# INTRODUCTION

Relaxable.com is dedicated to building products and services that help users relax, reduce stress, and get a good night's sleep.

The global wellness industry is valued at over \$4.5T (Trillion) and has no signs of slowing down. This massive industry is surging due to people seeking out new services and products to improve their overall well-being and quality of life. The goal of Relaxable.com is to begin integrating the web3 community into that wellness industry, and provide people with products that help them relax and improve their overall health.

Currently, Relaxable.com's flagship product is a mobile relaxation app that users can download on their iOS and Android devices. After a successful launch of the mobile relaxation app, Relaxable.com is now looking to integrate web3 services and develop products such as comfort wear, sleepwear, herbal teas, and much more.

# APP OVERVIEW

## FLAGSHIP PRODUCT

The Relaxable.com mobile app is the flagship product that began our journey of providing relaxing content and services to users. Our relaxing videos, sounds, music, meditations, and stories were designed to help users relax and get a good night's sleep. Our web2 mobile app can currently be downloaded on Google Play and the Apple App Store. Below is a quick over view of what each section of our mobile app provides:

## VIDEOS

The Relaxable.com video library consists of short length videos that provide a relaxing visual and auditory experience. While all of the original videos uploaded to our library were created by the Relaxable.com team, we also have a process in place to receive, approve, and promote videos from content creators and brands.

# APP OVERVIEW

## SOUNDS AND MUSIC

The Relaxable.com sound library is broken down into two separate sections: Sounds and music.

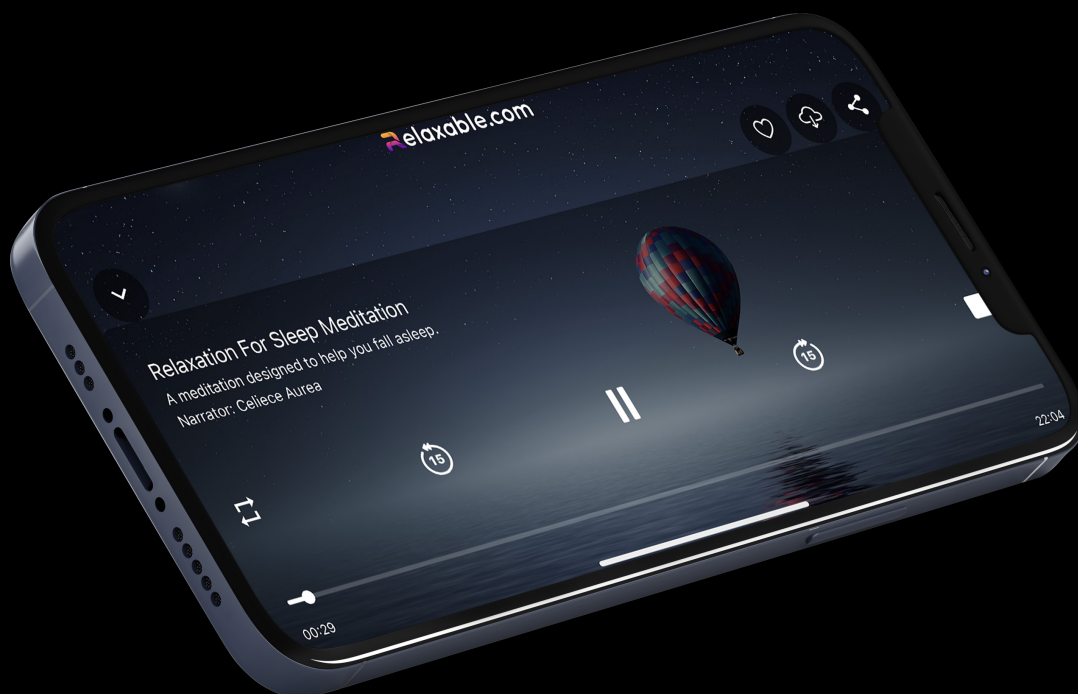

The sound category provides white noise ambience to users to aid with sleep or relieve stress and anxiety, while the music category provides users with calming audio tracks that can be listened to at any time of the day.

