COVID19: An English Poetry Collection composed by Devajit Bhuyan and published by CAREER GURU devajitbhuyan.com. Copy right: Devajit Bhuyan

1.The world is in catch twenty-two situation

The world is in catch twenty-two situation
It is now very difficult to lockdown dilution
Experts are doing permutation combination
But no one is capable to give good solution
Need a way to avert economic humiliation;
Nations have to choose devil or deep sea
If things go wrong leaders have to pee
Help is not coming from praying the Thee
Doctors, scientists are searching the key
Covid19 is forcing mankind to its knee.

2.We are slave of circumstance

We are slave of circumstance
We can't go beyond circumference
Corona is not friendly to innocence
Your immunity may not give resistance
Even to kids Corona shows intolerance;
Circumstance made human prisoner
To save us till now there is no pioneer
Social distancing can only save you
Doctors have no remedy as Covid19 is new
Make your circle small and with a few.

3.Covid19 destroyed the barrier

Covid19 destroy the barrier of religion
Caste, creed are now under dilution
One human civilization is solution
Let us throw away all type of division
Mankind strive for a new integration;
The rich, the poor all in same platform
The bold, beautiful, ugly same uniform
In everybody's lungs same perform
Gender equality Covid19 always conform
This is the time for civilisation's reform.

4.Covid19 is no more a virus alone

Covid19 is no more a virus alone
It is now a destructive clone
The virus has fractured economy's bone
The economy will go down and down
The ugly face of depression yet to be shown;
We are now busy only on treatment
No time for life's other commitment
But soon we will be forced to supplement
Fighting Corona alone can't be permanent
Our life has many more vital component.

5.Two third of world is not worried

Two third of the world is unaffected
Because ecology they have not destructed
Skyscrapers man has constructed
But Covid19 could not be prevented
Options before mankind is limited;
Sea animals never claimed to be supreme
To develop atom bombs was not their dream
Surviving with ecosystem was their instinct
So spreading of Corona they can resist
To kill own species they never became fascist.

6.Let us tame Corona

The world will not remain same
Corona virus changed the game
Value less now name and fame
Only need Corona how to tame
Otherwise civilization will be lame;
Prevention is the only remedy
This is not the time for comedy
Keep your sanitizers handy
Corona can be killed even by brandy
But in public places Corona is rowdy.

7. Distortion of nature creates tremor

Nature has unique power to cure
But environment should be pure
To save ecology let us make sure
We will not see any more horror
Distortion nature creates tremor;
Biodiversity is to synchronise life
In diverse ecosystem human strive
For greed and faster development
We thought balance is not important
Corona is reminder by the omnipotent.

8. Who will bell Corona?

Corona don't need a bell
Staying inside can derail
Through air they can't sail
For few days stay inside jail
For hand wash Doctors tell;
Forget hug and hand shake
Contamination it easily make
Stay away from messages fake
In home sweet cakes please bake
No bell, but social distance take.

9. Courage is need of the hour

In this hour of crisis be bold
You movement please hold
Don't catch cough or cold
Fever can push to quarantine fold
You story may remain untold;
Courage is need of the hour
With hot water take a shower
Don't make your confidence lower
You will again climb Eiffel tower
For time being make movement slower.

10. Prove social integrity

Vitamin C is now good
Make lemon part of food
With you citrus fruits will stand
To red meat and junk food be rude
Eat an orange to change your mood;
Nature only cure Hippocrates said
To support nature medicines are made
Exercise, yoga all strengthen immunity
With them all now show solidarity
Stay inside home, prove social integrity.

11. We will win

We will win
Corona is sin
Break its pin
Lock it in a tin
Wash with rin;
Corona is naughty
Do your own duty
Don't make hand dirty
To go out feel guilty
Social distance necessity.

12. China was careless

You may have veto power
You may have the tallest tower
You may have the best medical care
You may have civic system fair
But you can't claim Corona is not their;
Mighty America is now defenceless
How to face the invisible they are clueless
Intercontinental missiles are useless
Most powerful Trump is now helpless
The virus spread because China was careless.

13. Italy took Corona lightly

Italy took Corona virus lightly
They should have taken care slightly
They did blunder ignoring the mighty;
Italy was proud of their medical care
Epidemic in Italy in near past rare
To the warning they should have been fair;
Ignorance always may not be bliss
Carelessness is blunder and big miss
Now only way to avoid handshake and kiss;
The world should learn from Italy and Spain
From their mistakes the world should gain
No country should face death like Italy again.

