

GOING FOR ADDS - ON OR AFTER FEB 18TH 2023

Energetic alternative rock band **WINTERSTATE** are following up their critically-acclaimed sophomore album *Technicolor* (2022) with a new five-song EP titled **Sailors and Sirens**. The new recordings will be released along with several music videos on February 18th, 2023.

WINTERSTATE is led by singer-songwriter Kelvin Killmon (Seattle, WA) and multi-instrumentalist Alex Ortberg (Rochester, MN). The pair met as students at Berklee College of Music's campus in Valencia, Spain and have continued to write and record new songs together inspired by feel-good bands like The Killers, Mae, Anberlin, Incubus and Foo Fighters.

WINTERSTATE gained national popularity on college radio in 2022 after working with Grammy Award-winning mix engineer **Chris Lord-Alge** (American Idiot - Green Day, The Black Parade – My Chemical Romance), and mastering engineer **Ted Jensen** (Come Away with Me – Norah Jones). The band developed new material while touring around the Midwest and West Coast – refining crowd favorites which eventually found their way onto the upcoming *Sailors and Sirens* EP.

"Great punk elements, some great pop elements - really high level musicianship."

– CHRIS CARRABBA, DASHBOARD CONFESSIONAL

"A skillful, thoughtful band, and a strong contender for mainstream airplay."

– REBECCA VULLEN, STEREO STICKMAN

"A timeless, genre-bending sound—rebellious, relatable rock and roll."

– JORDAN HENRIE, ENNUI MAGAZINE
