The Chemical Specialists...

“ Quality is never an Accident, it is always the result of High Intension, Sincere Efforts, Intelligent Direction and Skilful Execution ;it Represents the Wise Choice among many alternatives ... “

Golden Words - Late Shri V.P. Saxena, FOUNDER STAS Group

WELCOME TO STAS

Welcome to STAS, where innovation meets excellence in chemical manufacturing. As a premier provider of cutting-edge chemical solutions, with a rich history of excellence and innovation, we are dedicated to delivering top-tier products across industries such as hospitality, education sector, food industry, textile & Garment manufacturing and Auto care industry. Our two (2 Nos) state-of-the-art manufacturing facilities and rigorous quality control processes ensure that every product we deliver meets the highest standards of safety and efficiency. Committed to sustainability, STAS continuously invests in eco-friendly practices and technologies, striving to minimize our environmental impact. We pride ourselves on our dedicated team of experts who work tirelessly to provide exceptional service and solutions tailored to our clients' unique needs.

Our MAIN PROMOTERS

Late Shri V.P.Saxena - Founder STAS Group :

In 1986 Late Shri V.P. Saxena, a visionary and a hard working person with dreams in his eyes, determination in his mind, education from the most prestigious institution of INDIA i.e. I.I.T. Delhi and experience of about 10 yrs in textile processing grabbed an opportunity to start this own chemical manufacturing facility. With all the odds faced he with his determination, hard work and committed attitude, he stands tall as the FOUNDER of the STAS group.

Mr TAPUSH SAXENA - DIRECTOR Production & Finance

Mr Tapush Saxena, MBA - Finance, Director of Production and Finance. He is a born leader with a golden heart, known for his visionary approach and impeccable execution skills. He joined the organisation in 2000 , since then STAS has never looked back.

