The Chemical Specialists...

“ Quality is never an Accident, it is always the result of High Intension, Sincere Efforts, Intelligent Direction and Skilful Execution ;it Represents the Wise Choice among many alternatives ... “

Golden Words - Late Shri V.P. Saxena, FOUNDER STAS Group

WELCOME TO STAS

Welcome to STAS, where innovation meets excellence in chemical manufacturing. As a premier provider of cutting-edge chemical solutions, with a rich history of excellence and innovation, we are dedicated to delivering top-tier products across industries such as hospitality, education sector, food industry, textile & Garment manufacturing and Auto care industry. Our two (2 Nos) state-of-the-art manufacturing facilities and rigorous quality control processes ensure that every product we deliver meets the highest standards of safety and efficiency. Committed to sustainability, STAS continuously invests in eco-friendly practices and technologies, striving to minimize our environmental impact. We pride ourselves on our dedicated team of experts who work tirelessly to provide exceptional service and solutions tailored to our clients' unique needs.

Our MAIN PROMOTERS

Late Shri V.P.Saxena - Founder STAS Group :

In 1986 Late Shri V.P. Saxena, a visionary and a hard working person with dreams in his eyes, determination in his mind, education from the most prestigious institution of INDIA i.e. I.I.T. Delhi and experience of about 10 yrs in textile processing grabbed an opportunity to start this own chemical manufacturing facility. With all the odds faced he with his determination, hard work and committed attitude, he stands tall as the FOUNDER of the STAS group.

Mr TAPUSH SAXENA - DIRECTOR Production & Finance

Mr Tapush Saxena, MBA - Finance, Director of Production and Finance. He is a born leader with a golden heart, known for his visionary approach and impeccable execution skills. He joined the organisation in 2000, since then STAS has never looked back.

