Overall Position Mission	To develop, manage, implement, and provide supervisory oversight of CS's programs specifically related to targeted populations, geographies, and clients. The Program Manager develops, manages and implements his/her respective program area through the delivery of technical

	<p>assistance, training, capacity building, research/evaluation, advocacy, education, and other innovative strategies to meet CS’s overall vision, mission, and strategic plan. The Program Manager collaborates with other managers as a team and in partnership with the CEO to fulfil the mission of the agency and the outcomes of each program area. The Program Manager is responsible for overseeing all required outcomes of grant and contract funding sources, managing program budgets, and evaluating and reporting on project outcomes and accomplishments.</p>
--	--

Areas of Responsibility – The Program Manager is responsible for the development, coordination, management, and implementation of identified programs. In this role, the Program Manager develops, plans, coordinates, and manages all aspects of assigned grants and contracts.

The Program Manager is a part of the Leadership Team and will work directly with the CEO and other management staff in planning, developing, and achieving a strategic direction for the agency. Additionally, the Program Manager will work with staff to ensure that strategic and program objectives are met in a timely and efficient manner.

It is expected that the Program Manager will have a variety of skill sets to work on multiple aspects of project implementation. Time management, leadership, and self-direction are important aspects of this position.

Areas of responsibility include:

Program Development – Promote the development and growth of the assigned program area and in concert with other CS program areas. Development includes working with the CEO and Leadership Team to set and implement the strategic direction of the program area, conducting business development through the generation of new work via existing grants and contracts, building new lines of business through delivery of direct services, securing new grants or contracts, and/or obtaining new funding streams.

1. Assist with agency business development goals including, yet not limited to identification and tracking of funding opportunities and grant writing.
2. Track, maintain, and cultivate client relationships including grantee, contractor, or other contacts important for the development of the program area.

Program Planning & Implementation – Provide planning, coordination, management, and oversight to assigned program areas. The Program Manager is expected to provide direct delivery of consultation, training, technical assistance, and other functions to ensure the effective and timely achievement of all agency and program goals and objectives.

3. Oversight, management, and delivery of services (i.e., consultation/training) for the assigned program area and other associated projects. The Program Manager will ensure that all project management tasks are completed in a timely, effective, and efficient manner consistent with agency and funder priorities. Tasks include,

- yet are not limited to program development, grant writing, monitoring, delivery of technical assistance, training, and consultation for projects, evaluation, and reporting.
4. Provide program, content, and regulatory expertise associated with each project. In such a role, the manager will deliver direct consultation, training, and technical assistance; provide curriculum, resource, and product development; and perform other direct service functions to ensure the timely and effective delivery of agency and programmatic goals and objectives.
 5. Provide logistical support on all on-site technical assistance/trainings including yet not limited to securing training sites, negotiations for on-site equipment. Develop and maintain program area events on the agency calendar.
 6. Provide supervision to assigned staff and oversight to program consultants delivering services. The Program Manager will work closely with the Director of Programs and the Director of Administration in the development and monitoring of consultant contracts.
 7. Provide internal training and educational events to support professional development of staff related to program knowledge areas. Provide resources to the Office and Program Assistant for the Resource Library.
 8. Provide program monitoring/reporting both internally and externally related to designated projects. The Program Manager will fulfill all programmatic reporting to meet the agency and funder requirements. The manager will work directly with the Director of Programs and other staff to timely fulfill all grant/contract evaluation and reporting requirements.
 9. Develop and track programmatic management tools and resources to enhance the effective management, delivery, and reporting of the agency's program areas. Manage TA/training database and reporting (monthly, quarterly, annually) on TA/training activities.
 10. Represent the agency through the designated programs working with local, regional, and national partners. In this role, the Program Manager will promote the agency's programs and services to enhance agency visibility and develop new avenues of work.
 11. Support other agency functions as identified by the CEO.

Administration – The Program Manager will be expected to provide general administrative tasks for the agency in an effort to fully implement CS programs.

1. Complete all requirements as necessary for the business of CS.
2. Serve as part of the Leadership Team to plan, coordinate, and implement the mission of the agency and the strategic plan for the agency.
3. Collaborate with CS staff to design programs, write grant applications, and report on funds expended and goals achieved.
4. Develop effective methods to measure successful implementation of CS areas of focus.
5. Other duties as assigned by the CEO.

Supervision – The Program Manager is a supervisory position and includes the supervision of CS staff and agency consultants. Direct supervisory oversight includes: 1)

Program Specialists 2) Program Associates 3) identified consultants related to program management.

This job description in no way implies a contract or promise of employment. In the event of reduced funding, CS holds the right to limit or reduce allowable hours, pay, or to terminate the position as allowed within the CS Personnel Policies and Procedures Manual and/or contract. The above information is intended to describe the most important aspects of the job. It is not intended to be construed as an exhaustive list of all responsibilities, duties and skills required in order to perform the work.

Persons filling this position must comply with the CS Personnel Policies and Procedures as approved by the Board of Directors. Neither this job description nor the CS Personnel Policies and Procedures will constitute a contract for employment.

Collaborative Solutions, Inc. is an equal opportunity employer and a drug free workplace. All applications are to be submitted to the Director of Administration, Collaborative Solutions, P.O. Box 130139, Birmingham, AL 35213. Email to sharon@collaborative-solutions.net.
