

## Swan Song

If I could live just one more day  
I'd sit with you and there I'd stay  
I'd tell you what you mean to me  
And how your loving set me free

We'd laugh at all the silly things  
We've done  
And then we'd laugh some more  
We'd hug, we'd hold each other tight  
We'd not waste time  
Regretting that there wasn't more

Of course, we had some tougher times,  
Days of sadness, hours of stress  
But on the whole life has been good  
We've had each other, we have been blessed

We didn't have three score plus ten  
Together we could not grow old  
A moment's sadness I'll allow  
But count our blessings many fold

It seems our lives were perfectly planned  
In the thousands of years that God provided  
Miraculously we found each other  
How wonderful, our lives collided

Remember me with peace and joy  
Now I'm no longer by your side  
Shed a tear or maybe two  
but then move on and dry those eyes

On that last day let's waste no moments  
thinking of when things went wrong  
Just make the most of every moment  
of this our beautiful swan song
