort to my soul  
But in family and friends it always creates a hole  
There is no pain, no gain after we cross the river  
Only eternal peace and comfort for us forever  
Yet, the family and friends can't tolerate the pain here;  
If God does exist, certainly our souls are immoral  
Otherwise to dead, no point in giving tribute floral  
God as creator will always prefer to recycle impure element  
Rebirth to suffer pain by sinful souls is supplement  
Not pushing for recycle is the God's best compliment.

# Imagination And Knowledge

Imagination is superior to knowledge

New concept Imagination can acknowledge

Knowledge is continuation of old concept

Time proven things without doubt we accept

Imagination is new thing in mind we percept;

Knowledge can be acquired from book

For imagination, we need open outlook

Modern atomic physics started with imagination

Fine tuning and Knowledge gave quantum solution

Knowledge alone can't push progress of civilization;

## Immovable Asset

Land is Immovable asset for you only for limited time  
As long as you enjoy the land, and its produce is fine  
Immovable assets exist for you only in time domain  
You enjoy the produce that is the lifetime gain  
Once your time over, for immovable asset you will not remain;  
Even the Immovable assets can't make your life Immovable  
More Immovable assets in life means more trouble  
Don't sacrifice today for acquiring assets for grandchildren  
For uncertain future of uncertain people why carry burden  
Dine, wine, dance, enjoy travelling; anything can happen all of a sudden.

## Immovable Asset 2

In the mad run for immovable asset  
To enjoy our present life, we forget  
Always deficit was our finance and budget  
To acquire a third flat was our target  
After seventy we realize and regret;  
We got the virtual appreciation we can't use  
If we try to sell at seventy children may refuse  
Overruling them at old age will bring abuse  
Be wise when you are young, bold and healthy  
At seventy you will recall your Europe trip with wife smilingly.

## An Uncertain Journey

We don't know how long the journey of life we continue  
Because for the journey we have not given any revenue  
We boarded the train without knowing where it is going  
So, with the start of the journey every newborn starts crying  
They know that the uncertain journey will not be satisfying;  
As life moves on, we start to smile with cry  
Sometimes we are forced to remain shy  
To make our journey comfortable we try  
Yet, circumstances make our journey dry  
Suddenly we are told, journey complete, say bye-bye.

## Sacrifice

Life is full of sacrifices we have to do for others  
Sometimes for family, sometime for neighbours  
Sometimes for nation, sometimes for causes  
Sacrifices for God gives us always pleasures  
But in the journey of life, sacrifice no one measures;  
Without sacrifice life will be too selfish  
Like animals one day our life will finish  
Sacrificing animals for God is sin and must vanish  
Sacrifice your money, time, wealth which will perish  
In sacrificing innocent life for self gain, God will punish.

## Divorce

No bonding of love and understanding  
Physical attraction gives temporary binding  
After honeymoon, both busy in fault finding  
Quarrel starts in restaurant during dining  
The sword of separation starts hanging;  
The children became the worst sufferers  
Their pain and agony no one measures  
Living together is better than divorces  
Couple have vested interest binding forces  
Divorce is one of unruly generation creating sources.

## Love

Love is the binding force for living thing  
It is far stronger than wedding ring  
For love kingdom were abandoned by king  
Love is the most beautiful song we can sing  
Without love no one can become human being;  
Union of male and female also we call lovemaking  
In the absence of lovemaking, we will start disintegrating  
Love is the force for new generation and reproducing  
Because of love the human civilization is continuing  
Say, I love you, to dear and near in the morning.

# Hope

Hope is the carrot after which we run  
The stick forces us to take a turn  
Sometimes the turn became fun  
Sometimes we have to struggle for bun  
We continued, hoping for a better day with morning sun.  
When the carrot dried with passing of time  
The force of the stick became prime  
Hopeless became our life's painful tourney  
Somehow, we want to complete the journey  
Yet, hope is the motivation, not to make every day rainy.

## Self-Esteem And Ego

Self-esteem esteem is keeping your head high  
Ego is arrogance and your brain it can tie  
With egoism, mind will become ash and fly  
In defeat when ego is hurt, you will cry  
With Self-esteem to stand tall, you always try;  
Self-esteem comes from purity of mind  
In ego peace of mind impossible to find  
To other people you will never be kind  
In the black box of mind, you will be bind  
Self-esteem can open it and unwind.

## Hate

Hate may have thousands of reasons  
But for the haters it is always like treason  
It is good, if you can put your hate in prison  
For the harm done to you, hate is not solution  
To hate the sin should be our resolution;  
We hate people on flimsy ground  
So, too much of haters all around  
For a better society, it is not sound  
In the vicious circle we move round and round  
Through hate, peace, and tranquillity we never found.

## Pain Of Grief

It is an unbearable pain  
It comes in reaction chain  
No outlet to the drain  
How we tolerate is main  
Through death peace we can gain;  
The pain comes like monsoon rain  
Grief is every moment in the brain  
To live with it, our mind we have to train  
If try to resist griefs, it will be in vain  
More unbearable will be our pain.

## Profit And Loss

Profit and loss in life all are temporary  
Monetary calculation may become contrary  
With your health always show solidarity  
Only with life, profit and loss has continuity  
Important is to live today with positivity;  
At the end of the life, profit and loss is zero  
Live life today even with losses like a hero  
No one knows how will be his tomorrow  
Even today's sunshine may bring sorrow  
Remember, nothing can change time's arrow.

## The Place Of Misery (দুখালয়)

The world is a place for sinful people  
Life in the world for majority not simple  
Without explanation, many young lives cripple  
Even for the prophet's life full of trouble  
Only way to move, accept and be humble;  
World is a place of misery(দুখালয়) Buddha said  
With diseases and sufferings, the world is made  
That may be the reason why the sun is red  
For none in the world, God has given perfect bed  
The misery and sufferings end, when one is dead.

## We Can't Stop

The basic instinct of life says move on move on  
Instinct pushes me in the morning to move forward  
The mind says stop, in the end there is no reward  
If possible, go back to old days and collect your reward  
But instinct reminds that there is no way to go backward;  
Even if we want to stop, impulses will not allow  
The arrow of time we are destined to follow  
No one has the power to stop the time arrow  
By stopping to move forward, we will have more sorrow  
Even if we stop, we will move, because there is tomorrow.

## The Optimist and Pessimist

The optimist born crying and die crying  
The pessimist born crying, die smiling  
For pessimist, smiling is way of life  
Without smiling, pessimist can survive  
For smiles and joy, the pessimist doesn't strive;  
Though the end is same, a time draw at grave  
But for beautiful play, enthusiasm optimist save  
That is why optimists are performers and brave  
Pessimists become their own thinking's slave  
So, throughout life, they live in the dark cave.

## Jealousy

Jealousy is a creation of inferiority complex  
Never allow it to become companion apex  
Jealousy can poison your mind and soul  
In the nice game of life, you will play foul  
Life will become dirty, and soul will be sinful;  
Appreciate other's achievements with grace  
The instinct of jealousy will not come to face  
You will smile and enjoy even after losing a race  
Comfortable will be walk of life and its pace  
With jealousy in mind, hatred will also make base.

## Death Is Not the End

Death is only the end of the physical body  
In the minds of dear ones, you stay proudly  
All your shortcomings became cloudy  
Your positive virtues expand boldly  
The good legacy of dead, living one carries solidly;  
Life and death two sides of the same coin  
The other side of life, memory can only join  
After death all bad memories vanishes  
For the departed soul, everyone gives good wishes  
How you will be remembered, the chapter, before death finishes.

## Age Is A Number Only

Age is only a number not absolute  
Along with death, the number dilute  
For living more years none we salute  
At thirty-one may get more tribute  
Another one at eighty may be destitute;  
No need to bother about higher number  
Without knowing one day we have to surrender  
Some people die suddenly in a thunder  
Enjoy today, don't waste time, the biggest blunder  
In time, explore life's all types of wonder.

## Corruption In India

Corruption is an integral part of Indian culture

In the matter of corruptions, majority are like vulture

For extorting money, the system allows torture

Even after lot of schemes, poor has no future

To fate, the vulnerable people are forced to surrender;

Corruption is also an integral part of religion

People think, bribing God is an easy solution

So, for doing corruption, people have no hesitation

In India, culture, religion and corruption are in integration

To make Indian corruption free, we need a socio-cultural revolution.

## War And Basic Instinct

Basic instinct of man is not to forgive, but to take revenge  
That is why, there is always killings and no change  
History of human civilization is civilization of avenge  
The books on historical facts are full of war ravage  
Only Ashoka tried for peace and show a passage;  
The dream of a peaceful new world is still elusive  
Day by day wars are becoming dangerous and destructive  
To encourage tolerance and forgiveness be cognitive  
The world without hatred and war should be our objective  
But the basic instinct of human nature will remain subjective.

## When Religion Controls Head

When religion controls your head  
Your intellectual development is dead  
Independent thinking will see light red  
Inside the black box you live like mad  
Following mediaeval path, you will feel glad;  
Make your mind free and think beyond  
Come out of the narrow religious pond  
With stars and universe make your bond  
You will forget all your greed and wound  
In religion you can only move round and round.

## Let's Live With Nature

For our convenience and comfort, we are changing nature  
In search of a better quality of life we are doing blunder  
In front of nature, from time immemorial we surrender  
We never thought of other living being and their problem  
Because we carry with us the supreme animal's emblem;  
We blocked rivers, destroyed jungle for our comfort  
Filling natural lake to develop habitat, nature may not support  
So, to balance it, climate change nature try to import  
Coexistence with nature and all living beings is better option  
From nature's furry and destruction, we need an early solution.

## Be Original

Be original, not a copy of other  
The original copy is always better  
Even if you try, you can't be like father  
You become a shadow of him rather  
Being original, you can do wonder;  
You are empowered with different qualities  
In different ways some may have more quantities  
Don't make a comparison of horse with eagle  
On the racecourse, the eagle will struggle  
But in the sky the horse will fall and buckle;  
Be original and explore your own potential  
Remember, everyone's paths are not identical  
Your path may be less travelled and full of hurdles  
But at the end, you will carry more gifts bundles.

