

## **What is HealthcareRightNow?**

**HealthcareRightNow** is a web-based tool and app designed to empower your healthcare organization to implement consistent, efficient and sustainable processes for an exceptional online learning environment to assist clients in all levels of training. It allows a healthcare institution to automate, measure, validate and report at every step of your learning process, whether within individual departments, classes or at home. Healthcare Right Now ultimately reduces risks and costs while increasing transparency in learning to nurses, doctors, compliance officers, financial departments and other areas within the hospital environment. The solution allows for rapid change in conditions and objectives though growth of a healthcare institution. We are flexible with customization in assisting each healthcare institution employee who has unique challenges and goals.
