communication and communityCreate more equitable schedules for everyoneIncrease savings and decrease wasted resources Fill out the form below to schedule your 30-minute ShiftWizard demo. See firsthand how this healthcare-specific solution can improve scheduling, communication, and more for your valuable staff. The ShiftWizard app gives healthcare staff the ability to perform tasks while on the go.The redesigned ShiftWizard app will now allow the following:• View/Manage your Calendar• View coworkers• Add Icons• Message Center (similar to website) • Daily Schedule for managers• Notification Center for managers to approve requests\* This app requires access to a company distributed ShiftWizard account. If you do not have a ShiftWizard account, please contact your manager. Oct 24, 2023 Version 23.10.27 Secure network communications of https The app is stating I need to update, but it's not updating and I go to the App Store. There's no option I have tried deleting and re-downloading the app. It was working good to see my schedule but now it won't load. All it says is load error. Fix this! Also I can't request just a day off. Requested day off no PTO is needed. Managers need to be required at some point to respond. We can't see who is working to know who we can switch shifts with. Please fix your app Finally a solution that works. Saves me so much time. Easy to click. Easy to understand. So happy my hospital upgraded! The developer, Shift Wizard, indicated that the app's privacy practices may include handling of data as described below. For more information, see the developer's privacy policy. The developer does not collect any data from this app. Privacy practices may vary, for example, based on the features you use or your age. Learn More Deaconess Gateway Hospital has 10 nursing units and an additional 10 nursing units at the main hospital campus, as well as a resource team across those units using ShiftWizard. Challenge Deaconess had a long history of providing efficient care, but as the organization scaled up, it became evident that several departments operating in silos were using different stand-alone staffing management solutions. They needed a way to share staff efficiently across nearby locations. Solution When they began using ShiftWizard in 2015, they didn't expect to see huge cost savings with productivity since they were already managing that so aggressively, but knew there were other ways to realize additional savings with staff scheduling. They began using the solution with nursing, but quickly extended to a number of ancillary departments. They immediately noticed the benefits of having a transparent system, especially to address gaps and overages. Results ShiftWizard gave Deaconess the flexibility to manage staffing in four-hour shifts instead of traditional eight-hour shifts, as well as standardize shift start and stop times across all departments. Having previously relied on Excel spreadsheets to manage staff scheduling, the system realized savings of hundreds of hours and thousands of dollars per year. Stat Benefits Beyond Nursing: "I would say the primary benefit has been time-savings, realized through ShiftWizard's self-scheduling and template-based scheduling capabilities. I estimate that ShiftWizard allows us to do in just 12 hours, what would have taken at least 24 using our previous solution, and at least a week using a paper-based system." Meredith Petty, Pharmacy, Deaconess "There is nothing more frustrating than if you need eight people per shift, but have 15 people sign up on one day and only three the next day. With ShiftWizard, we can establish PAR levels, ensuring that employees only sign up for available shifts, and making it easier on everyone involved." Kathy Clodfelter, Director of Patient Care Services, Deaconess
