Quick and Easy DIY Burp Cloths

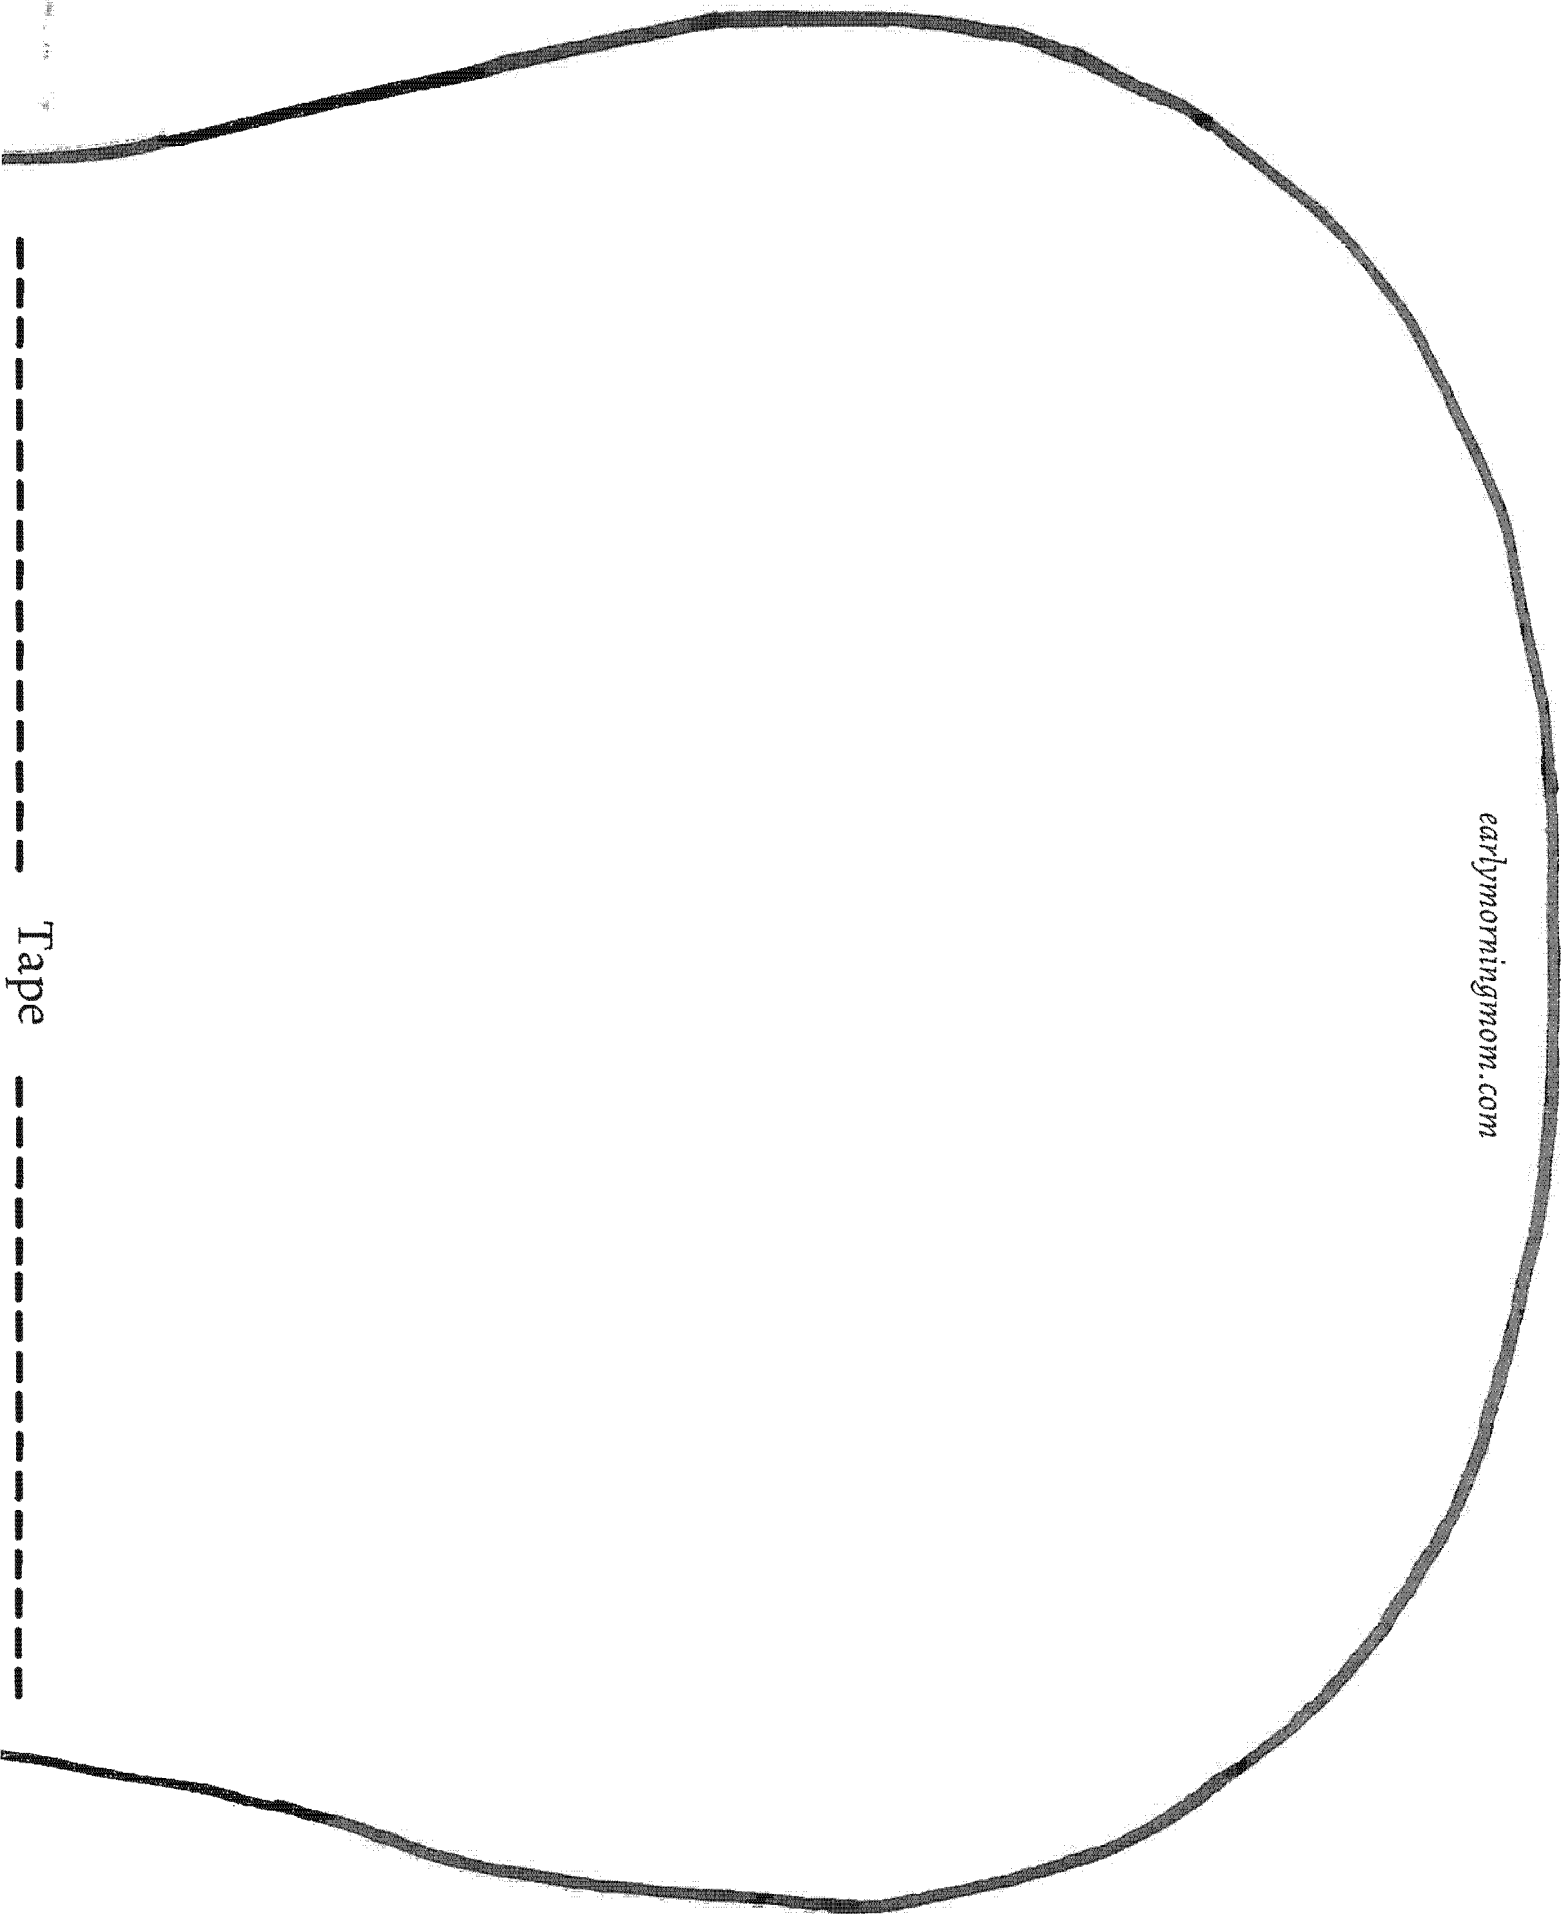

DIY / By [Christina](#)

Babies are messy. Before our daughter was born, I had no idea how many burp cloths we would go through in a week. We have at least one in every room of our house because you never know when you'll need it!

These DIY burp cloths are quick and easy to make and they are a cute baby shower gift. They're also perfect for a fast, fun project to make for your own baby.

I made a set of 20 burp cloths for my cousin who is expecting her first baby and it took a little over 3 hours to finish everything. That's only about 10 minutes per burp cloth!