## Corruption In India Is Illegal

Prostitution is illegal in Thailand

Bribe in India also illegal and prohibited

But just to do it, people are committed

Corruption in India is always permitted

Even after red handed arrest, bail is granted;

Corrupt people in India are never punished

Quickly their fear for punishment vanished

No one bothered, even though image is tarnished

Once acquitted, greed for bribe never finished

The energy to do more corruption, courts replenished.

## Life Without Soul

Sometimes we are forced to live without spirit and soul  
Because in our hearts, fate and destiny makes big hole  
But because of too many reasons, we have to carry on our role  
Only passing days, months and years become our goal  
Even among crowd, we feel as if we are alone in North pole;  
The basic instincts of all animals are to live, not to die  
Who thought about instinct of a hen while eating chicken fry  
But at the time of killing, the animals also cry  
To save life and live more, many animals try  
For humans, life without spirit and soul is life of lie.

## Smile Even If You Face Misery

If we think only my misery, pain is strong  
This will be far from the truth and wrong  
With us thousands are singing same song  
For many people the list of grief is too long  
We are only following the same path along;  
Pain and pleasure are like tides of ocean  
Nothing happens in the life without reason  
In misery, don't put your peace in prison  
Smile always even if you are in tension  
In the long run, the journey will bring solution.

## Temporary Life

To build a Taj Mahal, I am not an emperor  
Neither I am Lord Shiva to create horror  
Only I can compose from heart's interior  
I am a suffering human being too inferior  
Life is temporary in the world's corridor;  
People forget the most powerful kings  
Even the strongest eagles lost their wings  
The beloved one, we can keep in broken heart  
To remember the good days and smile is smart  
Forever, even God's incarnation can't drive his cart.

## Two Options

Every morning life gives us two option  
To live or not live is our own decision  
To live basic instinct gives direction  
But to die we have to take different resolution  
For own decision to die suicide is only solution;  
To die is not an easy task for living thing  
We expect, better situation tomorrow will bring  
What will happen tomorrow, even unknown to king  
When you decide to live today, enter the ring  
Enjoy the day, win the game and loudly sing.

## Conflict Resolution

Conflict is part of the life and nature

It can make or break someone's future

In our lives, conflicts can give torture

Total avoidance conflicts are not possible

But resolution of conflicts is feasible;

Without conflicts, truth may not come out

Regarding the truth many will have doubt

Conflict pushes the dispute to logical conclusion

Through conflicts many vexed problems get solution

Resolution of conflicts reduces social tension.

## Own Mantle

To live or not live is one's own choice  
In this matter, others have no voice  
My problems and pain people rejoice  
No one is paying my bills or my bank debts  
So, I never bother for judgemental tests;  
To live as a lame duck is very easy  
The courage needed to die we keep hazy  
We honour brave soldiers for death in battle  
Those who run away, with shame has to settle  
Whether to live or not to live is one's own mantle.

## Every Individual Is Judgemental

Freedom of speech is fundamental

Thinking of each individual is differential

Everyone in their opinion is judgemental

Difference of opinion is circumstantial

Quarrelling for differences is psychological;

In arguing for differences always be logical

Verbal speech should not start quarrel

Never allow your mind to think criminal

This may lead to unwanted fight physical

Use of force to prove you right is unethical.

## Praying God Is Not Mandatory

To pray God is not mandatory  
Nor praising him is statutory  
Priest is not God's functionary  
God lives in his domain solitary  
Yet, infinite universe is his directory;  
The universe exists as per its own law  
Our knowledge about universe is raw  
Nature has given us independent mind  
The better way to live we ourselves have to find  
Prayers can only help us to be generous and kind.

## If God Does Not Exist

If God really does not exist  
The question of sin extinct  
Morality will have no meaning  
Integrity will not be binding  
Ethics will see its own ending;  
Survival of the fittest will firm  
Killing human will not be crime  
Love will be like animals' way  
Emotions will have dangerous sway  
Humanity will derail from highway.

## Stop For A Moment Today

Time moves very fast since time immemorial  
In life, we also move fast unidirectional  
So, our relative speed becomes functional  
Fast life forced us not to remain as social  
But like tiger, we can't live as lonely animal;  
Sometimes reduce speed, stop and look around  
Unexplored, unseen beauty of nature is abound  
Because of high speed, you missed many in the past  
No one knows that today is his chance to stop last  
Try to stop today and smile, tomorrow you may become dust.

## No Measure Of Pain And Grief

Pain and pleasure, no one can measure  
No unit like lumen or decibel for pleasure  
Pain of grief we have to feel, and surrender  
To suppress pain and pleasure is blunder  
One day heart will break with big thunder;  
Never try to hide grief and pain in hidden enclosure  
Love and grief are emotion, not possible foreclosure  
If we try to block emotions, it will generate pressure  
Better to give mind and heart, outside world's exposure  
The memories will always accompany us as treasure.

## Life And Money

Life and money both are volatile  
Like glasses they are also fragile  
Today is the time for us to smile  
In search of Joy, walk for a mile  
For money don't live alone in exile;  
Money is only means for better life  
Greed for money is double edged knife  
It is difficult to earn money is true  
More difficult to spend is the clue  
Don't stuck life in money's glue.

## Time, The Primary Resource Of Life

Time is the only primary resource  
Once wasted you can only remorse  
The clock of time never reverse  
Nor time, no one can preserve  
Only utilization, time always deserve;  
Time waits for none, we all know  
Yet, in idleness, we allow time to go  
Sometimes we thought, today time is slow  
But since Big-Bang, time has the same flow  
Make today's time to sparkle and glow.

## Life Is Always Half Full

Most of the people wish to live hundred plus  
So, always half empty their satisfaction glass  
For fear of future life, they failed to live in class  
They hope that in the future there will be better grass  
In the life's examination, majority of them failed to pass;  
No need to worry about longevity and success  
Too much thinking about future life is useless  
With half full wine, today's meeting happily address  
In today's party with friends, be the empress  
You have no control on death, it is a natural process.

## Who Has Upper Hand

All religions say God created universe  
He made all living beings so diverse  
The course of universe he can reverse  
The whole universe, he only preserve  
His existence science can't curse;  
Science says, no proof of God's existence  
Fear of natural forces is reason of God's persistence  
Life came to world because of cosmetic accident  
Evolution of life in millions of years is true incident  
Neither religion nor science can explain life is pertinent.

## Treat Animals Ethically

Ethical treatment to animals necessary

For ecological balance they are compulsory

Without animal mankind will have different story

To give animals friendly treatment, be a votary

For destruction of forests, animals are in misery;

Can we think of civilization without cows, dogs, cats and horses?

All animals have their contributions in civilization course

With extinction of animals, civilization will have reverse osmosis

From the position of supreme animal, human will depose

Let the animals have equitable rights and repose.

## The Prison Theory

Is our soul a prisoner in the body on this planet?  
The prison theory is a philosophical new tenet  
Only after completing our term, to return we get carnet  
The body attracts our soul like a powerful magnet  
And we think we are supreme in this flashy cabinet;  
From time immemorial, for birth in this planet sages repent  
Big warriors like Ravana also came to earth as punishment  
The world is a place of misery, Buddha also supplement  
When we reached earth, all humans cry at that moment  
Some people die quickly, because to them God is lenient.

## **Our Role Is Limited**

Our role in the universe is very limited  
But to think anything is permitted  
Imbalance in thinking and reality is fact  
People who think for result first, can't act  
Looking at poor results, no need to react;  
Playing an uncertain role is a real fact  
Even with a small role, we can leave impact  
Performing your duties never distract  
While living, with people and nature interact  
The concept of God, soul, rebirth all are abstract.

## Bhupen Hazarika

A genius is born, never be made  
For genius, different is genetic code  
Bhupen Hazarika is in this clade  
His contribution, glory will never fade  
He was a human of different grade;  
Sacrifice everything for music and humanity  
For a better world and brotherhood, he showed solidarity  
He was a musician with highest level of integrity  
Never worried for money, wealth, or fame  
Concerned only about excellence in musical game;  
His contribution to Assamese culture is immense  
In his composition, never allowed anything nonsense  
Love for Assam, Brahmaputra and Bihu was intense  
In Assamese music now, Bhupen Hazarika is best incense  
His life was full of struggles, hurdles and suspense.

## Nothing In My Kitty

I was like Humpty Dumpty  
She was Cinderella pretty  
I had everything plenty  
Now my heart is empty  
I have nothing in my kitty  
The journey is now so dirty  
Living is only a forced duty  
With my life no amity  
Lost faith on all deity  
Never thought life would be pity.

## The Best Instagram

From time immemorial, our best friend is dog  
If we write dog in reverse, it becomes God  
Assamese Guru Sankardev told, the soul of dog is Ram  
Dog was Yudhishtira's last companion and pain balm  
In our life, a pet dog will never ever become a spam;  
A dog can change, a lonely human's life program  
The organs of dogs can work like pyelogram  
With the owner's life, the dog's life forms an amalgam  
The best friend knows about you through natural telegram  
If you have a dog, he is your life's best Instagram.

## Do It Now

Tomorrow's job, do it today, today's job now  
If tomorrow comes, everyone will say wow!  
Different jobs may come tomorrow in a row  
Because of sickness, activities may be low  
For tomorrow you may be on with broken toe;  
Keeping jobs for tomorrow is a bad habit  
It will narrow your vision and life's ambit  
Doing today only helps to move forward  
Day after tomorrow is waiting with reward  
The habit of pushing job to future, discard.

## The Uncertain Result In Uncertain Game

I can't play spin, googly, fast ball and bouncer  
If different balls come to me in the same over  
My life skills are not perfect and so stronger  
I am not capable to face all challenges together  
I have no alternative except to surrender;  
Sometimes we can face toughest and fastest ball  
But even a loose ball can give to best players out call  
Life is the game of uncertainty, without seeing the umpire  
Death like Lady Diana and Monroe is not very rare  
The result of that may be defeat even with utmost care.

