

## **What is Compliance Check+®?**

The Compliance Check+ TJC Compliance Tool is a web-based tool designed to facilitate Healthcare Organizations (HCOs) with preparedness for Joint Commission surveys. Using the organization's TJC license, the Compliance Check+ TJC Compliance Tool allows healthcare providers to coordinate TJC standards with facility specific documentation. This tool allows a HCO to conduct a complete or partial mock survey allowing for closer ongoing monitoring of compliance status. This tool also allows HCOs to record, store, share and distribute supporting documentation demonstrating measurement, discussion, and recording of the important processes that the TJC accreditation will expect to find as evidence of continuous quality improvement when surveying an organization.

## **How does Compliance Check+ ® provide value to customers?**

The Compliance Check+ TJC Compliance application

- ❖ Becomes the backbone of your TJC compliance efforts

The U-Accredit- IT application is self-hosted at the client site, a web based; pervasive tool (not invasive); rapidly deployed and easily maintained.

### Minimum Browser Requirements:

None (There are no minimum browser requirements)

### Security and Privacy

We offer our clients a dedicated server with elaborate and permanent, security management ensures comprehensive security, featuring:

- Configurable firewall
- GEO Trust certified SSL certificates
- 24/7 Technical Support
- High performance secure data center
- AMD processors
- Top-tier connectivity
- SSH shell access

### Optional: Hosting at Your Site

Hardware Requirements include:

- Operating System: Windows 2012 r2
- CPU: Intel Processor w/ 4 Cores
- RAM: 16 GB
- Hard Drive: 1T minimum

OR

- Operating System: Linux CentOS-7
- CPU: Intel Processor w/ 4 Cores
- RAM: 16 GB
- Hard Drive: 1T minimum
