What is PureStyle?

STABLE AND DURABLE

PureStyle combines the durability of laminate and the beauty of paint. It is more stable than painted wood products, which contract and expand in changing environmental conditions.

A PROVEN PERFORMER

Like all Aristokraft® products, PureStyle has been subjected to rigorous KCMA performance testing and has met or exceeded all certification requirements.

ENVIRONMENTALLY SAFE

The wrap material used for PureStyle is a cellulose-based product that is environmentally safe and contains no toxic substances. Substrates are Medium Density Fiberboard (MDF), which are made from wood that comes from forests with eco-sustainable systems.

ON-TREND AND IN DEMAND

PureStyle laminates offer crisp, clean details and a quality finish. The added benefits of color consistency and a velvety smooth touch mean PureStyle delivers fashion without the fuss.

5-Piece Construction

As opposed to thermofoil, which is a routed slab product, PureStyle boasts a true 5-piece construction, that effectively emulates the look of painted wood cabinets.

Continuous Wrap

Each component of the 5-piece construction is continuously wrapped, reducing the potential for moisture to enter and delamination to occur.

Exceptional Finish

PureStyle laminates offer a velvety smooth finish that is color consistent and won't crack or craze like painted wood products.

Unmatched Benefits

With benefits exceeding those of painted wood, dollar for dollar, PureStyle delivers maximum value.

PureStyle vs. Paint

See how PureStyle stacks up against painted cabinetry when it comes to addressing these common cabinetry concerns.