## What Is Strange?

Man, God, Demon all tried for Immortality  
But all their efforts were always futility  
Today is the time in our hand for utility  
Yet, majority of people want to live forever  
They accumulate wealth and don't share;  
Yudhishtira of Hindu mythology told it is strange  
Forgetting death, to live forever, man try to arrange  
The wise ones always try to take a different approach  
So, they are happy to live with their limited resource  
In the graveyard all are equal and same, of course.

## Happy Birthday, I Love You Mitali

I am an ordinary man, can't build a Taj Mahal or monument  
My poetic mind and infinite love are only my present amount  
Every poem coming from my mind is reflection of love  
We were two sides of same soul, it naturally prove  
When I write it down on paper, it is flying like a dove;  
Life and death cannot be separated from one another  
In the journey of life, in the middle, we come together  
Love and only love made our bonding stronger  
Death is only a natural phenomenon, love is forever  
I love you Mitali, every month your love, I will remember.

## Uniformity

Same soil can grow sugarcane, bitter melon and lemon  
In the taste of all the three plants, nothing is common  
The same soil can produce totally different cardamom  
In mankind also, people are honest, simple and mammon  
The colours are so different, white, black, red, salmon;  
Uniformity is not natural, only man and society impose  
The same poem exactly, not even two twins can compose  
Let us allow diversity to move it's own way and dispose  
With the same machine, all diseases can't be diagnose  
The society should avoid forcing uniformity overdose.

## Only Purpose Is Live and Let Live

Life is surprising and strange beyond imagination

It is a journey not a problem, so without any solution

Life can survive in dangerous and horrible situation

Yet successful people commit suicide for reason simple

To live or not to live is uncertain and life's biggest gamble;

To purpose of life is live and let live others

For all living beings in nature, God is the father

If we love God, we are duty bound to live like brother

All other purpose of life rather than living is secondary

Some new-born baby's life in world may be momentary.

## Day And Night

Day and night are virtual reality  
For all creature it has no uniformity  
Even for humans it has no conformity  
Some sleep in the day and work in night  
For some, day is the time for work and fight;  
Neither day is good and night is bad  
For many, night is better, as we are in bed  
The day is full of sorrow, and so we are sad  
In day light, bat and owl become mad  
The day and night are virtual for the star red.

## We Are Helpless

In the hand of destiny, we are powerless  
When the worst happens, we are helpless  
Our loss is not measurable and priceless  
People blame, we acted haste and careless  
Actually, we acted our best and selfless;  
Fate can make the King to be homeless  
The most sensitive one to be shameless  
Yet always act everything in life harmless  
Never care about people's opinion, baseless  
Otherwise the rest of the life will be in misery and peace less.

## Life's Synopsis

The vastness of universe beyond imagination  
To explain in detail, homo sapiens has no solution  
The powerful devices have not sufficient resolution  
Different theories give different ideas and explanation  
Realizing our nano existence is better intuition;  
The time domain of homo sapiens is too small  
The hundred years living is longevity we call  
The age of the universe calculated is only hypothesis  
In other parts of universe, time may be in different synthesis  
Too small existence for a moment is life's real synopsis.

## The Oblong Journey

Any moment life may go wrong  
We must keep our minds strong  
The journey of life is always oblong  
The bad days never last too long  
Even with tears, we sing sad song;  
Sometimes bad days try to prolong  
With a smile, we have to move along  
Good time will come after few furlong  
Learn to enjoy the journey's dingdong  
Hurdles only make our life super strong.

## Now I Am An Adult

God always gave me only hurdle  
Every day I was forced to struggle  
All the time, pushed me to trouble  
My comfort, God always smuggle  
I have no way but to become humble;  
The journey was always very difficult  
I took all the pain to become an adult  
So, now I am in a totally different cult  
My boldness is my hurdles final result  
Nowadays, I can resist any one's assault.

## Life Is Mixed Basket

Life is always a mixed basket  
Even Salman Khan missed target  
Achieving hundred percent, forget  
For some things we have to regret  
Uncertainty is every life's secret;  
On the rough road, some eggs will break  
For the good ones, speed you must check  
Life's good things virus may hack  
To the comfort zone, you may not be back  
Life's journey may go on a different track.

## The Dirty Game

The life begins in the womb in a dirty game  
Birth as a child in the hospital is also same  
For a year or so we only crawl and lame  
For our dirty naked start, whom to blame?  
Once we can stand up, the struggle start  
Our parents forced us to be perfect and smart  
But destiny doesn't allow everyone a full cart  
When the dirty game will end, no one is alert;  
We try to play clean, safe and enjoy the game of life  
Choose our partner in the game as beloved wife  
Yet, the game becomes dirty and life a double edge knife  
Everyone tries to make goalless game enjoyable and rife.

## Flowers In Three Occasions

We give flowers in the birthday and wedding  
On the funeral also there is flowers flooding  
Birth, wedding and funeral has integral bonding  
Sometimes, funeral marching, critics are leading  
For the dead, a different journey, life is mounding;  
On birthday and wedding we smile and greet  
But on funeral, to say goodbye we cry and meet  
Yet, flowers are needed to make last journey colourful  
But the life of near and dear ones is painful  
Remember, telling bad things about the dead is shameful.

## Still There Is Tomorrow

I have no future, no tomorrow  
Trying to follow the time arrow  
Today, I have only hidden sorrow  
From anyone, nothing to borrow  
Given everything to God's escrow;  
Path of my life is now very narrow  
Yet in the morning, I open the window  
Smile gently, looking at the rainbow  
Enjoyed the quarrel of sparrow  
Didn't bother to look at my shadow.

## No Choice But To Live

To born or not to born, we have no choice  
But as an adult to live or not to live, we have voice  
Yet, to die as per own will, we are forced to devoice  
Life is beautiful and heavenly, we have to revoice  
Even if we are not happy and in pain, we are forced to rejoice;  
We are taught, every penny, we have to pay as per God's invoice  
Otherwise, we will not be free from sin and will not deice  
Other than living we can't exercise our dying choice  
In pain, sorrow and misery, we can only make noise  
To Win the so-called tourney life, we have to poise.

## Failed Teamwork

Give opportunity to jealous people for homework

Let them happily open their wine bottle cork

Sometimes out of anger, they may throw fork

In jealousy, they will not enjoy the taste of pork

To pull others leg, on new ideas they will rework;

Sometimes leg pulling also becomes teamwork

But no one willing to spend time in spadework

No one also ready to do necessary paperwork

For leg pulling they failed to decide on framework

Leg pulling always remains as individual's patchwork.

## Don't Be Jealous

By nature, all human beings are jealous  
But to appreciate others should be nous  
Appreciating good jobs is truly pious  
A bald man always wishes to be pilous  
Better, for own bigger achievements, focus;  
Criticising others success is dubious  
It will imprison you in a circle vicious  
At neighbour's success, you will be anxious  
For your own performance be serious  
Otherwise, to die with jealousy is obvious.

## Let Them Enjoy

Sometimes I enjoy poking jealous people  
To make them jealous is easy and simple  
Through your hard work create a ripple  
Automatically their jealousy will be triple  
In anger they will scratch their own pimple;  
When you try to do different, some will pull leg  
Some people will carry your negative tag  
Your progress some people will try to drag  
Once you succeed, for favour, they will beg  
Let jealous people enjoy their own peg.

## **Intrinsically Human Are Selfish**

Intrinsically all humans are selfish and self-centered  
Protection own life and property, they are concerned  
Neutrality is relative and situation, place and time specific  
For their own interest and security, they try to show pacific  
If their interests are not fulfilled, they become terrific;  
When wealth is abundant, at old age they do charity prolific  
At old age helping others, people feel joy beatific  
Yet for their self-interest, they serve to know traffic  
Even then, their generosity is welcome and vivific  
For true neutrality, all human values should be unific.

## Nature Only Heals

Medicine is not the actual healer  
So, sometimes it becomes killer  
For someone, side effects are bigger  
Other complications, medicine may trigger  
Life without medicine is always merrier;  
Yet, medicines are necessary evil  
Every morning we are forced to take pill  
To our WBC, medicines give fighting zeal  
Nature expedites the process of heal  
With medicines we also need good meal.

## Is Our Life Stage Managed?

Is our life in the world really stage managed?

For a compliment of acting, we are so seriously engaged?

Sometimes, circumstances forced to believe it true

No explanation, why the fundamental colours are red, yellow and blue

What energy actually is, also we have no answer and clue;

We have seen the stage, but not the invisible director

All religion says, of the universe, he is the unseen creator

From nothing, we can't create energy in the nuclear reactor

Only in the stage called earth, some man tries to be dictator

But in the end, he also seems to be a temporary coordinator.

## Life Is Coming and Going

The human life is coming and going  
Without knowing we are following  
The cycle of life is never slowing  
With population, current is increasing  
Yet, sudden death is always surprising;  
We come and we go without knowing  
Life expectancy also slowly increasing  
The quality of life in the world is improving  
However, human has not stopped fighting  
Knowing certain death, our greed is astonishing;  
The law of nature is compulsory and abiding  
Human values, ego and lust is destroying  
Truth and honestly humanity is abandoning  
Diseases by viruses like Corona still horrifying  
And our uncertain life in an unknown journey continuing.

## The Reporter

He need not carry heavy load  
Pen and camera only on board  
Yet, there is difficulty on the road  
Some places, impossible to inroad  
His duty is fact and truth, unload;  
Sometimes for truth, put life in danger  
In war front, he is always a stranger  
For millions, he is information binger  
In elections, he became game changer  
To his integrity, many people point finger.

## The Porter

He has no savings, provident fund or pension  
Yet his face looks as if he is free from tension  
Not thinking too much about tomorrow may be reason  
If he thinks about day after tomorrow, he has to do treason  
So, to pass today smiling may be his only solution;  
The porter carry load as much as he can lift  
But few people bothered to give extra penny as gift  
Many rich people bargain too much, and starts rift  
For wife's treatment, the porter is doing extra shift  
To save his wife, the porter is trying deadlift.

