Working with Care Plans

Working with Care Plans

Client Care Plan

- · tells the story of what a client needs and wants
- what people can do rather than what they can't
- explain what needs to be done and who will help

Good Client Care

- · follow the Care Plan
- be organised
- follow the Policies and Procedures
- · listen and talk to your client
- · maintain client privacy
- report to the Coordinator if things change for the client

Duty of Care

- · check your client is safe
- · if your client isn't home check with others
- tell your Coordinator if you don't see your client
- · tell your Coordinator if client needs change

Medications

- follow the Policy and Procedures about giving medication
- follow the Clients Care Plan about their medication
