

## 2023 Roadtrek Play, Better Than New!

\$119,995

2023 Roadtrek Play Class B Van in better-than-new condition for \$119,995 with both Ram and Roadtrek factory warranties. An employment change means we can't camp like we want so we're pricing our RV for a quick sale without dealer hassle or dealer prices. Only 5,300 miles and priced right!

- Condition: New, less than a year old. All equipment and functions are set up, updated, tested and optimized. We even improved on the factory condition by carefully installing a few special additions for storage, utility and livability.
- Manufactured in Canada, Roadtrek RVs are recognized for design, style and quality.
- With the classic granite paint, tinted windows and utility connections at the rear, it's perfect for stealth camping.
- The Play model comfortably accommodates two people. Its proportions are an advantage: roomy for two tall people yet small enough for maneuverability and easy parking. It's also the quietest RV we ever drove.
- The European-designed Ram ProMaster 3500 is the perfect chassis for Class B. The powerful 3.6L V6 engine and nine-speed transmission gets excellent mileage: almost 19 mpg on our trip last month!

### **Motorhome Equipment:**

- 400A Battery System
- 3K Watt Sine Wave Inverter
- Generator
- Fan w/Remote
- Premium Bug Screens
- Three Sets of Privacy Shades (summer/winter/integrated)
- Power Awning
