---

Western ghats is one of the most important dense forests in the world. In lieu of keeping these forests protected, over 60% of the forest land has been destroyed by anthropogenic activities in 100years. If this destruction continues, the lives of countless species will see same fate as the dinosaurs and other creatures faced in their era. So, it's crucial to set free from destruction.

What options do we have left with? we are also exploring!

Before that, we are writing this letter to get more of opinions on the following cruxes.

- Your stance about Madhav gadgil & Kasturirangan report?
- If the above said reports were not eligible to consider in your viewpoint, then what notion do you have that can free the western ghats from human clutches?

Send your opinion along with your name & locality to [kalosmifoundation@gmail.com](mailto:kalosmifoundation@gmail.com) or WhatsApp to 9611172339, 8310721190

**One of the first conditions of happiness is that the link between man and nature shall not be broken. - Leo Tolstoy**
