

ABOUT KAVITA

Kavita Ryali is a Technology and Product Leader working in Microsoft for over 14 years and 20+ years experience in the Technology Industry. She has led several key leadership initiatives on STEM, DIGIGilrz and Women's Diversity & Inclusion. She was recognized as the 2020 Women in Tech Award by Aragon Research for her outstanding work in Product Operations and Innovation. She has been an esteemed panelist and moderator in the Grace Hopper Conference, United States for multiple years (2021, 2019) and is attended by over 50K women worldwide . Here she empowered and inspired Women in Technology, C-level Execs and Emerging leaders with her leadership sessions on Allyship and Career Development. She was also an executive committee member, coach, speaker at the highest rated "Lightning Talks" Session and in the VMware organized Women Transforming Technology event WT2 for multiple years (2018-2022). Kavita has been passionate about social causes and has been a Technology Advisory Board member for several nonprofits. She is a mentor, coach, Diversity leader, and a proud mom of a teenage son. In her spare time, she enjoys traveling, music and reading.
