### HOW TO CALCULATE HANDICAP GAMES

1. If both numbers are positive or both numbers are negative then you subtract the smaller number from the larger number and refer to the chart above.
2. If one number is positive and one is negative then you add the two numbers together and refer to the chart above. The team with the negative number gets the handicap.
3. If the team is not "established" yet then use the class chart on the scoresheet for handicap games.
