EXPLORE
POSSIBILITIES

Our nature has provided tremendous beauty in entire universe, men has always been trying to accumulate that beauty at his home in terms of interiors, by using natural stones and marbles but we face some difficulties with available size, difficulties in chemical resistance and consistency. here's where IBIZA® plays a major role by providing extraordinary and rare marble and stone replica to use for various surfaces with highest technical parameters and gives endless possibilities to introduce nature's beauty to your home.

COLLECTION 320X160

LAMAR Porcelain in the collection 320x160 is crafted carefully to enhance the versatile applications of porcelain slabs. This size lends itself to numerous applications owing to its large size, be it seamless wall facades or countertops. The varying thicknesses offer creative freedom to architects while still being a breeze to fabricate and install. Being at the forefront of the latest technology in porcelain slab design and manufacturing, LAMAR porcelain makes itself indistinguishable from its marble counterparts, and offers a beautiful and finished final look. Its anti-bacterial and low water permeability makes it an excellent and hygienic choice for countertop surfaces.
