

Battery Energy Storage Systems: Resources for First Responders

Presented by NYSERDA

Learn how your community can prepare for energy storage project development safely and efficiently by adopting the tools and best practices in the **Battery Energy Storage System Guidebook**.

Date: Thursday, January 16, 2020

Time: 6 PM – 8 PM

Location: State Preparedness Training Center
5900 Airport Road
Oriskany, NY 13424

RSVP: Email 'January 16 RSVP' to cleanenergyhelp@nyserda.ny.gov

This workshop will:

- > Present information about battery energy storage technology basics
- > Identify important code and safety considerations for project siting
- > Feature curriculum tailored specifically for first responders

A light meal and refreshments will be provided

HOW YOUR COMMUNITY BENEFITS

Energy Storage Guidebook

Access information, tools, and step-by-step instructions to help you navigate important aspects of battery energy storage development:

- Planning and zoning, including decommissioning at the end of a system's useful life
- Permitting and inspections
- Emergency Operations Plan development

Download your copy of the Guidebook at nyserda.ny.gov/StorageGuidebook

Free Technical Assistance

Take advantage of free technical assistance to help you implement the policies and practices outlined in the Guidebook. We will work with you and your colleagues one-on-one to:

- Answer questions about energy storage
- Adopt a model battery energy storage law
- Help your town procure battery energy storage solutions

Email cleanenergyhelp@nyserda.ny.gov with your questions or to request free assistance.
