

What Your Artist Needs to Know: The 3 "W"s

1. **What** do you want to get?

- **Visuals:** Provide clear reference photos. Your artist will use these to create a custom, original design.
- **Color Palette:** Decide between full color or black and grey.
- **Dimensions:** Give us an approximate size in inches. Remember: "Medium" is subjective. If the design is detailed, we'll need enough "real estate" on your skin to make it look sharp.
- **Script:** If you want words, visit dafont.com to find a style you love. Just give us the font name!

2. **WHERE** do you want it?

- **Placement:** Location is key for flow and longevity. Note that some artists specialize in specific areas; not everyone tattoos ribs, faces, or hands.
- **Skin Health:** We cannot tattoo over "broken out" skin, sunburns, or active psoriasis.
- **Skin Texture:** As we age, our skin changes. Your artist will confirm if your chosen area is suitable for the best possible result.

3. **WHEN** do you want it?

- **Walk-ins:** We accept same-day tattoos! To secure your spot, come in early.
- **Timing:** Most of our artists arrive by 12:00 PM. If you arrive late (e.g., 5:00 PM) for a large piece, we may not have time for the 1-hour drawing prep, 30-minute stencil set, and 3+ hours of needle time.
- **Get on the List:** Select "**2a) Same Day**" from our booking categories to join the queue.
