		OLTAIX™		
		The Control Tower of the Sovereign		
		Intelligence Plane — orchestrating all		
	1	layers in real time with full auditability		
	1	and governance.		
	L			

## How to Read It

- Bottom-up (Power → Data Centers → Models → RAG → MCP → Agentic AI):
  Represents the Institutional AI Stack™ the architecture of control.
- Top layers (GRC → Human Governance → SOVEREIGN AI™):
  Represent the governance and foresight tiers where autonomy meets accountability.
- **OLTAIX™** sits to the **side or overlay** in diagrams acting as the Control Tower governing the full vertical stack.
