To Whom It May Concern,

It gives me great pleasure to recommend a highly valued Business Professional and Facilitator, Mrs. Nakisha King. Our organization have had the pleasure to utilize her expertise in conducting invaluable workshops for both active-duty service members and Transitioning Service Members and Military Spouses. She has demonstrated superb knowledge that has transferred to our client in varying abilities in the world of Networking and Relationship Marketing. Mrs. King is, in my opinion, truly gifted in her craft as she developed the M.I.L.E. Prep Initiative (**M**aking It **A** **L**ittle **E**asier Post Military Service) to educate and enlighten both active-duty service members and Veterans alike to have a smoother transition into civilian life.

As the Hampton Roads Veterans Employment Center Coordinator at Virginia Career Works Hampton Roads Region, I have come to know that Nakisha has undoubtedly impacted many in her pursuit to help service members worldwide. Since February of 2018 Mrs. King has partnered her company Gift Opener LLC along with a Non - Profit service organization, Active Veterans with Answers in order to offer workshops that consisted of Career, Leadership and Networking training at the Hampton Roads Employment Center in Norfolk, Virginia. Mrs. King had a great rapport with the attendees, established solid routines and employed skills that allowed for dozens of success stories.

I, along with many collaborative partners, truly believe that Mrs. King is one of our greatest assets as she implements more sustainable post-transition strategies and policies for our veterans throughout various organization and agencies. It has been my pleasure to have worked with Mrs. King. She is extremely well organized, dedicated and committed. I am pleased to recommend her without reservation, for any position requiring hard work, innovative ideas, loyalty, and dedication.

Please contact me if you have any further information.

Sincerely,
