This time of year is especially difficult for those who are grieving the loss of a loved one. For many there is not a “Happy Holidays”, “Happy Thanksgiving”, “Merry Christmas”, or a “Happy Hanukkah”. Often there is sadness, wanting to be alone, and to be separate from others who don’t understand our grief. There is often a void and deep longing for those who have died or who we have lost to an illness such as dementia. The feelings that arise are sometimes complex and unpredictable and at the same time uniquely our own. One certainly does not want to “celebrate” the holidays without their loved one. Things just aren’t the same anymore. You are not alone. Others are also experiencing grief and loss. Please join us as we explore some helpful coping tools. We are glad to have you.