## Dynamic Equilibrium

Life is complex dynamic equilibrium of body and mind  
Very rarely in world, a Stephen Hawking we can find  
The best robot or supercomputer will stand behind  
A healthy mind in a healthy body is needed for mankind  
From time immemorial, the sages and philosophers remind;  
Every day, every month, every year, mind should be refined  
To a fellow machine, another machine can't be unkind  
We create machines, but to fellow man we are unkind  
In greed, ego and jealousy our mind easily becomes blind  
But ageing, even a super strong mind cannot for long bind.

## **Mind Is Always Young Not The Body**

My mind is still like twenty years young  
With times it matured and became strong  
Since childhood, the journey is very long  
In temptations sometimes it went wrong  
Yet, it remained as honesty and integrity hong;  
Soul is abstract, immortal, not everyone can feel  
But throughout life mind remains full of zeal  
Our mind, even in worst situations, on one can kill  
After the worst disaster and defeat, mind can't remain still  
Sometimes, even the strongest minds need motivation pill.

## Body And Mind

Life is perfect combination of body and mind  
So, towards both of them, necessary to be kind  
Without body, mind, nowhere anyone can find  
No one knows, how body and mind is bind;  
Every organ of body is necessary for good health  
Without better chemistry of body and mind, no value of wealth  
Rather than becoming mad, better option is death  
For a better mind in better body, always tilth;  
Good functioning of all organs is commonwealth  
If necessary, discuss problems through telehealth  
Mental health is equally important for better life  
Body and mind should be like the husband and wife.

## As I Grow Old

As I grow old, physically I am not bold  
Many new diseases suddenly unfold  
In winter, easily I am attacked by cold  
I carry tablets, instead of valuable gold  
My excellent memory decreased manifold;  
I love you to girls, now can't be sold  
By me mathematics problems can't be solved  
Many of my feelings remain untold  
Somehow my body and mind I can hold  
As I grow old, life is in a different mould;  
As I grow old, heavy weight, I can't uphold  
My decisions, family members withhold  
No interest in items for the household  
To injustice and illegality, I remain blindfold  
As I grow old, I am vulnerable in my stronghold.

## The Residual Life

Life begins at sixty is not factual  
It is only residual life in actual  
For the poor and homeless it is brutal  
Life after sixty is mostly cultural  
For majority of people, it is residual;  
The healthy people with money claim so  
With cash in hand everywhere they can go  
Travelling with young partners, they will say wow  
But for the lame duck, the life is very low  
Only with bank balances, life after sixty can glow.

## Saying No

Learn the art of saying no  
Always with people, don't flow  
Sometimes, take own path and go  
For none, saying no is a big blow  
Nor your life is becoming narrow;  
Failure to say no can push to the trap  
In the desert you may land without map  
Sometimes, no becomes safety cap  
Between no, and yes, may be, life and death gap  
Must know in life, when to close, yes tap.

## Fake Friends

Fake friends are dangerous than enemy  
They will deceive you like the alchemy  
They are only companion to false academy  
Their goal is profit making and blasphemy  
All their words and actions are polysemy;  
We say a friend in need is a friend indeed  
But difficult to get a friend without greed  
Fake friend will fly away, fulfilling own need  
In the name of friendship, enmity will breed  
In life fake friendship, no need to nurture or seed.

# Chlorophyll

Photosynthesis is so simply done by plant  
Nature has kept secret it's processing patent  
Energy can be easily converted to matter by chlorophyll  
Animals skin is deprived of food processing mesophyll  
No animal can't do photosynthesis even having xanthophyll  
Simplicity of nature is the greatest miracle  
Life and death in living beings is simple cycle  
Without chlorophyll, there will be no human muscle  
For existence of mankind, chlorophyll is oracle  
If science put chlorophyll on our skin, life will be simple.

## Game

For enjoyment animals also play game  
But like humans, their game is not same  
In their game, there is no losers to blame  
Nowadays, humans enjoy only seeing  
Few smart people earn money playing  
Adult people now rarely play in the field  
Because for their children, fortune to build  
Rather than playing, many are busy in gambling  
The beauty and enjoyment of game is trembling  
This year, go to the field with friends and start bowling.

## House Of Ice

Conjugal life of husband and wife is home of ice  
No one knows what is there in the life's dice  
Every moment we should be ready to pay a price  
For husbands, wives most of the time sacrifice  
It is better to live alone, rather than marrying twice;  
It is the basic instinct of each partner to advice  
But in that matter, wives always have bigger slice  
Females are better cook and in using spice  
Before speaking, husbands must think thrice  
To keep the house of ice, both partners, be overnice.

## O Lord

O Lord, I have accepted all what you gave with smile  
Sometimes, keeping tears in my heart  
Sometimes, with fear and astonishing  
The life I spent was never bed of roses  
Nor the road was a golden experience  
Never made any profit and loss account  
I know, in the end, I have to go irrespective of profit or loss;  
The pleasure and pain, I realized that two sides of coin  
I have to move on and can't separate the joint  
Paid heavy price for honesty, truth and love  
Yet, I move on and try to fly and live like dove  
Never harmed anyone, but try to show good path  
Never tried in your name, falsehood or holy bath  
Now, kindly lead and light my dark path.

## College Days

The meeting ground was for academy

Enjoyment with friends, no foe or enemy

Quarrels were foundation of harmony

Some failed in exam and became alchemy

No one was serious about blasphemy;

Friendship was above caste, creed or religion

Love all hate none was the motto and practical solution

Beautiful female always had more friends and better resolution

The bright students pass out with smile and distinction.

## Biological Need

Food, sleep and sex are needs basic

There are also many other instinct;

As kids, we sleep more eat less

When we grow, sleep becomes slow

Intake of food started to grow

Adulthood brings need for sex

Love making, always try to make max

Growing old means, going to square again

Little food, less sleep and from sex nothing to gain

Majority of living beings struggle is for food, sex and sleep

If your biological appetite is well at ninety

Even our purpose less long life is enjoyable and good.

## Eternal Sleep

We enjoy maximum in biological need  
All other physical needs are secondary  
Enjoying food at best restaurant is excellent  
Sleeping well at night till death makes life less turbulent  
We enjoy eating food with friends and dear ones  
But sleep in groups, everyone is reluctant  
For one night with celebrity, people can spend million  
If you are greedy of young companion, there is no solution  
Food is not for filling our hungry stomach alone  
In most of our life's activities, it has clone  
Beyond reproduction, sex has it's beautiful arc  
Finally in the end, in eternal sleep we all stuck.

## Consumerism

Consumerism and nucleus family made us more selfish  
Old age social order of community living, they demolish  
Brotherhood and family relations, in reality diminish  
Even the children no more smiles, behaving childish;  
Everyone is busy only for family and self polish  
But blame the society and others for the rubbish  
For our selfishness, the traditional bonding now vanish  
This way, one day, the whole social order will finish  
Existence of humanity and civilization will vanish.

## Lachit Barphukan, The Legendary Warrior

Lachit was a warrior extraordinary  
Inspiring is his life's commentary  
Assamese military general par excellence  
To the mighty Mughal gave resistance  
His technique of warfare is now military jurisprudence;  
Love for motherland was motivational essence  
His strength, leading from frontline always enhance  
Monitor even at midnight, the preparation sequence  
Killed his own uncle for preparation lethargy and nuisance  
About to kill the priest, for not giving timely clearance;  
Conclusively stopped marching of Islamic progress to east  
For him only, in China and Myanmar, threat to Buddhism is least  
A warrior at par with Shivaji, Rana Pratap, Prithu the great  
Even with serious illness, mighty army, he can easily beat  
During his lifetime, Ahom Kingdom, no one could defeat.

## The Sun Never Rises

The sun never rises or set for making us happy  
Sun is static and fixed and never feels nappy  
The life of Sun is bright, glorious and zappy  
Sun is the solar system's centre and pappy  
All planets including our home earth is flappy;  
What we say sunrise is in fact because of our home's rotation  
Saying Sun rises and sets is supreme animal's misconception  
Revolution around Sun gives us time arrow's direction  
Looking at the morning as a new day is hallucination  
Sun will bring better tomorrow, only mental hibernation.

## Our Virtual Life

We can't live in present time without our cell phone  
It has now become brain's extended clone  
Every individual may like different ring tone  
But for everyone, it is now life's backbone  
Misplacing our cell phone, we all are prone;  
Cell phone is now important than breakfast  
Without it, our day can't move and will be sunfast  
To keep cell safe, many people use holdfast  
In changing their cells with latest, some are ultrafast  
Cell phone is now our virtual life is soothfast.

## When Science and Religion Agree

Thermodynamics say entropy of universe will go on increasing  
So, disorder in our world will never see trends of decreasing  
Cruelty, hatreds, selfishness, wars will be order of the day  
To, peace and brotherhood, no, no, everyone will say  
There will be abnormal increase in the population of gay;  
In the matter of entropy, science and religion are on same track  
Though scientists will say, in religion there is no proven fact  
Hinduism say disorder is increasing since the days of Ramayana  
The same thing is also advocated by Buddhist Mahayana  
The disorder continues to grow irrespective of Dakshinayana or  
Uttarayana.

## Journey Without Destination

We all know, life is a journey without destination  
But some companions get down early for whose invitation?  
No reasons we can find even after lot of investigation  
The journey continues through different habitation  
But to know, where we have to get down, no solution;  
The souls exists or not after the journey is immaterial  
To know about after death and solus in mankind is palatial  
The study, research and imagination are substantial  
We don't know, is souls only life's components, residual  
Or our soul is the infinite existence, not perpetual.

## Our Existence

Our existence in cosmos is insignificant when we alive  
It is totally immaterial, if after our death our image strive  
Things like love, happiness, joy are meaningless after dive  
Honeybee has no existence outside his hive  
After death, how can one enjoy a car ride on marine drive;  
Whatever respect we get after death, no one know  
During lifetime only, one can enjoy recognition glow  
No value of even the highest award, once life stops flow  
To recognize and appreciate, never be miser and slow  
Tomorrow from a cruel time, you may get the biggest blow.

