

EDGE is a chelated Magnesium, Manganese, Zinc and Iron source with a liquid biological N-P-K Formulation designed for soil and/or foliar application, to prevent and correct pre-existing Mg, Mn, and Zn deficiencies as indicated by plant leaf, visual and/or soil testing. Since the ingredients in ADVANTAGE are 100% water soluble and immediately available to the plant (when used as directed), this product is extremely efficient as a foliar spray in situations where a rapid response is desired.
