About STAS

STAS Group
Since 1986

Quality is never an accident, it is always the result of high intention, sincere effort, intelligent direction and skillful execution; it represent the wise choice of many alternatives.

Golden Words
- **Late Shri V.P.Saxena**
Founder
STAS Group

At STAS GROUP we endeavor to achieve total customer satisfaction through superior products, quality, services and innovations. To ensure that the trust in our quality is never betrayed, we are focusing on consistent quality products to provide top most quality products to our customers who have shown immense confidence in our range of products. We at STAS are passionate about creating that first immersion of our client that converts a walk in customer into a regular client. With insight, with understanding and with a response that is helpful and valuable, we help our client create that first impression. Our job is to create for our clients the mesmerizing ambience for their clients. In doing so we strictly adhere to various quality control measures to ensure that the final product is of top quality which can be used for achieving effective results. Here at STAS GROUP our vision emphasis on the feedback and knowledge of the customers and create and deliver the best using the available human resources and technology. We at STAS GROUP are engaged in manufacturing of fine quality chemicals managed by highly qualified personals with wide experience in the field of production and application. Our product range is time tested and authentic. Challenges met by our team have given STAS a brand image and a large clientele. Customer's faith up-hill growth and valuable support is the vital force in our rate. We command the trust of our customers with tailor made products to meet their specific demands of style and effects.

Our Company

STAS : From its Beginning

In 1986 Late Shri V.P. Saxena, a visionary and a hard working person with dreams in his eyes, determination in his mind, education from the most prestigious institution of INDIA i.e. I.I.T. Delhi and experience of about 10 yrs in textile processing, grabbed an opportunity to star this own chemical manufacturing facility. Late Shri V.P.Saxena, a boy from a farmer family in U.P. dared to step up into the world of business with no support from parental family or from society. Not belonging to a business class family was a major resistance to all his efforts to establish himself. Alone in the race, with all the odds faced he with his determination, hard work and committed attitude, he stands tall as the **FOUNDER** of the STAS group.

STAS CHEM TECHNOLOGIES Pvt Ltd in the leader ship of Mr. Ayush Saxena, a Biotechnologist from M.D. University, Rohtak and has established itself as troubleshooter manufacturing house for treatment of typical problems of hospital and hotel industry. STAS Group has always been thankful to our patrons who have shown immense trust and faith in the brand and due to continuous support and valuable feedbacks STAS has grown from a production of 200 kgs per day to a mammoth of 10,000 Kgs per day. STAS is recognized as one of the leading companies in supplies of cleaning and maintaining aids to various industries be it a hospitality sector or automotive industries or health care sector or auto care sector or education sector or industrial sector or commercial setups etc.

STAS TEAM

Workforce of any company plays an important role in the successful execution of the business. We are fortunate that we have a pool of highly dedicated and efficient workers who are working hard to ensure that their effects and results are appreciated by the clients. Support pillars of our organization, our employees are making significant contribution towards our growth. The company today relishes the position of the largest and only company in North India to make Tailor-Made Products to meet requirements of each and every client. What so ever challenge thrown, STAS Group as a team has emerged successful.

STAS Group
Since 1986

Our Policy

We shall endeavor to achieve total customer expectations through superior products, service and innovations. To ensure their trust in our quality is never betrayed, we are focusing on consistent quality products that successfully match with the international quality standards and thus provide top most quality products to our customers who have shown immense confidence in our range of products. We are strictly adhering to various quality control measures to ensure that final product is of top quality which can be used for achieving effective results. Our quality control managers diligently monitor different stages of production, not allowing any flaw to enter into the product at any stage of production.

QUALITY

We commit best in class Quality and Consistency

Supported with strong R&D team and advanced equipments it is very rare that we come across a quality complaint.

CORE VALUES

- RESPECT FOR PEOPLE
- COLLABORATION
- EMPOWERMENT
- TRANSPARENCY

STRATEGY

- INNOVATION,
- EXCELLENCE
- CUSTOMER CENTRICITY
- AGILITY

PURPOSE

We shall achieve our goal by being the preferred solution provider of our customers by practicing respectful and ethical business practices, by being the employer of choice within the chemical industry, and by providing superior returns to our investors and business associates.

MISSION

To be integrated solution provider ...
...to our customers by introducing future technologies and information to add value at every stage of customer need.