## Gender Discrimination

One female is killed every thirteen minute  
Their voices, orthodox religions try to mute  
Worldwide, discrimination against female is acute  
In the eyes of nature, families are nice and cute  
But to the female, civilized society is brute;  
Gender discrimination, some society refute  
Yet in modern society also, it is not totally dilute  
Some women, as our leaders, we used to depute  
Women head of nations, we used to salute  
But in overall picture, these are only volute;  
In some societies, supremacy of male is absolute  
Asking for equality, women they prosecute  
For misery in the family, women they attribute  
Thousands of women are forced to become destitute  
Primitive golden era of equality, we must restitute.

## Society Vs Advocate, Doctor And Engineer

Advocate, Doctor and Engineer all are professional  
Engineers are generally self-centred and unidirectional  
Advocates are most of the time social and political  
As life saver, Doctors always get, respect substantial  
Interactions with people by engineers are occasional;  
The system of justice used by advocate is still colonial  
Doctors can't resolve many problems that are hormonal  
Engineers' solutions are quick and always functional  
To work for people and society is not compulsory, optional  
With Engineers people's bonds are not emotional;  
Doctors can eat the cake and have it too from society  
To get rid of diseases and pain is always a priority  
No one likes to live in confinement, solitary  
To come out of jail is every individual's priority  
Less attention to Engineers for lacking financial integrity.

## Support Innovation

Innovative thinking is important

Imagination should be vibrant

Knowledge and skills pertinent

Memorizing books for degree blatant

But rush for degrees is still extant;

Encourage children's unique potential

Intelligence quotient not mathematical

For imagination young has better credential

Parents support for innovation essential

With proper support, success will grow exponential.

## Efficiency Of Life And Living

Efficiency is output divided by input  
If you can't spend you are on back foot  
Even if you earn millions of dollar  
You will never be in the list of scholar  
Alfred Nobel realized after getting a bouncer;  
You may save lot being corrupt and unethical  
No one will ever give you love and respect being antisocial  
Someone giving you salute is circumstantial  
It may be for reasons personal or political  
But in your absence, everyone will comment whimsical;  
Only earning money never make a man truly rich  
With generosity and charity, he much stay on the pitch  
Otherwise, your millions will go to someone as easy catch  
Without scoring a single run, you will lose life's match  
During lifetime and after death, you will remain in a discarded batch.

## Why Do People Come To Our Lives?

People come to life and go from life, don't know the reason

After their departure life becomes a

un-escapable prison

To remain in the prison, we have too many reason

But to go out of prison, we have only one solution

With God and family, we have to do treason;

People say, there is life after death and soul never dies

Then if we try to meet souls elsewhere, why so much cries

May be to force us to live in prison, people lies

If killing friends in war is not crime and is glorified

If someone wishes to go and meet souls, why are people terrified?

## Junior Artists In Bollywood

They are neither celebrity nor millionaire  
For food, cloth, shelter, work they share  
Junior artists becoming rich is very rare  
Treatment to them by producers not fair  
But for dance sequence, they have to pair;  
Junior artists don't have money for medical emergency  
Sometimes they have to beg for cash currency  
Their lives are not better than any casual worker  
To get job also, they are forced to pay to broker  
Behind the screen, no own willing to see their hunger.

## Politician

Not possible to bell the cat  
He is already very fat  
Now sitting on costly mat  
Don't run after any rat  
Playing with his beloved pet;  
Nowadays, cat knows how to fool  
Free electricity and subsidies best tool  
Poor rats don't need swimming pool  
With freebies traps, always cat will rule  
Rats should take rest and stay cool.

## Let Us Act Rational

All animals struggle for survival  
But they don't have any festival  
They also don't have any ritual  
Animals play games that are natural  
Some animal species are also social;  
For survival, animals also quarrel  
Their fight is justified and logical  
They never start war for reason political  
Only man fight for reasons whimsical  
Human beings thinking is not rational.

## Expansion Of Universe

The universe is expanding and expanding directionless

The infinite cosmos has no direction like we have in the world

The mystery why and towards which universe is expanding yet to unfold

Different stories and hypothesis the scientists told

Scientists' community itself is not unanimous to a theory bold

One day all these hypotheses will be discarded and become cold

The infinite universe cannot have a border or edge

It is a mysterious and infinite pages unfold book

Once we read a page, the time and space added more pages

Our acquired knowledge quickly became outdated on backstage

The thrust to know everything about cosmos is growing

Yet, the reality and truth about the universe and God is not removing.

## Something And Nothing

Something can be created from nothing  
Nothing will be the ultimate of something  
The existence of universe is then miracle  
Everything else are evolution and simple  
In something from nothing science cripple;  
Matter, antimatter, energy, dark energy all came from nothing  
Yet, number of fundamental particles, physics, still counting  
Our existence is virtual, and illusion was told thousands years ago  
Now, it is again coming back to our knowledge domain with a logo  
If something is from nothing is possible, many concepts we have to forgo.

## When People Troll

When people troll  
Have patience, scroll  
In the trap, don't fall  
Go to a shopping mall  
Let them play their ball;  
People troll famous people  
Jealousy is reason simple  
Your popularity will be triple  
Troll will die down in dribble  
During trolls, always be humble.

## After My Death

After one month of my death, everyone will forget  
For that, I will not be in the world to regret  
Friends and relatives will be busy to achieve target  
They have to move fast and fight like the light brigade  
By next month, in the market, there will be new gadget;  
After one year, my name will erase from all document  
In future, no one will require from me any type of endorsement  
Some will be happy that there is no need of debt repayment  
My death certificate will remain as my final achievement  
So, what will happen in future after death, I have no sentiment.

## Insignificant Me

I am Insignificant in my locality, city and country  
No one bothers even in social media my exit and entry  
Every individual is busy with their own domestic party  
In the city crowd, I am alone and living solitary  
Together we all, made the social life very dirty ;  
Our significance in the universe is millions time smaller than a dust  
Our lives also in the world for thousands of years do not last  
Only as a social animal, our significance we can cast  
Like a bubble, our existence any moment can bust  
After our departure, wealth, name, fame everything will rust.

## Unhappy Me

I am not happy, because I am not deaf, dumb and blind  
In every step of life, exploitation and injustice I find  
My conscience and sensitivity, permanently I can not wind  
If I open my mouth for some underprivileged, friends also mind  
I can't remain silent spectator, hearing words unkind;  
In the morning, when I saw the old pulling a loaded cart  
My sorrow and unhappiness began to start  
On the red light, few beggar knock my car, it touches my heart  
My mind inside can't remain silent and smart  
My happiness without knowing, silently depart.

## Spiritual Insubordination

To live hundred years is not my vision  
To eat best tasty food is not my mission  
To have branded clothes is not a solution  
All these cannot make my pain dilution  
For comfort and tranquillity, I need better substitution;  
Denouncing world is also not good direction  
Meditation gives only temporary hibernation  
All religions are now in wrong, ugly position  
From truth, science is still at distant location  
So, I am suffering from spiritual insubordination.

## No Need Of Anything Material Now

In life now nothing material to gain  
Future is only for experiencing pain  
How I tolerate pain is question main  
The pain is tying me like a rigid chain  
All efforts to escape pain went in vain;  
Everything was fine and I was flying high  
Storm came and the flight became sleigh  
I could not save my dearest companion  
Though, I thought, I am expert in such situation  
Now except accepting pain, I have no solution.

## Our Family Cult

How funny, that I have never lived as an independent adult  
So, now find it very difficult to face time's irreversible assault  
Our family, since great grand Mother's Day, feminist cult  
Equal treatment and rights in the family is the traditional result  
Sometimes, from neighbours, male has to hear 'henpecked' insult;  
Now, living alone as an independent adult is very difficult  
How can I move as single, in our beautiful midcult  
It is difficult at the age of sixty plus to do somersault  
I have to start afresh from beginning as a nonadult  
Right time for me, to have a mentor or jurisconsult.

## Life Is Now A Different Game

Life is now not the same  
With injury, I am lame  
So, it is a different game  
Everyone tries to tame  
For it no one to blame;  
The rules are not different  
I have to play in a new format  
To continue, I can't remain dormant  
Win or lose now not very important  
To complete the game is pertinent.

## Good Health Alone Can't Guarantee Longevity

Mental problems may be our own creation  
But for many physical problems no explanation  
Even balanced diets can do little dilution  
Exercise is not always the perfect solution  
The healthy one dies without any information;  
Good health alone can't give guarantee of longevity  
No one can predict life with full authenticity  
The journey of life is sinusoidal like electricity  
Life has different yard stick to measure it's elasticity  
Better way is to live life is, live today with simplicity.

## Live Life More

You can live life more, if you are contain  
Life will be in the peace and happiness fountain  
For containment, lust and greed you have to restrain  
Minimum resources needed, good health to maintain  
Meditate, smile and eat less, longevity will sustain;  
We work hard for comfort and relaxing later  
But to relaxing when we are fit is always better  
If you are relaxing on hospital bed, it does not matter  
Combining work, retreat and holidaying is smarter  
No one knows, even with millions, one may die of hunger.

## Inequalities

Exploitation of women in society is intrinsic  
It is deep rooted in society than the Atlantic  
To torture female, there are too many fanatic  
In the name of religion, they force women to remain static  
In society against women equality, too many critics;  
For generations, women tolerate inequalities  
To serve male in life is considered to be their duties  
Majority of women prefer to remain as sweeties  
More concerned about their dresses and beauties  
Even in modern days, women live lives of inequalities.

## A Year About To Go

One more year, from your life, is about to go  
Within few days, this year, you have to forgo  
One year will be unloaded from your cargo  
For the pending jobs, time may put embargo  
Some may find difficulty to move and face vertigo;  
Make your imprint on time before the year elapse  
This year should not be like the previous year's case  
More than eleven months, you have build the base  
Before the whistle blew, complete your race  
Otherwise, a wasted year, again you will face.

## In The Eyes Of Lord

O' Lord, I must be very sinful  
Every day is now painful  
Eyes are always tearful  
No need of resources plentiful  
Living longer is now harmful;  
For dark days, I am not at all skilful  
Situation never allowed to be playful  
Whole life, I was never harmful  
Never did bad, which was wilful  
For humanity, I was respectful;  
Always tried to be truthful  
Never became shameful  
Tried to make people joyful  
For society, tried to be useful  
No answer, why in your eyes, I am sinful?

