

Go Behind the Scenes of Rushford Lake's Most Important Landmark!

Have you ever wondered what lies inside the nearly 100-year-old dam that created Rushford Lake? Dam Day is your rare opportunity to take a guided tour and explore the engineering marvel that has protected and sustained our community since 1929.

You'll learn how the dam works, hear fascinating stories from its history, discover the challenges of maintaining this aging structure, and gain a new appreciation for why preserving it matters to everyone who enjoys Rushford Lake.

Whether you're a longtime lake resident, a history enthusiast, or simply curious about what happens behind those massive concrete walls, this is an experience you won't want to miss.

Spaces are limited, so reserve your tour early and see Rushford Lake from a whole new perspective!

**Dam Day
Aug 8
at the Dam Park 7860 Mill St
10AM - 7PM**
