

Crystal Water Products VR-WS-D-29

Residential Inline Magnet Water Conditioner

- Triple Flow Chamber Technology
 - Maintains High Flow Rate 12GPM
 - Allows More Contact Time with Water
 - Treats Entire Flow of Water
- Controls Scale without chemicals or salt
- Extends the life of fixtures, water heaters, pipes, and appliances
- Environmentally friendly and no wasted water
- No moving parts or electricity required
- Keep the benefits of natural calcium

Material: SS304/316/316L
 Magnetic field intensity: 6000/9000 gauss
 Kill algae rate: ≥ 95%
 Prevent scale rate: ≥ 90%
 Germicidal rate: ≥ 95%
 Strong magnetism intensity loss less than 30 gauss in every unit Water temperature: 0-90° C
 Water Treatment Capacity: 1-1000m3/H

Size (LxW)	Inlet (In.)	Model Number	GPM
9" x 2-1/2"	3/4"	CWP-VR-WS-D-29	12

Warning: The Crystal Water Products VR-WS-D-29 is intended to treat potable water provided by municipal water provider. While it may effective at treating well water please contact us for a full water analysis before installing on well water systems. The Crystal Water Products VR-WS-D-29 is NOT a water softener and should NOT be sold as one. It is designed for limited scale reduction in constantly wetted areas only. We offer a full line of water softeners when the application requires.
