

Collaborative Solutions, Inc. is seeking two (2) consultants for the HOPWA Equity Initiative. The HOPWA Equity Initiative (HEI) consultant must be a person with lived experience who is currently or has in the past received housing or services through a Housing Opportunities for Persons With AIDS (HOPWA) program.

About the Initiative:

The U.S Department of Housing and Urban Development (HUD) Office of HIV/AIDS Housing (OHH), in alignment with the Biden Administrations' priority of Racial Equity, is instituting the Housing Opportunities for Persons With AIDS (HOPWA) Race, Gender, and LGBTQ+ Equity Initiative (HEI).

It is the policy of the Biden Administration that the Federal Government shall work with communities to end housing discrimination, to provide redress to those who have experienced housing discrimination, to eliminate racial bias and other forms of discrimination in all stages of home-buying and renting, to lift barriers that restrict housing and neighborhood choice, to promote diverse and inclusive communities, to ensure sufficient physically accessible housing, and to secure equal access to housing opportunity for all.¹

OHH will work with communities to assess their HOPWA Programs' ability to address equity and provide tools for communities to improve their systems such that people living with HIV and/or AIDS have equitable access to housing and services.

This initiative's desired outcome is to have HOPWA Programs that provide services using an equity lens, ensuring that black, indigenous, and people of color (BIPOC), women, and LGBTQ+, have unfettered access to housing and services.

The goals of this initiative are to:

1. Set the expectation in the current environment for communities to adopt equity as a core value.
2. Utilize current data to establish a baseline of how HOPWA programs currently address equity.
3. Develop tools and resources for communities to build their systems to increase equity in their communities.
4. Provide guidance on how communities can address equity as part of their program designs.
5. Identify synergies between HOPWA, CPD Programs, and HHS around equity efforts.
6. Allocate resources to ensure successful movement in the direction of improved equity.