## Why Don't You Try?

During the last part of life, no one will measure your shadow  
When your shadow becomes long, open your mind's window  
How to take more from society, you have to forgo  
Your contribution to mankind will be your only logo  
Very few people bothered to remember Gogo;  
No one will appreciate your bank balance once you die  
Better, on your birthday, enjoy distributing apple pie  
If you are generous and kind, successful will be vie  
If you contribute for good, your generosity no one will lie  
Before your shadow sinks in darkness, why don't you try?

## In The Domain Of God

No one has seen God, Angel or electron  
But in our brain for their existence firm opinion  
For electron, we have scientific explanation  
For God, Angel and ghost, believe is the solution  
Yet, thousands of years in this belief no dilution;  
In the domain of God, may be matter, energy, time irrelevant  
Only consciousness beyond subatomic level is relevant  
In the making and breaking of cosmos our existence is pertinent  
For existence of galaxies, God must be with supreme consciousness  
Immortal soul with quantum entanglement, science will harness.

## The Great Liar Politician

Many people in world are without shame  
For everything, someone they blame  
This is their success mantra and dirty game  
Blaming others, they acquire name and fame  
Never realize that they are mentally lame;  
Liars always claims that they never tell lie  
But from their mouth, every moment lie fly  
Listeners become frustrated and shy  
To stop their lies, everyone afraid to try  
When trapped in their lies, without shame, they cry.

## Nothing Finally Matters

Nothing in life finally matter

So, always try to live today better

By living today, you become smarter

Yesterday will never come back, remember

Enjoy the rain even if there is thunder;

I will enjoy tomorrow is the biggest blunder

To your fate, you may be forced to surrender

Standing before your war damaged home, you will wonder

Your whole life's hard work may be several feet under

In the end, the difference between life and death is very slender.

## The Purpose Of Life

The purpose of life is to consume food and time  
How to consume better and maximum is prime  
Time is invisible, so most of the people don't worry  
But if they are deprived of good food, they feel sorry  
Consuming time in sports and movies, people are merry;  
People say hundreds of reasons as their purpose of life  
Yet, most important is how to consume time with wife  
Other than food and time consumption, all are secondary  
However, it is necessary to search outside the boundary  
In the end of life, everyone will be in the darkness quarry;

## Science Now Says We Are Not Real

We live in a fake world with fake hope  
Don't know how strong our hanging rope  
With opium called religion, we try to cope  
But within a moment, everything may elope  
No one knows, how stiff is the life's slope;  
Whether you win the limited race or lose  
The prizes no one has the option to choose  
Instinct forced us to fly like wild goose  
Better to make you high hopes to loose  
Fight with venomous life, till death, like mongoose.

## We Came Without Our Wish

We came here without our wish  
We have to go, even if we don't wish  
We don't know the reason why we came  
Once we are here, we have to play the game  
If we try to escape early, it is matter of shame;  
Our wishes has no bearing on birth and death  
We can only create our value and wealth  
Yet, we are not allowed to carry a single penny  
Though, we may have unfulfilled desires many  
Better, today enjoy, love, smile and be horny.

## Rituals

The purpose of rituals is to facilitate victory of good over evil  
But Indian rituals failed to kill any one of the social devil  
More and more evils enter our society through cavil  
Rituals are making poor man lethargic and bedevil  
To eradicate evil, instead of rituals, be daredevil;  
In the name of rituals, people propagate superstition  
People propagate superstition with big caption  
To eradicate superstition, Indian people have no resolution  
The educated and elite classes are not interested for action  
For superstition, social leaders are creating new notation.

## I Am Insignificant

How insignificant, I am in the world, makes me funny  
I decided to make my living in the world today sunny  
Let us smile, dance together and have some honey  
Enjoyable and comfortable will be my remaining journey  
For enjoying together, no one need to pay me any money;  
Our existence in the domain of time is unstable  
Why to create unnecessary disputes and trouble  
Let us resolve everything today, being humble  
Our journey for tomorrow is not certain and measurable  
The arrow of time may hit in the midnight, and I buckle.

## Remember His Sacrifice

For speaking truth, brutally he was crucified  
But for his bodily pain, Jesus did not cried  
For the ignorant people, to Father he prayed  
To bring out them from darkness, he tried  
In the hands of cruel sinners, he didn't died;  
To the mankind, he became a torch bearer  
Slowly, cruel people realized their blunder  
His message of love, created healing Wonder  
Christmas spread worldwide like thunder  
This Christmas, love all, his sacrifice, remember.

## Let's Celebrate Christmas

Only prophet to sacrifice his own life  
Never had too many concubines or wife  
Hate the sin not sinner, was his message  
He showed mankind, the best passage  
His teachings excellent for mankind's uses;  
Let's celebrate Christmas to remember his sacrifice  
Against hatred, all of us should raise loud voice  
To stop quarrels and wars, his teachings is best device  
For making a better peaceful world, his words suffice  
In words and spirit, love all hate none let's practice.

## Hypocrisy

The world is full of people with hypocrisy  
Their opinions are always selfish and noisy  
Double standards people are truly lousy  
For own gains and profits, they are busy  
To fulfil own interest, they make situation massy;  
In life, always be aware of hypocrite people  
Their thinking is complex, never simple  
Your simple life, they can easily cripple  
To deal with them, you must learn how to dribble  
Otherwise, in every steps, they will create trouble.

## Ask Apology

In life, everyone has different philosophy  
Every individual is with different psychology  
Each individual also has different ideology  
Different is every human being's neurology  
Everyone in life write different chronology;  
Someone may be interested to write trilogy  
His friends may be concentrating on biology  
Some others may be busy studying mixology  
In human beings there will be always analogy  
In case of mistakes, it is better to ask apology.

## Never Stop Moving Forward

Do good jobs, some people will be jealous  
Do better jobs, some people will be callous  
To make it best, next time, be more serious  
If you stop hearing criticism, it is dangerous  
Never stop doing jobs, which you think are pious;  
Even if we don't move, days, months, years will come  
One day, old age and graveyard will welcome  
No one can stop moving forward, nature will not allow  
Better do good jobs and uncertain future follow  
Till death, whether you move or not, there is tomorrow.

## Love All Hate None

Love, truth and honesty are best positive things  
Peace, tranquility and satisfaction they brings  
In search of truth and God we open our wings  
Peace and tranquility of mind never swings  
These virtues are more powerful than the kings;  
When we discard hate, ego, jealousy and violence  
Against hatred and jealousy, love is the best defense  
We can feel the peace and tranquility in silence  
Universal love and brotherhood become our prudence  
To evil forces and bad thinking, mind gives resistance.

## Play Fife In Your Hometown

Everywhere in world life is same  
Only different is rule of the game  
Sometimes we give different name  
But, hunger and pain, none can tame  
In graveyard, everyone becomes lame;  
Considering our homeland full of strife  
We migrate for a better quality of life  
Sometimes we separate for good wife  
Nowhere in the world, comfort is rife  
Anywhere in the world, possible to play fife.

## Beauty For Business

Beauty is skin deep and for limited period  
Once time up, you may have to live on steroid  
Even the most beautiful Marilyn's life was void  
Too much proud on your beauty, always avoid  
Beauty without brain is only a life of devoid;  
Yet, everyone run after skin deep beauty  
No one is willing to listen to the inner fluently  
Beauty always gets preference over brain  
Our mindset for this, society and history train  
In modern life, use of beauty for business is main.

## Let Us Live In Boredom

We are cohabiting with acquired immune deficiency syndrome  
Varieties of hepatitis are our neighbours random  
World is always habitat of corona virus and their fiefdom  
Viruses always protect and expand their kingdom  
From viruses, human beings will never get freedom;  
To protect life from AIDS, human beings use condom  
To co-habitat with covid19 with face masks is wisdom  
With immunity, we have to survive in covid19 gangsterdom  
With time the variants of corona will lose its stardom  
But for the time being, with protective gear, let's live in boredom.

## Energy And Matter

Converting matter into energy is easier  
But converting energy to matter is fussier  
All living beings can convert matter into energy  
That is the reason, why we all become hungry  
To convert energy to matter, scientists become angry  
Matter and energy are same, only in different form  
Yet, the process of reversibility is unknown worm  
The God knows an easy process to transform  
This easy process, till now science is unable to perform  
Once we learn the process, mankind will deform.

## Jesus The Saviour

Buddha and Jesus tried to make world peaceful  
Conflict and violence for religion is shameful  
For survival of peace, to them, humanity is grateful  
For progress of mankind, their teaching is wonderful  
To none of the living beings, never become harmful;  
If we integrate their teachings, world will be better  
From progress and prosperity, nonviolence always matter  
Loving all and hating none, makes our world bigger  
Following them, mankind and humanity can become prosper  
No one in the world will ever face poverty and hunger.

## Jealousy Breeds Inferiority Complex

Jealousy breeds from our own inferiority complex

Our failure and neighbours success makes it multiplex

Give attention to your own business to make it simplex

To perform better and do good, you will have good reflex

In your life and vision, you will see different index;

In life no job is inferior, though price tags are different

If the job gives you livelihood and pleasure, it is sufficient

Your duty is to perform the job better and efficient

For greed of money, position, every jobs will be insufficient

Doing your duty and job effectively is more pertinent.

## It Is Good To Be Good

It is good to be good

Hunger made bad mood

Poor are forced to steal food

Honestly poor cannot stood

The good of poor hangs on rood;

Poor people are also God's loving lad

Circumstances forced poor to be bad

To give up goodness, they became sad

Because of poverty some become mad

To follow the good path, they will be glad.

## Good Health

Morning walk is good for health

Good health is precious wealth

Neglecting health for money is wrong

Only good health can make you strong

With good health you can live long;

Money without health is of limited use

For joyful happy life you can't muse

Habitat of your mind and soul, never abuse

To grab money in lieu of health, always refuse

In the long run, the gain from good health is huge.