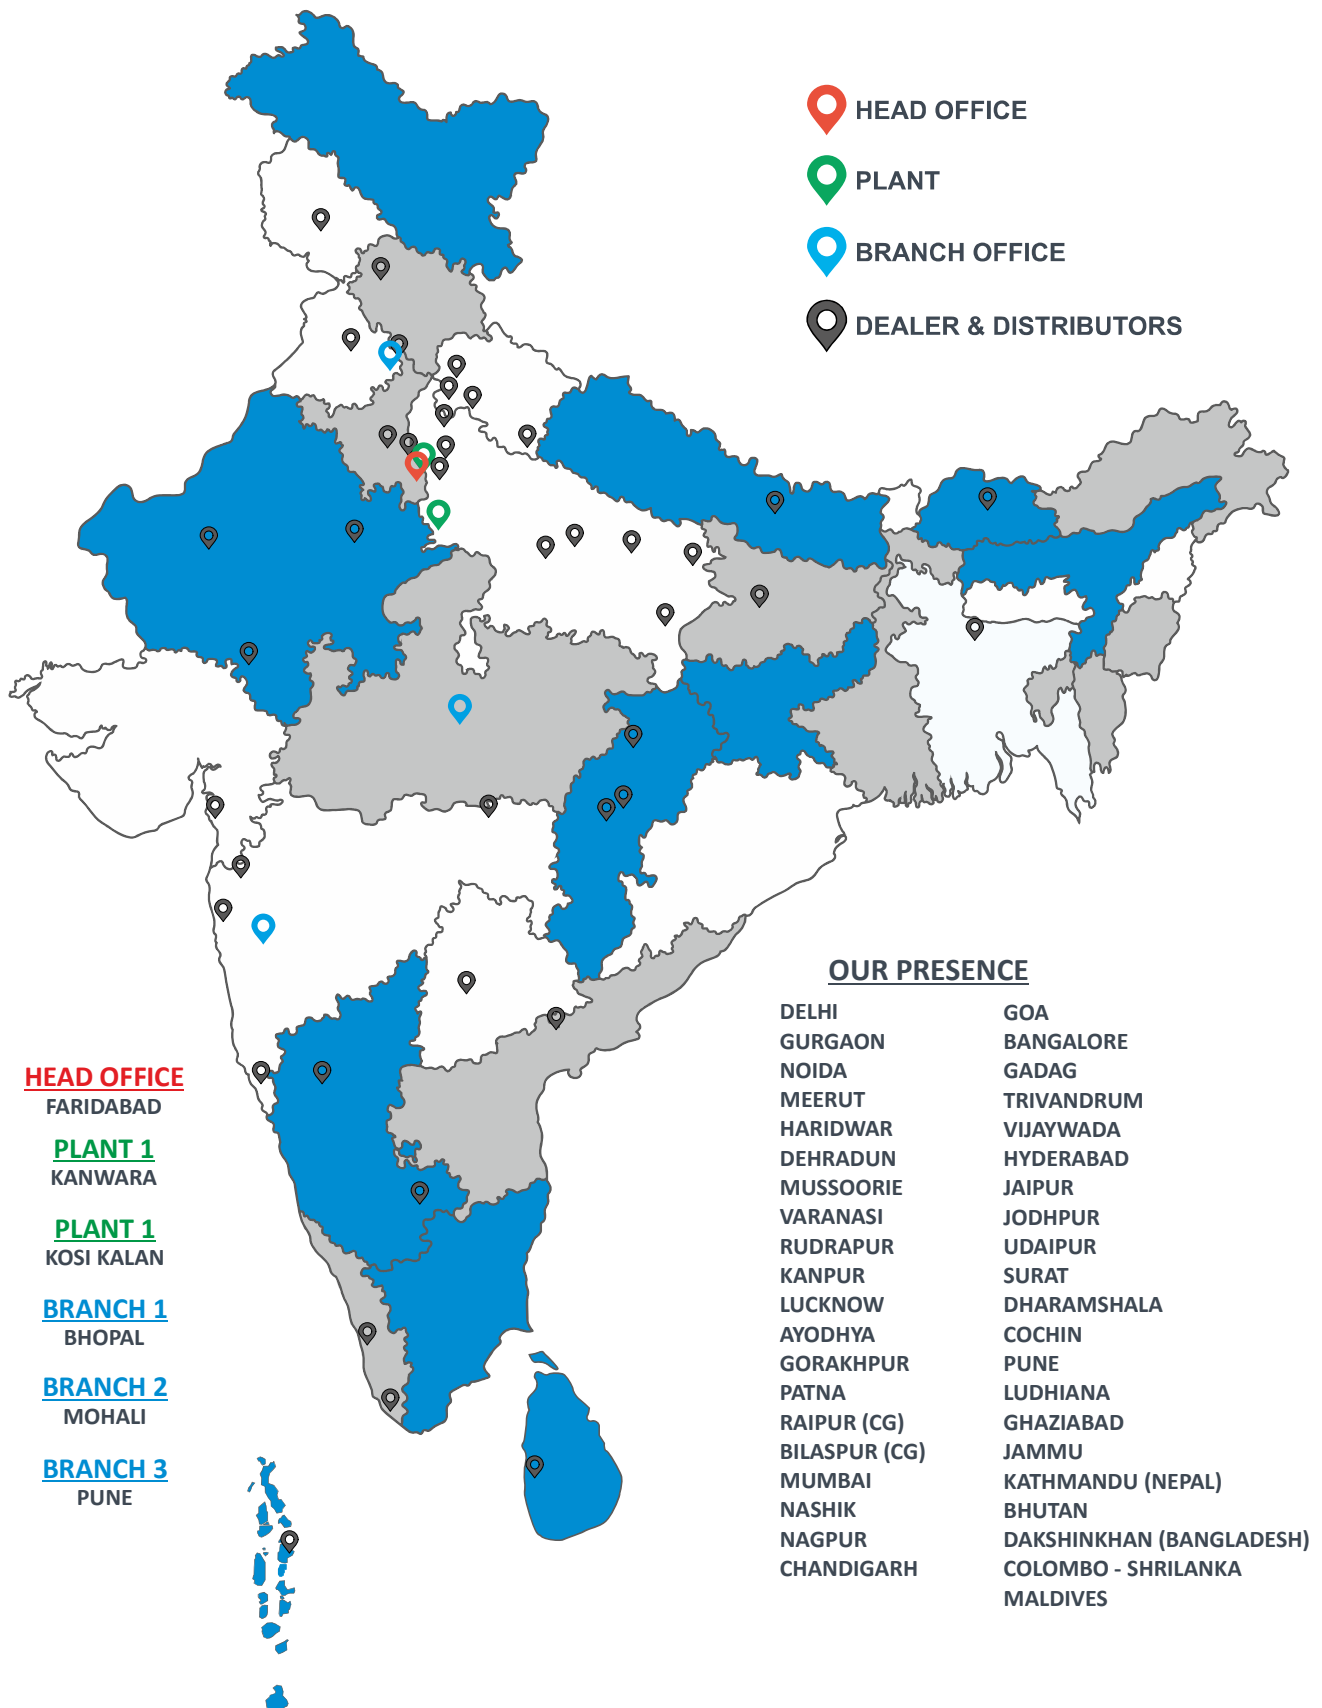

Mr AYUSH SAXENA - DIRECTOR Marketing & Product Development

Mr. Ayush Saxena, a Biotechnologist from M.D. University, Rohtak, a Born Leader, a Visionary took over his role in STAS Group in 2006 after his education. Since then Mr Saxena has proven himself for steering his teams to success through his visionary approach and technical expertise.

Production Capacity :

With a total production capacity of around 20 metric tonnes per day, distributed between 2 state of the art manufacturing plants, we stand tall as most trusted manufacturing house and a preferred service provider for speciality and tailor made solutions in our service sectors.

STRONG SOUTH EAST ASIA PRESENCE

SUSTAINABILITY @ STAS

OUR MISSION

As a chemical manufacturer, we understand the critical importance of embracing sustainability in our operations. By taking proactive steps to minimize our environmental impact, we not only contribute to a healthier planet but also ensure the long-term success of our business.

KEY STRATEGY

One of the key strategies we have adopted is investing in green technology and innovation to reduce our carbon footprint. By implementing energy-efficient processes and utilizing renewable resources, we have significantly decreased our overall greenhouse gas emissions. This not only benefits the environment but also helps us cut costs and improve our bottom line.

CARBON FOOTPRINT

In addition to reducing our carbon footprint, we also prioritise resource conservation. Through responsible water management practices and waste reduction initiatives, we strive to minimise our use of natural resources and decrease the amount of waste we generate. By incorporating circular economy principles into our business model, we are able to optimise resource efficiency and create a more sustainable production process.

Furthermore, we are committed to fostering a culture of sustainability within our organisation. By educating and engaging our employees on the importance of environmental stewardship, we empower them to implement sustainable practices in their day-to-day work. This not only enhances employee morale and satisfaction but also drives innovation and continuous improvement across our company.

At the heart of our sustainability efforts is a commitment to transparency and accountability. By regularly monitoring and reporting on our environmental performance, we hold ourselves accountable for our impact on the planet and strive to continuously improve our sustainability practices. We also actively engage with stakeholders, including customers, suppliers, and regulatory bodies, to share our sustainability goals and progress, fostering collaboration and driving positive change throughout our industry.

In conclusion, as a chemical manufacturer, we recognize the vital role we play in building a more sustainable future. By embracing sustainability in our operations, we are not only working to protect the planet for future generations but also positioning our company for long-term success in a rapidly evolving global marketplace. Together, we can create a more sustainable world for all.
