Mr Tapush Saxena, MBA - Finance, Director of Production and Finance. He is a born leader with a golden heart, known for his visionary approach and impeccable execution skills. He joined the organisation in 2000 , since then STAS has never looked back.

MR. AYUSH SAXENA - DIRECTOR Marketing & Product Development

Mr. Ayush Saxena, a Biotechnologist from M.D. University, Rohtak, a Born Leader, a Visionary took over his role in STAS Group in 2006 after his education. Since then Mr Saxena has proven himself for steering his teams to success through his visionary approach and technical expertise.

Production Capacity :

With a total production capacity of around 40 metric tonnes per day, distributed between 2 state of the art manufacturing plants, we stand tall as most trusted manufacturing house and a preferred service provider for speciality and tailor made solutions in our service sectors.

SUSTAINABILITY @ STAS

OUR MISSION

As a chemical manufacturer, we understand the critical importance of embracing sustainability in our operations. By taking proactive steps to minimize our environmental impact, we not only contribute to a healthier planet but also ensure the long-term success of our business.

KEY STRATEGY

One of the key strategies we have adopted is investing in green technology and innovation to reduce our carbon footprint. By implementing energy-efficient processes and utilizing renewable resources, we have significantly decreased our overall greenhouse gas emissions. This not only benefits the environment but also helps us cut costs and improve our bottom line.

CARBON FOOTPRINT

In addition to reducing our carbon footprint, we also prioritise resource conservation. Through responsible water management practices and waste reduction initiatives, we strive to minimise our use of natural resources and decrease the amount of waste we generate. By incorporating circular economy principles into our business model, we are able to optimise resource efficiency and create a more sustainable production process.

Furthermore, we are committed to fostering a culture of sustainability within our organisation. By educating and engaging our employees on the importance of environmental stewardship, we empower them to implement sustainable practices in their day-to-day work. This not only enhances employee morale and satisfaction but also drives innovation and continuous improvement across our company.

At the heart of our sustainability efforts is a commitment to transparency and accountability. By regularly monitoring and reporting on our environmental performance, we hold ourselves accountable for our impact on the planet and strive to continuously improve our sustainability practices. We also actively engage with stakeholders, including customers, suppliers, and regulatory bodies, to share our sustainability goals and progress, fostering collaboration and driving positive change throughout our industry.

In conclusion, as a chemical manufacturer, we recognize the vital role we play in building a more sustainable future. By embracing sustainability in our operations, we are not only working to protect the planet for future generations but also positioning our company for long-term success in a rapidly evolving global marketplace. Together, we can create a more sustainable world for all.

DELICATE GARMENT CARE

A Revolution in Garment Washing and Laundry Industry !!!

STAS CHEM TECHNOLOGIES Pvt Ltd for the first time in INDIA introduces a set of technically sound efficient wet cleaning products for even the most delicate clothes such as woolen, silk, velvet etc without any bad effect to the fabric or color.

A Wet Cleaning System That *Redefines cleaning technology...*

We at STAS are passionate about creating some thing more efficient, eco friendly, solution to the problems faced in the cleaning industry. With insight, with understanding and with a response that is helpful and valuable, we always try to provide answers to the unsolved problems. In doing so we strictly adhere to various quality control measures to ensure that the final product is of top quality which can be used for achieving effective results. Here at STAS GROUP our vision emphasis on the feedback and knowledge of the customers and create and deliver the best using the available human resources and technology.

In the STASH AVENIR system, the garments are very gently cleaned and specially finished to impart a smooth & luxurious feel after drying with fewer creases and lot more strength. STASH AVENIR system has been technically fully equipped to replace the traditional DRY CLEANING process. STASH AVENIR system has a solvent free composition which makes it user and eco friendly.

AVENIR WSD

A uniquely designed solvent free, efficient mild liquid detergent for delicate and sensitive clothes like woolen, silk, velvet and other such blends. This system cleans the clothes with min. mechanical action and lesser exposure time. This brings up no damage to fabric or color to the clothes.

AVENIR CND

A specially designed Fabric Conditioner for woolen, silk & delicate garments. The product not only provides strength & conditioning effect but also protects from shrinkages & imparts luxurious feel to the garment.

AVENIR ULTRA SENSITIVE

AVENIR Brings 2nd generation detergent for delicate and sensitive clothes like woolen, silk, velvet and other such blends which is more efficient but sensitive in nature. This system cleans the cloths with min. mechanical action and lesser exposure time. it protects shrinkage and enhances colour value.

AVENIR CND 2.0

AVENIR Presents 2nd generation Fabric Conditioner with higher protection, colour enhancement, premium and luxurious feel to the garments. It also provides high protection against mechanical action & shrinkage.

STASH ULTRA FAB

A specially designed formulation to control damages during colour bleeding in main wash cycle. This product STAS ULTRA FAB, is designed to avoid deposition of colour from one garment onto another during the main wash and final rinse cycle. If the colour bleeding is too high we recommend to wash it separately. Very effective cleaning agent for multi coloured garments.