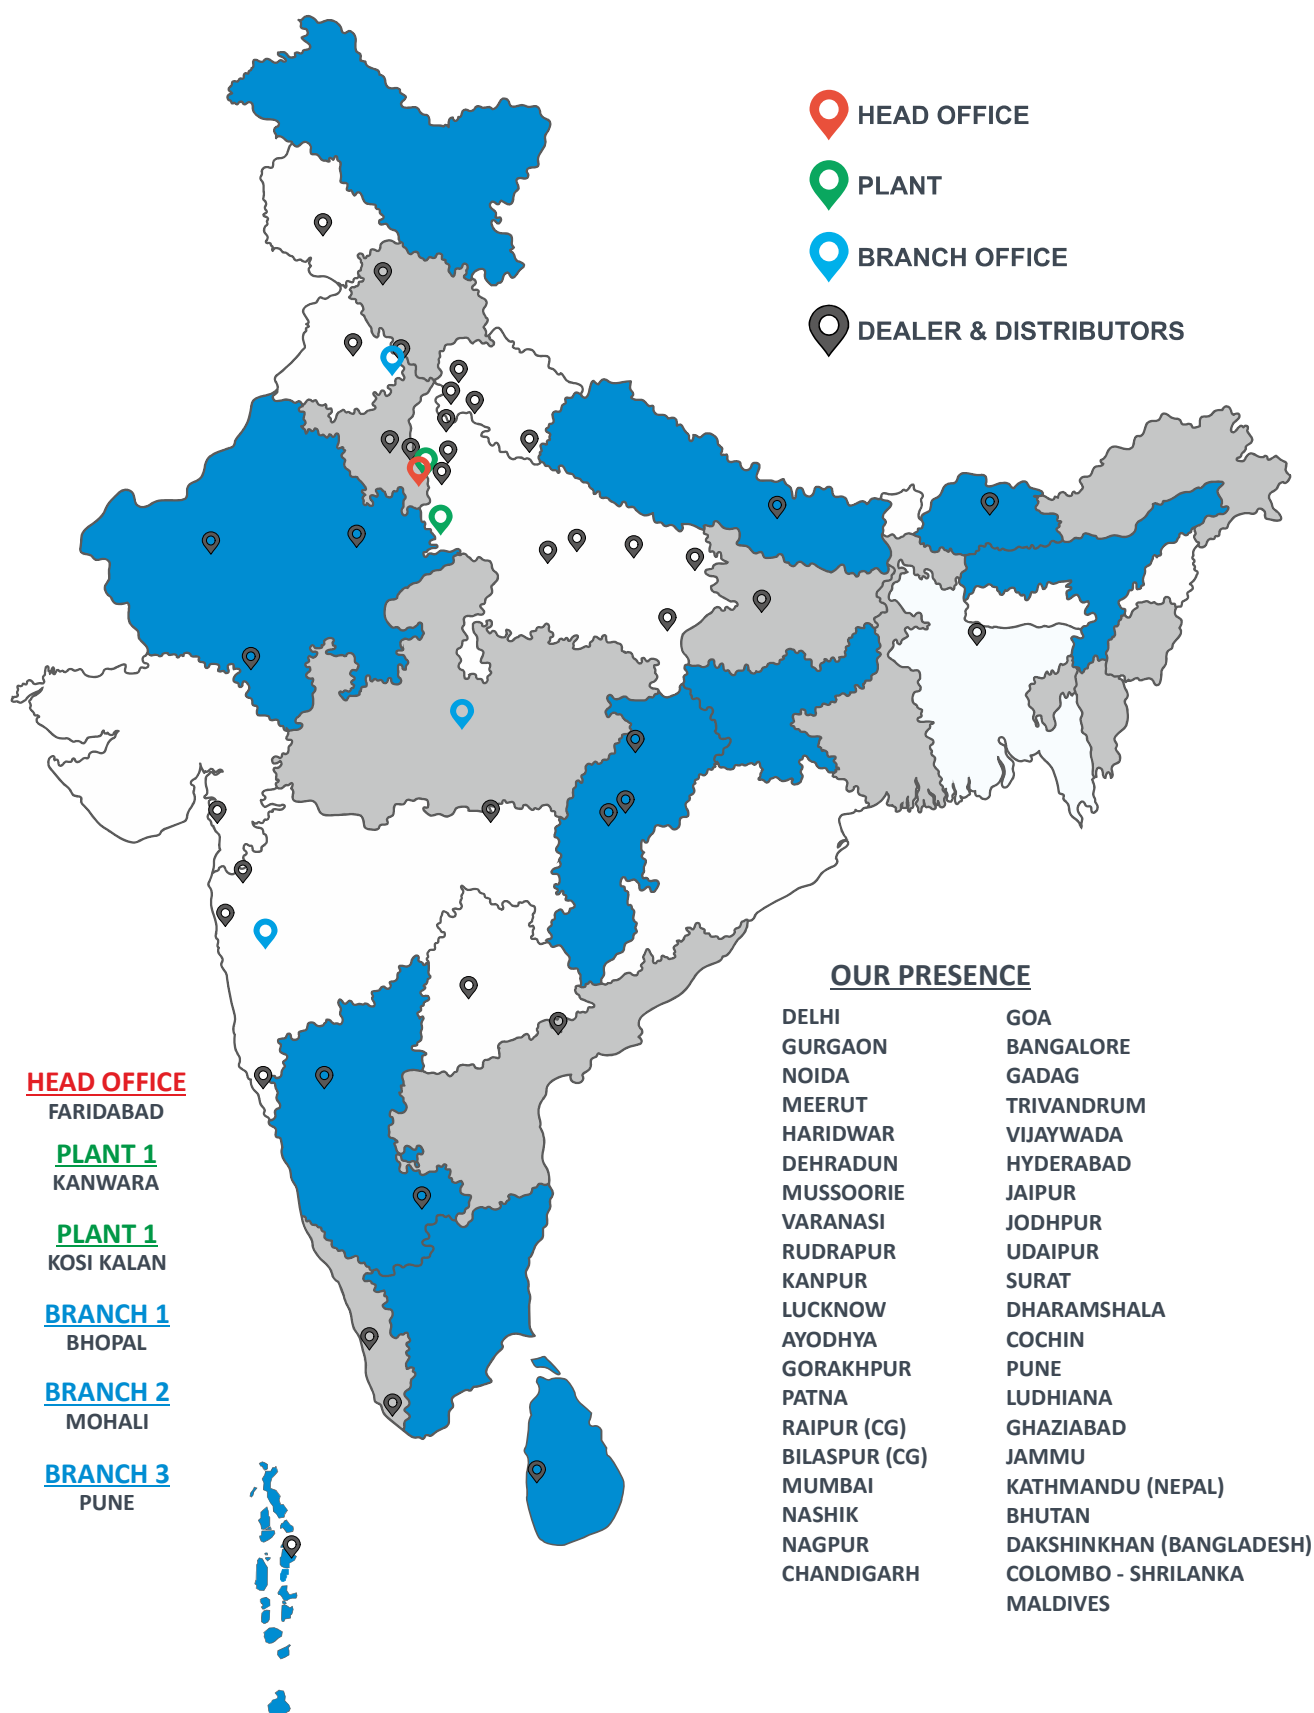

Mr AYUSH SAXENA - DIRECTOR Marketing & Product Development

Mr. Ayush Saxena, a Biotechnologist from M.D. University, Rohtak, a Born Leader, a Visionary took over his role in STAS Group in 2006 after his education. Since then Mr Saxena has proven himself for steering his teams to success through his visionary approach and technical expertise.

Production Capacity :

With a total production capacity of around 20 metric tonnes per day, distributed between 2 state of the art manufacturing plants, we stand tall as most trusted manufacturing house and a preferred service provider for speciality and tailor made solutions in our service sectors.

STRONG SOUTH EAST ASIA PRESENCE

SUSTAINABILITY @ STAS

OUR MISSION

As a chemical manufacturer, we understand the critical importance of embracing sustainability in our operations. By taking proactive steps to minimize our environmental impact, we not only contribute to a healthier planet but also ensure the long-term success of our business.

KEY STRATEGY

One of the key strategies we have adopted is investing in green technology and innovation to reduce our carbon footprint. By implementing energy-efficient processes and utilizing renewable resources, we have significantly decreased our overall greenhouse gas emissions. This not only benefits the environment but also helps us cut costs and improve our bottom line.

CARBON FOOTPRINT

In addition to reducing our carbon footprint, we also prioritise resource conservation. Through responsible water management practices and waste reduction initiatives, we strive to minimise our use of natural resources and decrease the amount of waste we generate. By incorporating circular economy principles into our business model, we are able to optimise resource efficiency and create a more sustainable production process.

Furthermore, we are committed to fostering a culture of sustainability within our organisation. By educating and engaging our employees on the importance of environmental stewardship, we empower them to implement sustainable practices in their day-to-day work. This not only enhances employee morale and satisfaction but also drives innovation and continuous improvement across our company.

At the heart of our sustainability efforts is a commitment to transparency and accountability. By regularly monitoring and reporting on our environmental performance, we hold ourselves accountable for our impact on the planet and strive to continuously improve our sustainability practices. We also actively engage with stakeholders, including customers, suppliers, and regulatory bodies, to share our sustainability goals and progress, fostering collaboration and driving positive change throughout our industry.

