DEMOLITION PERMITS – RESIDENTIAL AND COMMERCIAL

As per the Asbestos NESHAP regulation, the owners and/or operators of all demolition projects, and the majority of renovation projects are required to provide written notification to the DEP at least 10 working days before the onset of demolition or renovation. The notification may be completed by one of the following two methods:

- 1. Mailing the paper Asbestos Abatement and Demolition/Notification form and the corresponding instructions can be found at the following link: DEP eLibrary (state.pa.us).
- Using the Online Asbestos Notification System on the DEP's GreenPort website. The UserGuide
 can be found at the following link: ePermit Operator UserGuide.pdf (state.pa.us)

Another helpful document for contractors is the "Asbestos Program for Contractors Working in Pennsylvania" which can be found at the following link:

www.depgreenport.state.pa.us/elibrary/GetDocument?docId=1418836&DocName=ASBESTOS
