What is Quarter Mania?

This is a fun filled event where you can win some fabulous items for only a **QUARTER!**

Here's how it works: An item is up for bid, if you are interested in the item, you simply place 1 to 4 quarters in the bank located on your table. Quarter amounts for each item is determined on the retail value of the item up for auctioned (last years items ranged from \$5 up to \$300). Once you have placed your quarter in the bank raise your paddle and all the participating paddle numbers are randomly drawn out of a spinner. If a person bids on an item and their number is drawn, they win that item! If not, another number is drawn until there is a bidding winner. *Confused? Don't be, you'll catch on fast!*
