

REFERENCE LETTER

FOR MR ALI OSMAN CAKIRER

15-06-2026

To Whom it May Concern,

I am pleased to provide this reference in support of Mr Ali Osman Cakirer, Director of Adaloji Ltd.

We have engaged the services of Mr Cakirer on numerous occasions over the past two years. Our relationship has been on a sub-contracted consultancy basis, with Adaloji Ltd being appointed as and when additional technical and site support services were required on specific projects.

During this period, Mr Cakirer has assisted our team with a variety of construction-related activities, including site inspections, progress monitoring, contractor coordination, quality control reviews, technical assessments, and general project support. His involvement has often extended across architectural, building services, and construction packages, helping to ensure that works are progressing in accordance with project requirements.

Mr Cakirer has regularly attended project sites on our behalf, reviewed completed works, reported on construction progress, identified potential issues requiring attention, and assisted with the coordination of various trades and subcontractors. His practical understanding of construction processes, combined with his technical knowledge, has proven beneficial in maintaining project quality and assisting with day-to-day site operations.

Throughout our engagements, he has consistently demonstrated professionalism, sound judgement, and a proactive attitude. He approaches tasks methodically, communicates effectively with project stakeholders, and remains focused on achieving practical solutions when challenges arise on site.

One of Mr Cakirer's key strengths is his ability to bridge the gap between technical design information and on-site implementation. His input has assisted our teams in resolving construction queries, monitoring workmanship standards, and maintaining project momentum during critical stages of delivery.

Based on our experience, Adaloji Ltd has become a valued external resource that we frequently call upon when additional technical oversight or project support is required. We have always found Mr Cakirer to be dependable, knowledgeable, and committed to delivering a high standard of service.

We would therefore have no hesitation in recommending Mr Cakirer and Adaloji Ltd to other organisations seeking professional support in relation to construction monitoring, project coordination, technical reviews, and site-based consultancy services.

This reference is provided at Mr Cakirer's request.

Should you require any additional information, please do not hesitate to contact me.

Yours faithfully,

Timucin Cengizhan
