## Superintendent

Our Superintendents are the backbone of field operations charged with the daily operations and project life safety. The Superintendent will manage contractor and subcontractor work efforts, daily scheduling, logistics of trades, equipment and materials and several other tasks that are critical to the construction process.

### Successful Candidates will have the following minimum criteria

#### MUST HAVE

1. 5 to 10 years' experience as a trades person
2. Experience as a Foreman or Superintendent
3. Experience managing other workers
4. Experience managing subcontractors
5. OSHA 30 Hour Certification Card
6. Knowledge of scheduling and sequencing (trades and activities)
7. Must read blue prints
8. Credible references (3 to 5), must cover the last 5 years of work history

#### NICE TO HAVE(s)

- Quality Assurance Certification
- Federal Contracting Experience
- Job Order Contracting Experience
- Specialty Trade experience with MEPs (Mechanical, Electrical, Plumbing)
