Aflac Cancer Protection Assurance: real coverage when you need it most.

Cancer treatment is changing—and Aflac is proud to be changing with it. Thanks to advances in science and treatment, more and more Americans today are living with cancer.¹ Aflac Cancer Protection Assurance helps cover these innovative treatments with benefits that really care for you as a whole person.

From prevention to recovery, Aflac is with you every step of the way. Our benefits are built to see you all the way through cancer treatment and they'll stay with you for life after cancer.²

Of course, four-in-four hope they'll never get it. But for many—and for certain types of cancer—advances in science and treatment have transformed cancer into an illness that can be managed over a lifetime. **In fact: 89% of women who are diagnosed with breast cancer will survive it and 98% of men who develop prostate cancer will live with it for five years—or more.**⁴ Some cancer patients, even with insurance, spend about a third of their household income on out-of-pocket health care costs outside of insurance premiums.⁵

Understand the difference Aflac makes in your financial security.

Aflac pays cash benefits directly to you, unless you choose otherwise. This means that you can have added financial resources to help with expenses incurred due to medical treatment, ongoing living expenses or any purpose you choose.

We're With You: Aflac Cancer Protection Assurance Stays with You for Life.

Aflac Cancer Protection Assurance pays cash benefits directly to you, unless assigned, when you need them most. If you're ever diagnosed with a covered cancer, these benefits are more important than ever. Why? Because cancer treatment is expensive—today, cancer costs patients and families more than any other chronic illness.⁶

Major medical may not cover the cost of things like deductibles, co-pays, lost work time, or even travel. Aflac Cancer Protection Assurance can help with cancer-associated costs like these. It helps support you through the physical, emotional, and financial costs of cancer—and stays with you for life. Here's how it works:

We're with you, even when you're well. We pay a benefit for early detection and preventative care, like mammograms, PSA blood tests, and many other kinds of cancer screenings, too. Why? Because when cancer is found and treated early you're more likely to survive it.⁷

We'll see you all the way through treatment. If you're diagnosed with cancer, we offer benefits that you can count on—and thanks to One Day PaySM, your claim can be processed in just one day. You'll receive a benefit upon initial diagnosis of a covered cancer and our support doesn't end there.

We give you the freedom to choose the best care for you. You and your doctor decide on a treatment plan together; we help provide you with financial support for every month that you're undergoing that treatment. Want a second opinion? We provide a benefit for that, too.

(4) Optional Benefits:

INITIAL DIAGNOSIS BUILDING BENEFIT RIDER:
(SERIES B70050) Applied for ☐ Yes ☐ No

INITIAL DIAGNOSIS BUILDING BENEFIT: This benefit can be purchased in units of \$100 each, up to a maximum of five units or \$500. **If more than one unit has been purchased, the number of units purchased must be multiplied by \$100.** The number of units you purchased is shown in both the Policy Schedule and the attached application.

The **INITIAL DIAGNOSIS BUILDING BENEFIT** will increase the amount of your Initial Diagnosis Benefit, as shown in the policy, by \$100 for each unit purchased for each Covered Person on the anniversary date of their coverage, while coverage remains in force. (The amount of the monthly increase will be determined on a pro rata basis.) This benefit will be paid under the same terms as the Initial Diagnosis Benefit in the policy to which the rider is attached. This benefit will cease to build for each Covered Person on the anniversary date of the rider following the Covered Person's 65th birthday or at the time Internal Cancer or an Associated Cancerous Condition is diagnosed for that Covered Person, whichever occurs first. However, regardless of the age of the Covered Person on the Effective Date of coverage, this benefit will accrue for a period of at least five years, unless Internal Cancer or an Associated Cancerous Condition is diagnosed prior to the fifth year of coverage.

Exceptions, Reductions, and Limitations of Rider Series B70050:

The rider contains a 30-day waiting period. If a Covered Person has Internal Cancer or an Associated Cancerous Condition diagnosed before his or her coverage has been in force 30 days, you may, at your option, elect to void the rider from its beginning and receive a full refund of premium paid for the rider, less any benefits paid under the rider.

The Initial Diagnosis Building Benefit is not payable for: (1) any Internal Cancer or Associated Cancerous Condition diagnosed or treated before the Effective Date of coverage under the rider and the subsequent recurrence, extension, or metastatic spread of such Internal Cancer or Associated Cancerous Condition; (2) Internal Cancer or Associated Cancerous Conditions diagnosed during the rider's 30-day waiting period; or (3) the diagnosis of Nonmelanoma Skin Cancer. **Any Covered Person who has had a previous diagnosis of Internal Cancer or an Associated Cancerous Condition will NOT be eligible for an Initial Diagnosis Building Benefit under the rider for a recurrence, extension, or metastatic**

spread of that same Internal Cancer or Associated Cancerous Condition.

