

## MUSIC OF THE SPHERES

Shining bright  
In the middle of night  
Dancing in the universe  
Sound of spheres  
Only few can hear  
What a delight  
With smiles so bright  
And star spangled eyes!  
Behold! Behold!  
This is life!  
From dust we came  
To dust we go.  
This my love, is our Universe!
