

Kayak Tours

of

The Nauset Marsh at Hemenway Landing

Eastham is the gateway to the Cape Cod National Seashore!

This scenic exploration is breathtaking, as you will find yourself navigating extensive channels of the tidal marsh, appropriately challenging for all ages. Tours are about 3 hours long, including a break.

You will experience throughout the tour different ecosystems of the region including a vast array of migrating birds, marine life swimming below our boats and so much more!

Please arrive 20 Minutes before the scheduled tour departure. A brief instruction and tips on how to properly use your kayak and paddle to maneuver your boat properly, with all questions answered, will precede the tour's commencement.

Free parking is permitted on either side of the road but NOT in the town parking lot-- that is reserved for motorboaters and their trailers and you are subject to be ticketed \$50 at a minimum.

We do our best to take into account tide flows as water rushes in and out of the marshes, creating two totally different paddling experiences; low tide providing unique sand flats, high tide raising you feet above the marsh bottom for a completely different journey, you may experience both!