14. Best option for Corona

Who spread Corona now immaterial
To stop spreading we must be practical
Corona is now not an issue political
Many nations saw situations horrible
But to control the damage is possible;
Social distancing is the best option
Hand shake and hug need demotion
Washing hands, sanitizer are also solution
Not to roam everyone take resolution
Soon the virus will face defeat, humiliation.

15. Be humble to nature

Temple, Mosque, Church no one is safe
The devil Corona virus is very brave
Don't fear mantra, ajan or holy cross
To every place of earth it can toss
Standalone man can gather fighting moss;
No remedy in Gita, Quran and bible
To nature men become now humble
The war for survival will continue
Mother nature will give winning revenue
Yet division in the name of religion will continue.

16.Lockdown

Lockdown is to save human life
But Covid19 is double edged knife
During homestay don't quarrel with wife
Corona is reality not a fairy-tale hype
It will force world economy to dive;
Economic slowdown is now reality
Now all nations must move with rationality
Global lockdown will touch all nationality
One world, one economy should be polity
To face future every one need vitality.

17.Dangerous germ

Stay away from fake news
Express your rational views
Fake news are not for amuse
Their intention is to abuse
Social media not for misuse;
Fake news are doing big harm
They are now dangerous worm
Never forward them with charm
Kill them at the shortest term
Like Corona they are dangerous germ.

18.The bumpy road ahead

Corona has come, Corona will go
But it made world economy slow
We must allow economic activity to flow
Otherwise progress will become low
Out of box rationality we must show;
Fighting Corona alone is not last word
To fight poverty we have to sharpen sword
All priorities must come to the board
Infront of economy now a bumpy road
To play symphony fine tune the cord.

19.Be positive

Be positive

Corona negative

Be sensitive

Avoid sedative

Corona is fugitive

Be divisive

Covid19 is derivative

Don't be submissive

Be progressive

World is combative.

20.All nations are now in same row

Corona is dangerous than hyena

It first started in dragon China

How it came no body know

Initial response was very slow

All nations are now in same row;

This is not the time to blame each other

The responsibility is to stop it's spread further

All human beings are now same boat's brother

Soon many nations will face food scarcity and hunger

Mankind's only duty now to make tomorrow better.

21.We are moving towards depression

The world is moving towards great depression

All economic activities are under forced suspension

Jobs, services are under abrupt termination

Experts are unable to find a quick solution

No one knows what will be world's future composition;

All humanity should stand up with determination

Science will rebound and start retaliation

Spread of Corona virus will face dilution

Soon Corona will see defeat and humiliation

All nations will celebrate victory over evil with jubilation.

22. Everything happens for a reason

Everything happens for a reason
Or the change maybe for season
Criminals are jailed for treason
Very powerful is nuclear fusion
Dangerous will be Corona mutation;
The reason of the killing virus unknown
Can anyone tell why Corona has grown?
Is it nature's furry or blunder of human
No one can tell, the virus survive how long
Only remedy is isolation and being strong.

23. Salute the medical staff

Salute the medical staff
With them don't be rough
Use mask if you have cough
Make your body, mind tough
Don't spread rumour and bluff;
Medical staff are now real hero
Soon Corona will become zero
Doctors are risking life to save us
This is not the time to board bus
It is time for isolation, hand wash.

24. Mankind is not destined to die lockdown

Mankind is not destined to die lockdown
Soon government must lift the shutdown
Many people will face mental breakdown
For fear of death we all are in funeral gown
Deserted look nowadays once lively town;
If Doctors unable to save lives and cure
Famine will come soon to world be sure
Lockdown is not the permanent solution
We have to find out innovative resolution
One day people will ask lockdown dilution.

25.Love letter

Words of emotion and flatter
Every time we try to write better
Really wonderful was love letter
Smartphone came as thunder
The beautiful love letter shatter;
The postman carries colourful envelop
Sometimes joy sometimes sorrow
To send love letter books people borrow
Wait patiently for better tomorrow
Mobile and net made love letter narrow.

26.Let this Holi go dry

Holi in the shadow of Corona
Enjoy in home with apple and banana
The festival of colour enjoy without hug
Wait till scientists Corona de-bug
This is the time to play with a Chinese pug;
The spirit of Holi should not die
If you have fever don't tell lie
Later on you will have to cry
Let Holi go without water and remain dry
Inside home enjoy wine with fish fry.

