

## IN SERENITATEM

L-O-V-E you said to me  
And I refuse to be lonely  
Just like starting over, you saw  
My feelings like Lazarus  
Way down standing on a stepping stone  
But it doesn't matter anymore.

The atmosphere along memory lane  
Was clear, I felt serenity again  
You got it, the soul of my suit song  
When that man was dead and gone  
The mystery of the aerodynamic  
And then your cheatin' heart  
Were these the days of our lives  
Whilst we sat on the dock of the bay chasing time.

Finally, back together again  
Though love tore us apart in the rain  
A yellow pearl, a sign, who to blame  
It was never the same  
Humble pie and look at me now  
But dream a little dream somehow  
Oh sanctified lady of the watchtower  
Please take my hand, for I can show you  
The best of joy, in this hour.
