

Second place: Dreaming (After Imagine, John Lennon) – Andrea Neidle

Imagine there's no virus

That there's no killer flu

Nothing that's going to hurt us

It isn't hard to do

Imagine all the people

Grateful for this world

Imagine no social distancing

I wonder if you can

No need for masks or PPE

A brotherhood of man

Imagine all the people

Living healthy lives

You may say I'm a dreamer

But I'm not the only one

Join me in my vision

And the world will be as one

Imagine there's no borders

It isn't hard to do

Nothing to be killed by

Because there's no killer flu

Imagine there are beaches
Where you can lay your head
Where you can sit with loved ones
Or go swimming in the Med
Imagine all the people
Getting close again
You may say I'm a dreamer
But I'm not the only one
Join me in my vision
And the world will be as one
Imagine you can eat out
It's easy if you try
Holding hands together
Watching the world go by
Imagine going to parties
It's not hard to do
Going to gigs and festivals
Concerts and theatres too
You may say I'm a dreamer
But I'm not the only one
Join me in my vision
And the world will be as one

Imagine celebrations
With family and friends
Seeing your relations
When this dark era ends
Imagine hugging loved ones
It isn't hard to do
Shaking hands and kissing
When there's no killer flu
You may say I'm a dreamer
But I'm not the only one
Join me in my vision
And the world will be as one
Imagine there's a vaccine
It's easy if you try
Everyone can go outside
Because no one's going to die
Imagine all the people
Living out their lives
You may say I'm a dreamer
But I'm not the only one
Join me in my vision
And the world will be as one.
