To whom it May concern

We had the opportunity to work with Mr. Ali Osman again in London, thanks to an advertisement published in Olay newspaper, which we met from Turkey.

We needed floor plans and layouts for our new venue to open in the Edmonton area.

Before the Adaloji Limited company was officially established, we started our negotiations and work. Uncertainties about our project have been eliminated, thanks to mechanical and building material knowledge and site experience. Thanks to their correct intervention in our wrong plans, we saved a great expense.

In the following processes, he came to our visit and examination every month.

I'm thinking of advertising Adaloji Limited company together at our opening this summer.

We plan to work together in the works we will do in the parking lot and terrace area next summer.

Best Regards

Orhan KURT
