

"This myth of the broken veteran is a lie. The fake news of veterans might shoot up the whole office is a sham. Not hiring veterans is a sin. Withholding work and jobs from vets is a disgrace and those who engage in such are a joke - just look at their employment numbers. And not funding veterans projects is the stupidest and worst business mistake a VC, banker, or Angel can make. Don't buy into the hype built around fraud." Martin CJ Mongiello, invited by President Obama to the White House to discuss VET ISSUES, 2015. Later, the subject of a Presidential Inquiry with the VA - launched by the President and one of the first-ever citizens in America to use the new Facebook utility to directly contact the President in the White House.

Here's proof of what we can do:
