# What the record shows

2,000

**control evaluations**

80 institutions × 25 cells

209

**cells above Not Disclosed**

about 1 in 10

32

**cells Governed**

1.6%, about 1 in 63

0

**cells Sovereign**

in any institution, any sector

Public information as of June 30, 2026. Tiers reflect our analytical opinion on the completeness of public disclosure, not an assessment of any institution's internal controls. Institutions are unnamed and presented without regard to size, market position or ranking.

# 2,000 cells, at a glance

Every institution reviewed, one small 5×5 AI Control Matrix™ each. Each row is one sector, in report order.

Grey is Not Disclosed. The green band is the Models row.

Public information as of June 30, 2026. Tiers reflect our analytical opinion on the completeness of public disclosure, not an assessment of any institution's internal controls. Institutions are unnamed and presented without regard to size, market position or ranking.

# Where control sits

Number of institutions, of 80, disclosing control above Not Disclosed in each cell. Gold: of which Governed.

|              | JURISDICTIONAL | LOGICAL      | TECHNICAL    | OPERATIONAL   | CONTRACTUAL |
|--------------|----------------|--------------|--------------|---------------|-------------|
| Power        | ND             | ND           | ND           | ND            | ND          |
| Compute      | ND             | ND           | 3            | 1             | 1           |
| Data Centers | ND             | ND           | 1            | 1             | 1           |
| Models       | 1              | 51<br>7 Gov. | 38<br>8 Gov. | 68<br>17 Gov. | 5           |
| Agents       | ND             | 3            | ND           | 35            | ND          |

**All 32 Governed cells sit in the Models row. Power is Not Disclosed for all 80 institutions. Agents are disclosed almost only at Operational.**

Public information as of June 30, 2026. Tiers reflect our analytical opinion on the completeness of public disclosure, not an assessment of any institution's internal controls. Institutions are unnamed and presented without regard to size, market position or ranking.

**4** of 80

**institutions disclose anything at all about control over the compute or data centers beneath their AI.**

Three disclose owned compute; one discloses reliance on external infrastructure. At the Power layer, the base of the stack, none discloses anything.

Public information as of June 30, 2026. Tiers reflect our analytical opinion on the completeness of public disclosure, not an assessment of any institution's internal controls. Institutions are unnamed and presented without regard to size, market position or ranking.

# Of the 25 cells, how many could your institution evidence today?

***Not describe. Evidence.***

AI governance establishes intent. AI control demonstrates evidence: deep through every layer of the AI stack, and wide across every party operating AI on the institution's behalf.

# SEE YOUR AI CONTROL AS THE MARKET SEES IT

Your institution's public AI-control record, read cell by cell against the same standard applied to 80 institutions across eight sectors.
