

2026 Recital Costume Sheet: Wednesday Classes

Hair

- Hair pulled back into a low bun with a center part
 - To make the center part, brush all of the dancer's hair back away from their face, find the middle of the dancer's nose, and take the end of a comb/finger tip and make a clean, straight line down the center of the dancer's head
- Hair must be slicked back neatly away from the face, using hair gel and hair spray
- Low bun must be secured with hair elastics, hair pins, bobby pins, and a hair net that matches the dancer's hair color

Hair Materials

- Hair elastics that match the dancer's hair color
 - [Example](#)
 - [Example for dancers with very thick hair](#) (we suggest placing a regular hair elastic in first and then following up with this extra long hair elastic to secure dancer's hair)
- Hair pins (highly suggested, especially for dancers with long and/or thick hair) - please match dancer's hair color
 - [Example - Also sold at Capezio in Wellesley](#)
 - Note - Different lengths of pins available; choose the length that makes the most sense for your dancer depending on the thickness and length of their hair!
- Hair net (sold at Capezio in Wellesley if you need more) - please match the dancer's hair color