VISION

To be among the top chemical manufacturing houses in INDIA through the power of innovation in chemistry we deliver better solutions that help our customers be more productive.

“Creating Home Away From Home “

Nothing attracts customers more than a spick and span hotel environment. The Housekeeping Department takes immense pride in maintaining the highest standards of cleanliness, hygiene and quality. Standard of service, courteousness and glamour can't match the pleasure and satisfaction, a customer has upon entering a spotless, clean and conveniently arranged room and amenities. Management and guests both agree that maintaining a clean and tidy room environment and a tariff justification and get repetitive business, thereby creating a loyal satisfied customer base and increased profits for the hotel. Understanding the demand of all Accommodation Establishments, STAS presents a complete range of cleaning and maintenance specialties backed up with best in class quality and technical training support. We have a complete set of cleaners, carpet shampoos, hygiene maintainers, surface maintainers and polishes along with many specialty products to deal with day to day challenges.

INTRODUCING STASH AVENIR ...

Redefining cleaning technologies....

A revolution in Garment Washing and Laundry Industry !!!

STAS CHEM TECHNOLOGIES PVT LTD for the first time in INDIA introduces a set of technically sound efficient wet cleaning products for even the most delicate clothes such as woolen, silk, velvet etc without any bad effect to the fabric or color.

A Wet Cleaning system that *Redefines cleaning technology....*

We at STAS are passionate about creating some thing more efficient, eco friendly, solution to the problems faced in the cleaning industry. With insight, with understanding and with a response that is helpful and valuable, we always try to provide answers to the unsolved problems. In doing so we strictly adhere to various quality control measures to ensure that the final product is of top quality which can be used for achieving effective results. Here at STAS GROUP our vision emphasis on the feedback and knowledge of the customers and create and deliver the best using the available human resources and technology.

In the STASH AVENIR system, the garments are very gently cleaned and specially finished to impart a smooth & luxurious feel after drying with fewer creases and lot more strength. STASH AVENIR system has been technically fully equipped to replace the traditional DRY CLEANING process. STASH AVENIR system has a solvent free composition which makes it user and eco friendly.

STASH AVENIR WSD

A uniquely designed solvent free, efficient mild liquid detergent for delicate and sensitive clothes like woolen, silk, velvet and other such blends. This system cleans the clothes with min. mechanical action and lesser exposure time. This brings up no damage to fabric or color to the clothes.

STASH AVENIR ALL

A specially designed solvent free high efficient mild liquid detergent for clothes of known or unknown multi fabric blends or for clothes where we have mixed fibers. This system cleans the clothes with min. mechanical action and lesser exposure time. This brings up no damage to fabric or color to the clothes.

STASH AVENIR SK

A specially designed solvent free high efficient mild liquid detergent for silk clothes and delicate garments. This system cleans the clothes with min. mechanical action and lesser exposure time. This brings up no damage to fabric or color to the clothes.

STASH AVENIR CND

A specially designed fabric conditioner to impart soft and luxurious feel after drying delicate and sensitive clothes like woolen, silk, velvet and mixed fiber blends. STASH AVENIR CND not only provides soft and silky handle to the fabric but also imparts strength which is generally lost in traditional Dry Cleaning process.

STASH ULTRA FAB

A specially designed formulation to control damages during colour bleeding in main wash cycle. This product STAS ULTRA FAB, is designed to avoid deposition of colour from one garment onto another during the main wash and final rinse cycle. If the colour bleeding is too high we recommend to wash it separately. Very effective cleaning agent for multi coloured garments.

STAS Group
Since 1986

We at STAS are passionate about creating some thing more efficient, eco friendly, solution to the problems faced in the cleaning industry. With insight, with understanding and with a response that is helpful and valuable, we always try to provide answers to the unsolved problems. In doing so we strictly adhere to various quality control measures to ensure that the final product is of top quality which can be used for achieving effective results. Here at STAS GROUP our vision emphasis on the feedback and knowledge of the customers and create and deliver the best using the available human resources and technology.

In the pursuit to deliver the best, STAS Group yet again brings a revolutionary range CUERO. A range which provides a complete solution to all segments of industry may it be Hotels , Hospitals , Commercial Laundries or DryCleaners for their need to handle and care leather articles like leather upholstery, Leather seat covers, sofa/couches, leather jackets, shoes, belts, bags, purses etc. CUERO brings to the industry a foam based system to clean and maintain the articles.
