To whom it may concern

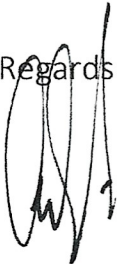

We met Mr. Ali Osman when he came for a haircut. He shared visuals about his previous works in the Enfield area.

I stated that we wanted to make restorations for our shop and to serve the existing area with a different style.

He took the measurements of the shop and prepared the quantities for the restoration that we will do in time after May 2022.

He returned a few days later with a floor plan and some preliminary work. I didn't expect him to be so disciplined. every month he shares sample pictures of the materials he finds and the barbers. We have already started to announce to our customers that we will open them with a very different concept this summer.

Best Regards