# APP OVERVIEW

## MEDITATIONS

The Relaxable.com meditation library provides users with guided meditations that cover a variety of topics. These meditation topics include sleep aid, mental relaxation, total body relaxation, stress relief, anxiety relief, media mindfulness, loving kindness, morning motivations and more. Professional narrators with highly sought-after voices in the recording industry were hand chosen to guide these meditations and provide users with a high-quality relaxing experience.

# APP OVERVIEW

## STORIES

The Relaxable.com story library contains original sleep stories for both children and adults. Kids can let their imaginations run wild as they listen to short stories about dragons, mermaids, playgrounds, wishing stars, and more.

For adults, our library contains both fictional sleep stories, as well as motivational success stories. All stories are read by professional narrators who have highly sought-after voices in the recording industry.

# WEB3 INTEGRATION

## PHASE 1: CREATION OF NATIVE WEB3 CRYPTO TOKEN (\$RELAX)

### OVERVIEW

In order to implement web3 features, Relaxable.com will be creating a native cryptocurrency token on the Ethereum blockchain.

- **Token Name:** RELAX
- **Blockchain:** ETHEREUM
- **Token Type:** ERC-20
- **Max Supply:** 1,000,000,000
- **Initial Circulating Supply:** 1,000,000,000
- **Private Sale:** NONE
- **Personal/Team Allocation:** NONE
- **Initial Token Offering:** Stealth/Fair launch. 100% of the available tokens will be deposited into the LP for the web3 community.
- **Transaction taxes:** 0%
- **Burn Mechanism:** NONE
- **Purpose of RELAX:** To be utilized in Relaxable.com products & services.

# WEB3 INTEGRATION

## PHASE 2: INTEGRATE NATIVE TOKEN INTO RELAXABLE.COM

Phase 2 of our web3 integration will focus on our flagship product; the Relaxable.com mobile app. We will be extending our mobile app to a web based platform, and incorporating web3 payments using our native token (\$RELAX) as well as a handful of other mainstream coins and tokens.

## PHASE 3: DEVELOP FURTHER NATIVE TOKEN USE CASES

Some use cases of the \$RELAX token will include but are not limited to:

- Paying subscription fees.
- Promoting services, content, and brands.
- Admission to conferences and events.
- Primary token used in future Relaxable.com games.
- Access to partnered web3 projects (i.e. metaverse)
- Access to partnered services (i.e. massage therapy)

# WEB3 INTEGRATION

## PHASE 5: INTEGRATING PROMOTIONAL SERVICES

Another feature of our web3 integration will be promotional services.

Content creators and brands will be able to promote their approved content on our platforms to bring awareness to their products and services. These promotions will be paid using RELAX tokens.

## PHASE 6: RELAXABLE.COM GAMING

Gaming is a major contributor to relaxation for millions of individuals around the world. Word puzzles, idle games, and even metaverse games provide users with enjoyment on a daily basis. Phase 6 of our roadmap will focus on the development of blockchain games which will incorporate our RELAX token.

## ONGOING: ACCESS TO LIVE EVENTS

Relaxable.com will also be working to initialize live events both online and in the real world for the web3 community. Annual conferences and community gatherings related to wellness and mindfulness are just a few events we have planned on our roadmap.

## ONGOING: ACCESS TO PARTNERSHIPS

As our community continues to grow, so will our partnerships. Whether it's with other wellness companies, web3 communities, or metaverse projects, the RELAX token will be at the forefront of those partnerships.

## PRODUCT INTEGRATION

After successfully launching a mobile relaxation app on both the Apple App store and Google Play store, Relaxable.com is now looking to extend our products and services to include comfort wear, sleepwear, herbal teas, and much more. Relaxable.com plans to incorporate payment for the following products using RELAX tokens into an online shop:

### **COMFORT WEAR:**

Includes items such as bathrobes, slippers, sweaters, etc..

### **SLEEPWEAR:**

Includes items such as pillows, blankets, sleep masks, etc..

### **HERBAL TEAS:**

This includes a custom line of herbal teas designed to help users with relaxation and sleep in a healthy way

The goal expanding our company to include these products and services is to turn the Relaxable brand into a household name when people think about relaxation.