27.We only live once

We only live once
Life will again bounce
Lockdown is one ounce;
Live right, live long
Make your mind strong
Going out is now wrong;
Earth is asking for a pause
There must be some cause
Stay at home, no because.

28. Make life pious

Why fear death?
Immortality is myth
It is hundred years math;
Do your own calculation
Always remain in circulation
Make permutation, combination;
Sometimes plus, sometimes minus
In the journey meet bacteria and virus
Better, make your life simple and pious.

29. Do your job now

Do today's job now
Don't ask me why and how
We are human, not cow
Keep your head high, don't bow
Finish your job quickly in a row;
Do your pending job today
Don't push it to next Sunday
Tomorrow may not come
Today pending job must be done
When you go to bed sleep will be fine.

30. She is now powerful than us

Yesterday morning I saw one sparrow
But my mind didn't feel sorrow
Because our world is now narrow
I invited her to come again tomorrow
From anyone food she can't borrow;
She came again today very cheerful
Without worrying about Corona harmful
Seeing the corn she became joyful
Her immune system is powerful
In front of her my immunity shameful.

31.Once dinosaur was supreme animal

Once dinosaur was supreme animal
But dinosaur didn't arrange any carnival
They never claimed we are the supreme
Co existed with all other living stream
Yet they disappear like an evolution dream;
Human claimed, we are supreme and first
Our grip over mother nature will never burst
In the name of development no one man trust
To kill other animals and plants become men's lust
Now inside home infected human alone has to rust.

32.I was wearing a coloured glass

For long I was wearing a coloured glass
On my way I thought everything green grass
But lockdown proved my thinking was fuss;
Every morning leaving everything to office I rush
Even in constipation move to office with quick flush
Sometimes cleaning tooth, faster was my brush
In office workload forced me to be very harsh;
Meeting, presentation, video conferencing and phone call
My annual targets were enviable and very tall
I had no time to take my daughter to her favourite mall
Long ago I forgot about my dearest book stall
On her birthday silently I tolerate my wife's troll
But suddenly came Corona and everything fall
Now I realised that my real world is very very small;
I am happy dining with my family after a long time
The smiles on the face of my daughter and wife looks fine
Playing chess, carom with daughter give immense pleasure
I have opened the book shelve full with classics and treasure
A tiny virus destroyed my cage, life is now beyond measure.

33. April fool 2020

This is not time for April fool
This year everyone to remain cool
To fight Covid19 we must invent tool
All resources of society we have to pull
Staying inside home is now only rule;
Foolish people has already done harm
In April fool there is now no charm
To laugh at fools now Corona's term
Rational people should fight with the germ
To keep people inside administration be firm.

34. Life is prepaid

I respect humanity
So I like diversity
But against polarity
Always uphold integrity
Contribute to the society;
Caste, creed all man made
Religion is now a trade
Life is only prepaid
Everyone's blood is red
In grave we all will be laid.

35. Pain will not last long

The dark cloud will bring rain
Will not last long the pain
Soon we will break the chain
A new lesson mankind will gain
The sun will bring better tomorrow again;
Up down is part of human civilization
After nomadic life came cultivation
It followed by industrial revolution
World war led to massive destruction
Again humanity made new construction.

36.Society will be merrier

What has happened is good
We are eating homemade food
Towards our children not rude
Wife is all time is smiling mood
Husband is cleaning as much they could;
What is happening, happening better
From boss and subordinate no letter
Pending jobs are nothing to matter
Enjoying movies in home theatre
For marriage party no need to gather;
What will happen will be the best
Pollution will go down in future test
Form hazards environment got rest
Birds can freely fly to their nest
Vegetarian will be preferred by guest;
Past, present and future will come together
Life for man in the planet will be easier
Society and social norms will break barrier
Lesser will be race for progress in career
With flow of love society will be merrier.

37.Why we are caged?

My companion is now shadow
Many people are forced widow
Keep open your room's window;
Fresh air will come with breeze
You will see flying wild geese
Also as usual the busy bees;
Only life of one species has changed
As usual life animals have managed
Man should analyse why we are caged?

38.What will happen to the poor?

What will happen to the poor
Governments suddenly closed door
They can't afford now working tour
Life becomes penniless and very sour
Every poor is looking for a detour;
The vulnerable section is worst suffer
They never maintain any food buffer
Lot of people in the world hand to mouth
If remain in hunger, they will start to shout
Leaders must find for them immediate bout.

