You were there

Just a few days ago
Was anything wrong?
Diary has no words
In the present tense
Like a tide retreating
The shoreline deleting
You were there
And now all is lost

Just a few weeks ago
Was anything wrong?
Diary closed its cover
Now all in past tense
Like a fading light
Escaping into the night
You were there
And now all is lost

Just a few years ago
Was anything wrong?
Diaries full of praise
In the present tense
Like a brave soul
Stepping out into the cold
You were there
And now all is lost

Just a decade ago
Was anything wrong?
Diary mentions the crash
In the past tense
You woke up but different
I remember you distant
You were there
And now all is lost

Just yesterday
Something was wrong
Diary was left alone
Nothing written in any tense
I'm sorry for what I said
Everything just came to ahead
You weren't there
And now I am lost
