ALIVE
after **FIVE**

What is Quarter Mania?

This is a fun filled event where you can win some fabulous items for only a **QUARTER!**

Here's how it works: An item is up for bid, if you are interested in the item up for auction, you simply place 1 to 4 quarters in the bank on your table. Quarter amounts are determined on the retail value of the item that is being auctioned (last years items ranged from \$5 up to \$300) you then raise your paddle and all participating paddle numbers are in a spinner that are randomly drawn. If a person bids on an item that is being raffled and their number is drawn they win that item. If not, another number is drawn until there is a bidding winner. *Confused? Don't be, you'll catch on fast!*