## Christmas Comes Once In A Year

Christmas comes only once in a year  
Celebrate Christmas without any fear  
Feel that Jesus is today, our very near  
For mankind, Jesus's teachings are dear  
Forgiving the sinners for killing is rare;  
When we confess our sin before Jesus  
To get out of guilt, we become success  
Before Jesus, evil spirits can never focus  
Give Xmas presents to the poor children  
Together we can make a beautiful garden.

## Waiting To Reach Ashore

The darkest New Year's Eve of my life  
Because I lost my beloved wife  
Every morning when sun rises, I cry  
The day in front is rocky and dry  
When sun sets, I become calm and shy;  
Can't believe she is really no more  
How can I move without the core  
Nothing beautiful now in life's store  
Only misery and tears with chore  
Waiting to reach my final ashore.

## Sun Does Not Know About New Years

Neither earth, nor sun knows about New Year's Day  
As usual, from sun to earth will come seven colours ray  
None of the animals or birds will celebrate for new year  
Only for human beings, New Year's Day is so dear  
Because humans knows that death is coming near;  
Human needs ways and means to pass time in world  
Through celebration passage of time they try to unfold  
There are wines and alcohol for men to overcome cold  
Animals are not lucky as human beings and bold  
Their new year's remains under the wrap and untold.

## Days, Months, And Years

Days, weeks, months, years all are arbitrary  
Yet, these units of measurement are necessary  
We decay every moment is primary  
Life starts before birth in the ovary  
Time is only a decaying process scary;  
Calendar of days is different in different countries  
English new year starts at different times in different boundaries  
Regarding time and date, we have lot of queries  
In the domain of time, we face decay and injuries  
For some people, wasting time is luxuries.

## The Black Pearl

He was the emperor of football kingdom  
To dribble the ball inside penalty box, his fiefdom  
With his excellent skills, he can score goals random  
Fair play and respecting opponents were his wisdom  
In football world, he is legend and real fantom;  
A gentleman and perfect ambassador of football  
His contribution to popularize the game is very tall  
During his days communication was poor and small  
Yet his glory and fame, in every nook and corner snowball  
He never scored any goal in the world cup by handball.

## New Year's Eve

Climate change is now serious  
Cold wave in many places furious  
The wind speed is also tremendous  
Going out of home becomes dangerous  
New Year's Eve will not be humorous;  
Streets, homes, cars all under thick ice  
Before going out to celebrate, think twice  
Better to cook in home, chicken, and rice  
In restaurants double will be the price  
This year's celebration will be simple and nice.

## Reality Of Imagination

Sometimes for many, the Moon never rises again  
They have to move with light of fireflies  
Yet, the long darkness also ends one day  
The angel waits to welcome all of them  
When our days will be over, we will be there  
Will see brighter Moon again in quantum world  
Playing with our beloved star friends in another cosmos  
We will be part of it and see hundreds of smiling Moons  
It is only a matter of time, today, tomorrow or day after  
I can't wait too long, sooner the better if it is reality.

## Same Track

We all are running on the same track  
No one can start again going back,  
Someone run for hundred metres  
Someone run for four hundred metres  
And some one for the long marathon;  
Destination is same, own graveyard  
So, for the journey always give regard  
Console, if someone can't move forward  
In the end of journey everyone gets same award  
Even Jesus, Buddha, Muhammad got the same reward.

## In The Long Run

In the long run, life has no purpose  
Our actions have reasons, I suppose  
Our journey of life we only compose  
Results of our actions, God dispose  
At the end, our dear body decompose;  
We pass our time in actions and reactions  
Other than this, we have no solutions  
Time imposes on us many sanctions  
Slowly we face our hopes dilutions  
Finally, we die thinking life's illusions.

## Die Rich

Everything in life is futile exercise  
It is better to be simple and precise  
Why unnecessarily pay duty excise  
No one has time to bother your demise  
So, make your balance sheet concise;  
Life in remote countryside is bliss  
Though something they may miss  
They get near and dear one's kiss  
From pond, they can eat fresh fish  
In the final count, simplicity is to die rich.

## **New Variant Of Covid19**

Without notice Covid19 came suddenly  
It changed our life and economy firmly  
Thank God, vaccine came to us quickly  
Covid19 is no more hostile and unruly  
But, till now it is not eradicated totally;  
Covid19 is now changing its variant  
So, to follow safety measures pertinent  
It seems Covid19 will stay permanent  
We have to accept it as world's resident  
The future of our lives is more uncertain.

## One Week of The New Year Gone Quickly

One week of the new year has gone  
Look back, what jobs you have done  
May be, you ate, sleep and did none  
You stayed leisurely in comfort zone  
Think today, and change your tone;  
Soon week will become month quickly  
Months will move to become year, rapidly  
Don't wait for tomorrow to think leisurely  
Today, now is the moment for action timely  
Work to make the second week big, solidly.

## His Highness

No confirmation by physics that God does exist  
Darwin's theory of evolution is also persist  
Existence of God, only limited people resist  
To write off God, many scientists also desist  
Only questions, inquisitive human can insist;  
The missing link of Darwin's theory still in darkness  
Even after wars, destruction, people pray for God's kindness  
At certain point, human suffer intellectual blindness  
Pushed logic, reasons and science to the wilderness  
Among mortals, God is and will be always his highness.

## Partiality

When Gandhi Ji was partial  
No one in India is impartial  
People act for vested interest  
Leaders live comfortably in nest  
But don't keep others abreast;  
We are partial for caste, creed, religion  
Sometimes partiality for the region  
Partiality is an environmental poison  
In our mindset, it is cultural Imposition  
Making one world, one human race, is the solution.

## I Can't Oppose

Life for me has now no purpose  
Living is now painful, I suppose  
This type of journey I never propose  
It is destiny without informing impose  
For survival, new tune, I have to compose ;  
Old baggage and loads, I must disclose  
Many old accounts, I am forced to close  
It is reality, life has too many ramose  
To survive, I have to take little glucose  
Natural instincts too, I can't oppose.

## The Priests

Stop running after priest for your salvation

The rituals give priests financial solution

Bribing them to meet God is God's humiliation

Pray to God through clean mind with determination

To be an honest good man, no need of pristine institution;

God is omnipotent, merciful and present everywhere

Why it is needed to run after priests to go somewhere

God never asked human beings to pay him bribe

Bribing God was started by the uncivilized tribe

Modern civilization is not a primitive beehive.

## Religion And Alcohol

Religions are carrot for the masses  
God is the stick in the hand of classes  
And the civilization slowly progresses  
So many Gods, man's history has produces  
Because of God man, religion has many branches;  
The rulers didn't allow free thinking to retain power  
Sometimes they try to control through alcohol shower  
Religion and alcohol both are intoxicating  
For the free thinker's religion was humiliating  
To kill people for religion, Jihad is instigating.

## Senses Are Great, Mind Is Greater

Yes, our senses are great, and we try to satisfy  
But mind is superior and our desires, mind can defy  
The desire of the senses, mind can easily modify  
Our desires the senses cannot rationalize or unify  
Only mind has the power to choose and ratify;  
Animals are driven by senses for satisfying sense  
So, some animals are happy alone, in forest dense  
In case of human, we can never ignore mind's lense  
For mind, sometimes we are in dilemma and tense  
If we can't control our mind, we are unhappy in manse.

## Miracles Rarely Happen

Even with zero probability we always hope  
Then it becomes difficult for us to cope  
We try futile to join the damaged rope  
With our hope today and tomorrow elope  
When we realize, we are at bottom of the slope;  
It is good to hope for the best, yet prepare for the worst  
But in hope, many other better possibilities we lost  
To hope for the miracles to happen, we suffer utmost  
In the hope for the miracles, our life may roast  
Remember, it is mind, that creates demon and ghost .

## Who Imagined God?

God was imagined by chauvinist male  
So, lesser rights were given to female  
In one religion, female goes only to hell  
Heaven has no one for them to ring bell  
Supremacy of male, every religion tell;  
Gay and lesbian have no place in heaven  
Their identities all religions had stolen  
Had God been imagined by a gay prophet  
We would have played gay God trumpet  
If anyone say God is lesbian, there will be tempest.

## Everything Is Now History

Everything in my life is now history  
Living for future is big mystery  
Not getting taste in any pastry  
Future is not anymore, my territory  
But the morning pushes the boundary;  
Past, present, and future now same dimension  
So, to move forward big hesitation  
But to remain static, there is no option  
Moving on with the masses is only solution  
But not at all aware of the moving direction.

# I Am Nothing

I am nothing

Yet I am something

Life is progressing

Every day I am dressing

Time is quietly passing;

Life is nothing but gambling

We need careful dribbling

Each question is puzzling

Answers are not dazzling

Age comes quickly for dumping.

## Look At the Larger Picture

The small place called world is so diverse  
I become surprised thinking about universe  
The nearest star is far away in light years  
Our petty minds always busy in slow gears  
For death and uncertainty everyone fears;  
When we look at the larger picture in mind  
The vastness of our life also we can find  
To respect diversity, even to an ant be kind  
But our fear and greed always make us blind  
The vastness of the universe no one can unwind.

## Miracle

Miracle never happened in my life  
Praying for miracles, I lost my wife  
We were falsely taught, miracles do happen  
So, for miracles, our minds are always open  
To deceive man, miracle is a false weapon;  
Miracles are sold by merchants of religion  
Without experience, never believe their opinion  
Things will happen as it has to happen as per law of nature  
No miracle or God can change our destiny and future  
Live the moment and enjoy it as it comes before present rupture.

## Newspapers Now

A place of deceit, horror, death, and infidelity  
Papers lost their past golden days and solidarity  
Editorials becomes advertisements losing integrity  
No newspaper has now a days the power of infinity  
It is a business now losing its ethics and ethnicity;  
Once upon a time newspapers were torch bearer  
Their opinion and views all citizens share  
False, fabricated and hateful news was rare  
Now except profit, for society newspaper doesn't care  
Yet for the survival of newspaper, we should do prayer.