39.So, what happened to them

So what happened to the beggar
They may be suffering from hunger
Their lives may be in grave danger;
So what happened to daily wage earners
Similar may be the condition of farmers
Nobody knows about the auto drivers;
So what happened to the prostitute
They may be now in destitute
For their help there is no institute;
So what happened to the porter
Only busy people now are the reporter
Hope for all tomorrow will be better.

40.Hand wash desirable

It is difficult to fight invisible
To pinpoint it impossible
Only prevention is possible
So hand wash is desirable
Inside nose become horrible;
If immune system is strong
Inside body Corona can't live long
Yet allowing to enter body is wrong
Vulnerable is old and young
Soon we will mute Corona song.

41.Light a lamp on fifth April

Lighting a candle is tradition
It can't be called superstition
Light always gives inspiration
Though it may not give solution
It can strengthen our determination;
In temples we light lamps for God
In grave a candle for dead Lord
The light strengthen our prayer word
India will light a lamp for solidarity
To fight Covid19 together is priority.

42.No need for arms race

No need for any arms race
Nuclear war no one may face
Biological war will be future case
Everyone has to build strong base
No one will be winner you can guess;
Arms race has no changed colour
Human life lost its pride and honour
To change our mindset need of hour
If civilization is dead, no need of tower
What the powerful will do with power?

43.All is well

All is well, all is well
Civilization will not fall
It is nature's warning call
But price we pay not small
Yet we have to kick the ball;
All is well, all is well
Though there is death toll
Though closed shopping mall
Soon people gather in the hall
Children will again play with doll.

44.I don't want to be immortal

I don't want to be immortal
Only I want to enlarge my portal
Jesus didn't live too long
Yet his messages are strong
Our immoral actions are wrong;
Death is the ultimate truth
Though sometimes it is ruth
Prayer can make life smooth
Don't make life counting of days
Spread love with enlighten rays.

45.Civil code must be uniform

Religions need reform
Civil code must be uniform
One country one law for all
Religion should not have call
They should restrict to prayer hall;
Corona is uniform to all people
Logic for common law is very simple
Gender equality is need of time
This will help reducing crime
Reforms of religion is now prime.

46.Immunity should not be diluted

More we play with our immunity
In epidemic more affected is community
Immunity should not be weakened by vaccine
To fight with germs vaccines should combine
More T cell friendly vaccine will strengthen immune;
Vaccine against common colds is not necessary
Nature have given us potential to fight in this territory
If our soldiers of body always remain idle
Even with weak enemy they cannot fiddle
So immunologists should take approach of middle.

47. Defeat of Corona possible

We will certainly light a lamp
Spreading of Corona it may not clamp
But light always fight with vamp
In darkness vamp dance on ramp
Light will identify Corona's camp;
We will certainly light a candle
It will strengthen our struggle
Nation's unity, integrity will be visible
Minds of medical staff will be stable
Let's join minds, defeat of Corona possible.

48. Our march is towards light

Our march is towards light
It is invincible, invincible
No one can stop of journey
Tsunami, Corona temporary
Soon we will catch our trajectory;
Our march is for a better new world
Science and technology is now bold
Because we hurt nature it unfold
The warning bell is loud and clear
Development paradigm will change gear;
Our march is for a world free from poverty
People live in the planet with integrity
In the world there is gender equality
Equitable distribution of prosperity
Human respect mother earth with humility.

49. Supreme animal is not supreme now

Butterfly is flying as usual
Birds are singing melody
Dogs are running on streets
Cows are grazing happily
As if nothing has happened
Only supreme animal is worried
Many of their friends are buried
Their activities restricted to home
They are not allowed to roam
Supreme animal hit by Corona bomb.

50. Man is now the vulnerable animal

Man is now the most vulnerable animal
In mankind lives highest criminal
Yet man lives together and social;
Man is very, very cruel to all species
Killing without reason man can't resist
How to destroy weaker man practice;
Man is the worst enemy of environment
They always try to increase pollution
Then they look for air cleaning solution;
For quality living nature is destroyed
Felling trees and plants man enjoyed
Now a virus made humanity endangered.