DEPENDENT CHILD RIDER: (SERIES B70051)
Applied for ☐ Yes ☐ No

DEPENDENT CHILD BENEFIT: Aflac will pay \$10,000 when a covered Dependent Child is diagnosed as having Internal Cancer or an Associated Cancerous Condition while the rider is in force.

This benefit is payable under the rider only once for each covered Dependent Child. In addition to the Positive Medical Diagnosis, we may require additional information from the attending Physician and Hospital.

Exceptions, Reductions, and Limitations of Rider Series B70051:

The rider contains a 30-day waiting period. If a covered Dependent Child has Internal Cancer or an Associated Cancerous Condition diagnosed before his or her coverage has been in force 30 days, you may, at your option, elect to void the rider from its beginning and receive a full refund of premium paid for the rider, less any benefits paid under the rider.

The Dependent Child Benefit is not payable for: (1) any Internal Cancer or Associated Cancerous Condition diagnosed or treated before the Effective Date of the rider and the subsequent recurrence, extension, or metastatic spread of such Internal Cancer or Associated Cancerous Condition; (2) Internal Cancer or Associated Cancerous Conditions diagnosed during the rider's 30-day waiting period; or (3) the diagnosis of Nonmelanoma Skin Cancer. **Any Dependent Child who has had a previous diagnosis of Internal Cancer or an Associated Cancerous Condition will NOT be eligible for any benefit under the rider for a recurrence, extension, or metastatic spread of that same Internal Cancer or Associated Cancerous Condition.**

SPECIFIED-DISEASE BENEFIT RIDER: (SERIES B70052)
Applied for ☐ Yes ☐ No

SPECIFIED-DISEASE INITIAL BENEFIT: While coverage is in force, if a Covered Person is first diagnosed, after the Effective Date of coverage under the rider, with any of the covered Specified Diseases, Aflac will pay a benefit of \$2,000. This benefit is payable only once per Specified Disease per Covered Person. **NO OTHER BENEFITS ARE PAYABLE FOR ANY COVERED SPECIFIED DISEASE NOT PROVIDED FOR IN THE RIDER.**

HOSPITAL CONFINEMENT BENEFITS:

HOSPITALIZATION FOR 30 DAYS OR LESS: When a Covered Person is confined to a Hospital for a covered Specified Disease, or other diseases or conditions directly caused, complicated or aggravated by or resulting from the Specified Disease treatment for 30 days or less, Aflac

will pay \$400 for each day the Covered Person is charged for a room as an inpatient.

HOSPITALIZATION FOR 31 DAYS OR MORE: During any continuous period of Hospital confinement of 31 days or more for a covered Specified Disease, or other diseases or conditions directly caused, complicated or aggravated by or resulting from the Specified Disease treatment, Aflac will pay benefits as described above for the first 30 days, and beginning with the 31st day of such continuous Hospital confinement, Aflac will pay \$800 for each day the Covered Person is charged for a room as an inpatient.

Exceptions, Reductions, and Limitations of Rider Series B70052:

Specified diseases must be first diagnosed by a Physician 30 days following the Effective Date of coverage under the rider for benefits to be paid. The diagnosis must be made by and upon a tissue specimen, culture(s), and/or titer(s). A clinical diagnosis of a Specified Disease will be accepted as evidence that a Specified Disease exists when a pathological diagnosis cannot be made, provided medical evidence substantially documents the diagnosis of a Specified Disease. If a Covered Person has a Specified Disease diagnosed before his or her coverage has been in force 30 days, benefits for treatment of that Specified Disease will apply only to treatment occurring after two years from the Effective Date of such person's coverage. At your option, you may elect to void the rider from its beginning and receive a full refund of premium paid for the rider, less any benefits paid under the rider.

(5) Payment of Nonsurgical Treatment Benefits:

If an initial prescription of Hormonal Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy medication instructs a Covered Person to take the medication orally for a period of thirty days or less, then the payment under the applicable Nonsurgical Treatment Benefit is limited to the Calendar Month in which the medication was prescribed, received, and the Covered Person incurred a charge.

