

Oregon Workers and Businesses are in Crisis!

The Time for Action on Workforce Training and Re-Employment is Now.

SEE THE 100+ ORGANIZATIONS ALREADY SUPPORTING THIS ACTION PLAN

To ensure an equitable economic recovery, Oregon needs to help local businesses recoup from the pandemic and provide a hand-up for Oregonians most impacted by COVID-19, including communities of color, women, and younger, less-educated and lower-income workers.

To address these challenges, **we recommend a \$50 million investment** in 3 proven strategies to transition **10,000** Oregonians to good jobs:

1. Increase Local Service Capacity
2. Increase Earn and Learn and Rapid Re-Careering Opportunities
3. Increase Access to Wrap Around Supports

This Proposal Pays for Itself!

*State Taxes alone will be \$18,952,000/year
– enough to pay for itself in 2.63 years.*

Other benefits include:

- Reduced dependence on public assistance
- Increased housing stability