51. Pray to the Lord

Don't be proud of your body
It is like an earthen pot
In a moment it can break into pieces
No one can join it again
It will be thrown to the graveyard;
All your wealth and money is unstable
Your youth, your partner are like bubble
Any moment they can vanish
Within a day relationships can perish
Only the blessing of Lord can save you.

52.Nature is giving vulture dance

Nature is giving vulture dance
Men are clueless how to fence
Once men were mad destroying
Now in graveyard they are crying
No airlines allowed for flying;
World economy is under shutdown
Everything are forced to close down
Deserted looking big cities and town
Power less now powerful crown
One is not safe wearing King's gown;
The problem is bigger than earth quake
Like this even the tsunami never shake
No one is willing to go out to bake
The vulture is waiting for it's bite of cake
Infront of nature, our supremacy is fake.

53.The only trouble now

With masks we look like money
In cage we become like donkey
The fast lifestyle is now standstill
We are afraid, Corona may kill
Very nominal our expenses bill;
The beautiful car is lying idle
We are afraid to open newspaper bundle
How to pass the days is the struggle
Even closed the business of smuggle
Everywhere Corona is the trouble .

54.We need hybrid generation

The only struggle now is to survive
No one knows when economy will revive
For what excellence we should strive
Monotony, lethargy has engulfed our life
Inside closed doors, quarrel with wife;
In genetic war, survival of the fittest is true
Due to poor immunity we can't fight a flu
All other primates are not at all worried
We need a new human who are hybrid
Genetically engineered man will be solid.

55.Best friend

Airports are dry
Airlines can't ply
No one can fly
People are shy
Rich can try;
To laptop say hi
Be a net savvy guy
On your bed lie
Every moment is my
Best friend is wi fi.

56.Landing on moon easier

Technology is at its peak
Yet the future is bleak
God's help people now seek
No country has a better trick
Is the situation nature's kick?
Landing on moon was easier
Everyone enjoyed in leisure
Staying at home now not pleasure
Corona vaccine will be treasure
It's value now no one can measure.

57.Good friend Donald Trump

Good friend Donald Trump
Without thinking you jump
Injury gives you always lump
Your actions will bring slump
You need friendly people to pump;
Every time you are very haste
Your words are of bad taste
Now you need some rest
Stay inside Whitehouse's nest
Prove that you are India's friend best.

58.Kalam told India will be super power

In twenty-twenty India will be super power
Kalam told, tallest will be India's tower
Modi is now bestowed with praising shower
Don't do anything, Indian flag which may lower
For his prediction let Kalam get his due honour;
India is now supplying lifesaving drugs
World will fight with this Corona bugs
India's help will save million people's lungs
Rising India will lead world in twenty- twenty
Kalam gave the message with honesty and integrity.

59.People will move ahead

Nothing is permanent in this world
Neither lockdown nor Corona
Soon both will wither away
Only the scars will remain sometime
After one or two years there will be no sign;
Public memory is always very short
In the struggle for life it will fade
The horrible days of now will be past
Bad memories never last too long
People will move ahead singing song.

60. Why I remained poor?

I remained poor
Integrity was core
Weighted honesty more
Never asked more
Now on Temple door;
God is not helping
Slowly I am dying
No help from crying
Under the sky lying
Only way is begging;
So, be little selfish
Let your image tarnish
Don't accept all rubbish
Never remain foolish
On time do apple polish.

61. Lockdown is now mental game

Lockdown is now mental game
One must be capable to tame
Keeping wildlife in cage is shame
In Zoo why we make tiger, lion lame
Our attitude to living things to blame;
Think about the caged animals in Zoo
To move freely in forests they love too
For pleasure of our mind we caged them
Voluntarily to Zoo never animal came
For animal kingdom Zoo is not good name.

62.This is time for humanity

This is not time for comedy
This is not time for tragedy
This is time for solidarity
This is time for unity
This is time for humanity;
Stay inside home for health
For future it is our only wealth
Spend quality time with family
Enjoy home food and exercise daily
Face the Corona epidemic boldly.

DEVAJIT BHUYAN, Engineer, Advocate, Management & Career Consultant, was born at Tezpur, Assam, India, on August 1961. He completed Bachelor of Engineering (Electrical), from Assam Engineering College and subsequently completed Diploma in Industrial Management, from International Correspondence School, Mumbai, LL.B. from Gauhati University, Diploma in Management from Indira Gandhi Open University, and Certified Energy Auditor Examination from Bureau of Energy Efficiency (BEE), New Delhi.