## No One Knows

No one knows what is on the other side  
But if it is there, certainly it will be wide  
No domain of time with bumpy ride  
No jealousy, ego, quarrel, and pride  
Only love, peace and happiness tide;  
Everyone is afraid of going there  
Though life is full of bitterness and not fair  
They got only struggle as their share  
Even than one must go when time care  
To move forward silently to the other side is wiser.

## Just Do It

Time is only an illusion  
It moves in one direction  
Utilizing it is the solution  
Else it will be hallucination  
Life will be unsettled litigation;  
Money is not time's substitution  
Health has also time limitation  
Present moment is your position  
Next moment will be different vibration  
Just do it, tomorrow may be bad situation.

## Living In the Past

When we live in the past  
Our future starts to rust  
Present will fly like dust  
For long today will not last  
To live in the present is just;  
Past, present, future makes a triangle  
None of the three in life can remain single  
Even two can make only one angle  
Remember life is like a bubble  
Living in past will create trouble.

## Abandoned Pack

Even if we look back, life will not stop, it will move on  
We can't stop the loved one's untimely separation  
Time will flow as usual and so also respiration  
No one will bother your cry and desperation  
To move on with the beautiful memories is only solution;  
Since time immemorial birth and death is the process  
On this path only, the human civilization progress  
Nature has not given us any option to stop or go back  
Sometimes we became tired and motivation we lack  
If we don't move, time will throw us to the past as abandoned pack.

## Engineers Day

Engineers are also human being  
Same songs many engineer sing  
Some engineer became too greedy  
Whole life for money they remain needy  
Ultimately many dies as corrupt rowdy;  
Engineers are builders of the nation  
But collapse of ethics now infuse poison  
Developing morality and ethics is solution  
Technology alone can't give better situation  
Let honesty, innovation be Engineer's Day resolution.

## Spread Smile And Joy

Always spread smile and joy  
Jump and play like a young boy  
With smile your life will be colourful  
In every activity you will remain cheerful  
Even to enemy you will not be harmful;  
To spread joy, you don't need money  
Your smile can be used for it as honey  
Good behaviour and smile can break ice  
To others, your body language should be nice  
To spread smiles and joy there is no price.

## Is Ignorance Bliss?

Sometimes I think, ignorance is bliss true  
But if I follow this path, many truths I will miss  
I will become prisoner of my own Blackbox  
Knowledge and vision will be too narrow and hazy  
The path towards truth and beauty will be closed  
It is better to suffer and accept pain for truth  
Inquisitiveness and imagination is better path to salvation  
Adam and Eve didn't follow the path of ignorance  
That is why today we are at the peak of civilization  
No one can taste nectar and sweetness of life with ignorance  
My mind will never be happy and peaceful in fools paradise.

## Bihu

Bihu is cultural lifeline of Assamese people  
The concept of Bihu is for brotherhood and simple  
In Bihu floor the rich, poor, mighty all must be humble  
Everyone can dance freely without creating trouble  
To unite Assamese people Bihu is always capable;  
Dancing, singing and eating together is the core concept  
Equality of all, every participant must accept  
Peppa and Gagana are Assam's unique trumpet  
Bihu united Assamese people above caste and religion  
For a conflict free society Bihu festival, a good solution.

## My Heart Is Broken

My heart is totally broken  
I am now a headless chicken  
Without alcohol, I feel drunken  
Everything happened all of a sudden  
Life is now becoming a big burden;  
My emotional crisis no one can solve  
Yet with the burden, I have to move  
I am still alive, only movement will prove  
As time goes on new things will evolve  
In the end, in graveyard everything will dissolve.

## Women's Day

Seminars, workshops, panel discussions

Recitations, felicitations prize distributions

Society thinks, this is path to women's liberation

For one day, everyone busy for quick fix solution

But for true empowerment of women, need is revolution

Gender inequality can be eradicated only through mental evolution

The age-old religious beliefs need substitution

Mediaeval mindset of feudal lords and priests need modernization

The seminars and workshops are only to showcase few

For empowerment of rural women, we need economic concepts new

Without education and economic self-sufficiency gender inequality  
will stay

Technology and skills can give women new hope and equality in pay.

## Sex And Brutality

God created man and woman and ordered them to multiply  
Both were given equal rights, responsibility and opportunity  
No new life can bear without union of the male and female  
All mammals followed this before man and woman was created  
The nature, environment, ecology and biodiversity in equilibrium  
The man became wiser and realized the pleasure of sex  
They made, sex commodity of market to gain pleasure and money  
Traded women like any other female animals like goat or sheep  
For pleasure, male brutality became fearful and deep  
Polygamy accepted even by religions for sexual desire of male  
In many geographical locations, freedom of woman became pale  
Man became wiser in the process of civilization  
And so, continued the use of woman as commodity through  
prostitution  
For the God given equality, the society has no solution  
Forget about domestic violence and suppression in poor countries  
Even in so called advanced countries, women are brutalized  
In unnatural blue film, for pleasure, helpless women are utilized.

## Support Women of Iran On Women's Day

Man become physically strong in the process of evaluating  
Making women emotionally stronger, nature find balancing solution  
Only women have the unique capability to reproduce human being  
Wife is the mother of the child is a unexpressed hidden thing  
Nature made the division of labour for perfect balance  
But man made the system imbalance for chauvinist gain  
The days of physical superiority to control has gone  
With superior mental stability, now time is femininity's turn  
Religion can't suppress the equality of women any more  
For their rights, women in Iran has taken the right path  
Let's hope soon they will win and prove that women power is bright.

## Visible And Invisible

The apple is visible, not the force of gravitation  
Invisible air determines whether we are alive or dead  
The force of electricity and magnetism no one can see  
The invisible time flows very fast, though it is free  
Invisible sound is called Brahma, we can only feel  
Strangest invisible thing mind is very, very real  
Viruses and fundamental particles no one had seen  
To know about invisible soul, everyone is keen  
There are dimensions beyond human body can feel  
Since time immemorial, God is invisible and thrill  
Only visible alone not the world, galaxy and cosmos  
The invisible has greater power and impact, nature to unfold.

## Victory Of Life

Under the rubble of earthquake destroyed building, a child is crying  
The victory of life over death is continuing since time immemorial  
Sometimes the mother dies giving birth to a child, leaving alone  
But, the life of newborn moves on, defeating the death  
Civilizations were ruined again and again by natural forces  
Yet, man rebuild and move forward forgetting the past  
The process of evolution and extinction has never stopped  
That is why today, we the human beings are in this world  
Epidemic, pandemic has never been able to stop the fittest  
In the present domain of time, that is why human life is best.

## Don't Count Waves, Be Surfer

I can't count the waves of the ocean  
It is purposeless and useless for me  
But I can be a surfer of the waves and enjoy  
The high tides make fearless to face danger  
With courage and confidence, I can face thunder  
Sitting on shores, counting waves, I made no blunder  
Fearing high tides and hostile sea, I didn't surrender  
With practice, now my only goal is perfection  
Even tsunami can't now stop my surfing determination  
Once we fix our goals, may be in sea, sky or land or anything else  
With determination, persistence and practice, success we can trace.

## Heart Failure

A complex biological efficient pump is called heart  
Inside mother's womb, to work, the machine start  
Continuously works all the time without rest  
When we run, the pump is put under test  
No standby, no spare pump, efficiency is maximum  
Once it stops, life becomes dead and moves to graveyard  
Even with best care and exercise, heart's beats are unpredictable  
The so-called healthy man is also face heart failure, not invincible  
Like earthquake, no one can predict timing of heart failure  
The bold, beautiful, rich and poor instantly becomes last journey's  
sailor  
Love people, nature and mankind as long as heart is pumping  
Enjoy life like a child laughing, smiling and jumping.

## Move One Step Today

One drop, two drops and they make the spring  
Springs come together to make a flowing river  
Nile, Amazon, Ganges, Brahmaputra and more  
All of them flows towards the sea and ocean shore  
But every river, the little raindrops are the core  
Small things when accumulated day after day  
And withstand thunderstorms and visible, invisible ray  
Become a big thing, success story, in front of our eyes  
To achieve success and glory in one day, some people tries  
They forget the age old saying "Rome was not built in a day"  
For the quick fix attempts to success, prices they pay  
Work simple and small things every day in the journey  
Winning a trophy, certainly will end your tourney.

## Be Like River Dolphins

The river dolphins come out of water for few moments  
Again, goes down the river to do activities and work  
Not at all bothered what is happening outside water  
Be like a river dolphin and immerse in your work  
When tired or exhausted, come out for fresh air, show your presence  
Don't bother for the onlookers and observing crowd  
Let them be judgemental and happy looking at you  
Because they knew that you are one of the successful few  
Have a break and immerse in your passion under the veil  
Speed up your submarine, nobody can observe or comment  
When you finally reach the shore, the critics will welcome you with  
garlands.

## Learning From Nature

No one teaches a newborn how to cry and when to cry  
It is coded in the information technology of human  
The child learns to smile and speak from observing surroundings  
We learned to crawl of our own and the family became happy  
Walking one step, two steps and then running is natural process  
No one teaches fishes how to swim in the water  
Allow the kids to learn from nature and their genetic code  
Putting them in fast forward mode is harmful and rude  
In the name of rat race and competition, we spoil natural talents  
After induced success, killing the potential, later people repents.

## What I Believe Hardly Matters

What I believe or don't believe hardly matters to universe  
What you believe or don't believe is also hardly matters to universe  
The galaxies are expanding and going away from each other  
The universe is expanding non stop further and further  
Stars are born and died, galaxies are born and died  
Yet the expanding universe is only expanding and expanding  
No time to look back to the dead star or once flourished galaxy  
As if, if it stops to expand, there will be bigger fatalities  
The rotation and revolution of earth is so insignificant for universe  
Even than the living beings in earth are solar system's treasures  
Our life is too small to measure in the context of infinite nature  
Yet, enjoy, smile, dance in momentary life, for society and nature take care.

## About the Author

**Devajit Bhuyan**

DEVAJIT BHUYAN, Engineer, Advocate, Management & Career Consultant, was born at Tezpur, Assam, India, on 1st August, 1961.