In conclusion, as a chemical manufacturer, we recognize the vital role we play in building a more sustainable future. By embracing sustainability in our operations, we are not only working to protect the planet for future generations but also positioning our company for long-term success in a rapidly evolving global marketplace. Together, we can create a more sustainable world for all.

OUR POLICIES

We shall endeavor to achieve total customer expectations through superior products, service and innovations. To ensure their trust in our quality is never betrayed, we are focusing on consistent quality products that successfully match with the international quality standards and thus provide top most quality products to our customers who have shown immense confidence in our range of products. We are strictly adhering to various quality control measures to ensure that final product is of top quality which can be used for achieving effective results. Our quality control managers diligently monitor different stages of production, not allowing any flaw to enter into the product at any stage of production.

QUALITY

- We commit best in class Quality and Consistency
- Supported with strong R&D team and advanced equipment it is very rare that we come across a quality complaint.

CORE VALUES

- RESPECT FOR PEOPLE
- EMPOWERMENT
- SUSTAINABILITY
- COLLABORATION
- TRANSPARENCY

STRATEGY

- INNOVATION
- CUSTOMER CENTRICITY
- EXCELLENCE
- AGILITY

PURPOSE

- We shall achieve our goal by being the preferred solution provider of our customers by practicing respectful and ethical business practices, by being the employer of choice with in the chemical industry, and by providing superior returns to our investors and business associates.

MISSION

- To be integrated solution provider...
...to our customers by introducing future technologies and information to add value at every stage of customer need.

VISION

To be among the top chemical manufacturing house in INDIA through the power of innovation in chemistry. We deliver better solution that helps our customers be more productive.

DELICATE GARMENT CARE

A Revolution in Garment Washing and Laundry Industry !!!

STAS CHEM TECHNOLOGIES Pvt Ltd for the first time in INDIA introduces a set of technically sound efficient wet cleaning products for even the most delicate clothes such as woolen, silk, velvet etc without any bad effect to the fabric or color.

