

# Palette Insert Installation and Care Instructions

---

## ***Palette Insert Installation Instructions:***

Make sure the palette insert is right side up and the finished side is facing you.

- Insert the cleats located in the bottom of the palette insert into the slots located in the bottom edges of the Kitchen Palette frame opening.
- Attach the yellow safety strap located in the top middle of your frame to the notch located on the top middle of your palette insert.
- Push both top corners of the palette insert forward into the latches until you hear both latches “click.”
- Your palette insert is now in place and ready for you to enjoy.
- To remove the palette, push both top corners of the palette insert inwards (towards the wall) until the latches click and release. Unhook the safety strap from the palette insert and lift the palette insert out of the frame.

## ***Care Instructions:***

### **IMAGIO Glass Art Inserts For Kitchen Palette**

- Clean your IMAGIO Glass Palette Insert with cleaning materials that are free of dirt or debris, to avoid scratching the surface of the glass. Use a soft cloth or towel to clean the board.
- IMAGIO recommends standard glass cleaner. Do not use glass cleaners that are ammonia- or alcohol-based. They may leave streaks or produce a film that attracts moisture or dust. Do not use a razor blade to scrape off stubborn materials — doing so may leave permanent marks on the glass or scratches that could cause glass breakage.
