

Music is Sound

BY: JO-ANNE LOCKE

WWW.LOCKEMENTORING.CA

Sound is all
around us.

We hear sound
with our ears.

When something
moves, it makes
a sound.

A drum moves
when we hit it.

Our voices move
when we talk.

**SOUND CAN BE
LOUD!**

Sound can be soft.

Sound can be
fast.

Sound can be
slow.

We can make
sounds with our
hands, or with
sticks on a
bucket.

Music is a sound
we enjoy.

We can make
music together!

The End!