A Wet Cleaning System That *Redefines cleaning technology....*

We at STAS are passionate about creating something more efficient, eco friendly, solution to the problems faced in the cleaning industry. With insight, with understanding and with a response that is helpful and valuable, we always try to provide answers to the unsolved problems. In doing so we strictly adhere to various quality control measures to ensure that the final product is of top quality which can be used for achieving effective results. Here at STAS GROUP our vision emphasis on the feedback and knowledge of the customers and create and deliver the best using the available human resources and technology.

In the STASH AVENIR system, the garments are very gently cleaned and specially finished to impart a smooth & luxurious feel after drying with fewer creases and lot more strength. STASH AVENIR system has been technically fully equipped to replace the traditional DRY CLEANING process. STASH AVENIR system has a solvent free composition which makes it user and eco friendly.

STASH AVENIR WSD

A uniquely designed solvent free, efficient mild liquid detergent for delicate and sensitive clothes like woolen, silk, velvet and other such blends. This system cleans the clothes with min. mechanical action and lesser exposure time. This brings up no damage to fabric or color to the clothes.

STASH AVENIR ALL

A specially designed solvent free high efficient mild liquid detergent for clothes of known or unknown multi fabric blends or for clothes where we have mixed fibers. This system cleans the clothes with min. mechanical action and lesser exposure time. This brings up no damage to fabric or color to the clothes.

STASH AVENIR SK

A specially designed fabric conditioner to impart soft and luxurious feel after drying delicate and sensitive clothes like woolen, silk, velvet and mixed fiber blends. STASH AVENIR CND not only provides soft and silky handle to the fabric but also imparts strength which is generally lost in traditional Dry Cleaning process.

STASH AVENIR CND

A specially designed solvent free high efficient mild liquid detergent for silk clothes and delicate garments. This system cleans the clothes with min. mechanical action and lesser exposure time. This brings up no damage to fabric or color to the clothes.

STASH ULTRA FAB

A specially designed formulation to control damages during colour bleeding in main wash cycle. This product STAS ULTRA FAB, is designed to avoid deposition of colour from one garment onto another during the main wash and final rinse cycle. If the colour bleeding is too high we recommend to wash it separately. Very effective cleaning agent for multi coloured garments.

LEATHER CARE

In the pursuit to deliver the best, STAS Group yet again brings a revolutionary range CUERO. A range which provides a complete solution to all segments of industry may it be Hotel, Hospitals, Commercial Laundries or DryCleaners for their need to handle and care leather articles like leather upholstery, Leather seat covers, sofa/couches, leather jackets, shoes, belts, bags, purses etc. CUERO bring to the industry a foam based system to clean and maintain the articles.

CUERO CLAIR

Cleaner Concentrate

CUERO CLAIR is a specially designed cleaning agent safe for leather, suede, cotton, jute, polyester and blends. CUERO CLAIR is a concentrated product to be used in dilution with soft water and applied on to the surface as foam.

CUERO CARE

Leather Conditioning Cream

CUERO CARE is specialty product formulated to impart natural conditioning, softness and better protection against wear and tear during use or cleaning. The product is an oil based formulation with high absorption properties.

CUERO GLITTER

Metal Polish

CUERO GLITTER one of its kind metal polish for buckles, or other metal parts accessories on leather articles like Jackets/Bags etc.

CUERO SHINE

Polish

CUERO SHINE is an oil based polish to impart perfect shine to the leather articles like shoes etc. along with providing conditioning effect.

CUERO FLORANCE

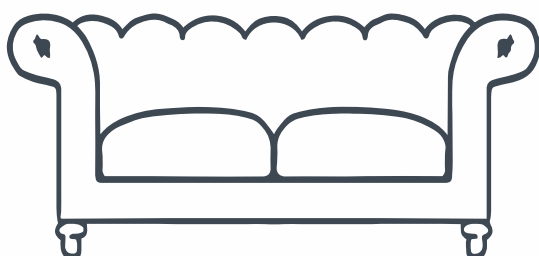

Anti Microbial De-odorizer

The major problem we face in shoe, bags, jackets etc laundry or dry cleaning is the fact that even after washing we get bad odour from the article which is because of either bacterial or fungal growth or due to human perspiration. We present CUERO FLORANCE - an Anti Microbial De-odorizer specially designed for this purpose.