If a prescription of Hormonal Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy medication which instructs a Covered Person to take the medication orally for a period of thirty days or less is refilled during a Calendar Month in which the stated amount under the applicable Nonsurgical Treatment Benefit has previously been paid, then we will pay the stated amount under the applicable Nonsurgical Treatment Benefit in advance for one additional Calendar Month for which it has not previously been paid without requiring proof a Covered Person incurred a charge for the medication during that additional Calendar Month. Otherwise, if the prescription is refilled during a Calendar Month in which the stated amount under the applicable Nonsurgical Treatment Benefit has not been previously paid, then the benefit is limited to the Calendar Month in which the medication was prescribed, received, and the Covered Person incurred a charge.

If an initial prescription of Hormonal Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy medication instructs a Covered Person to take the medication orally for a period of more than thirty days but less than 61 days, then we will pay the stated amount under the applicable Nonsurgical Treatment Benefit in advance for one additional, consecutive Calendar Month without requiring proof a Covered Person incurred a charge for the medication during the additional, consecutive Calendar Month.

If an initial prescription of Hormonal Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy medication instructs a Covered Person to take the medication orally for a period of more than sixty days but less than 91 days, then we will pay the stated amount under the applicable Nonsurgical Treatment Benefit in advance for two additional, consecutive Calendar Months without requiring proof a Covered Person incurred a charge for the medication during the additional, consecutive Calendar Months.

If a prescription of Hormonal Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy medication which instructs a Covered Person to take the medication orally for a period of more than thirty days is refilled during a Calendar Month in which the payment under the applicable Nonsurgical Treatment Benefit has previously been paid, then we will pay the stated amount under the applicable Nonsurgical Treatment Benefit in advance for up to three additional, consecutive Calendar Months for which it has not previously been paid without requiring proof a Covered Person incurred a charge for the medication during the three additional, consecutive Calendar Months. Otherwise, if the prescription is refilled during a Calendar Month in which the payment under the applicable Nonsurgical Treatment Benefit has not been previously paid, then, so long as the Covered Person incurred a charge during the first Calendar Month of the prescription, for refills instructing a Covered Person to take the medication orally for a period of more than thirty days but less than 61 days, we will pay the stated amount under the applicable Nonsurgical Treatment Benefit in advance for one additional, consecutive Calendar Month without requiring proof a Covered Person incurred a charge for the medication during the additional, consecutive Calendar Month, and for refills instructing a Covered Person to take the medication orally for a period of more than sixty days but less than 91 days, we will pay the stated amount under the applicable Nonsurgical Treatment Benefit in advance for two additional, consecutive Calendar Months without requiring proof a Covered Person incurred a charge for the medication during the additional, consecutive Calendar Months.

For injected treatment, the stated amount under the applicable Radiation Therapy, Chemotherapy, Immunotherapy, Or Experimental Chemotherapy Benefit is payable one time per prescribed injection, but not more than one time per Calendar Month. The Surgical/Anesthesia Benefit provides amounts payable for insertion and removal of a pump. Benefits will not

be paid for each month of continuous infusion of medications dispensed by a pump, implant, or patch.

If only Experimental Chemotherapy is payable during any Calendar Month, the benefit amount will be reduced 50% for Experimental Chemotherapy for which no charge is incurred. If a Covered Person received the stated amount under the applicable Radiation Therapy, Chemotherapy, Immunotherapy, Or Experimental Chemotherapy Benefit at the reduced 50% amount and, later in the same Calendar Month, receives Radiation Therapy, Chemotherapy, Immunotherapy, or Experimental Chemotherapy where a charge is incurred, we will pay the difference between the 50% previously received and the Radiation Therapy, Chemotherapy, Immunotherapy, or Experimental Therapy Benefit.

(6) Exceptions, Reductions, and Limitations of the Policy (policy is not a daily hospital expense plan):

Except as specifically provided in the Benefits section of the policy, Aflac will pay only for treatment of Cancer or Associated Cancerous Conditions, or other diseases or conditions directly caused, complicated or aggravated by or resulting from Cancer or Cancer treatment, including direct extension, metastatic spread, or recurrence. Benefits are not provided for premalignant conditions or conditions with malignant potential (unless specifically covered); or any other disease, sickness, or incapacity.

The policy contains a 30-day waiting period. If a Covered Person has Cancer or an Associated Cancerous Condition diagnosed before his or her coverage has been in force 30 days, benefits for treatment of that Cancer or Associated Cancerous Condition, or any recurrence, extension, or metastatic spread of that same Cancer or Associated Cancerous Condition will apply only to treatment occurring after two years from the Effective Date of such person's coverage. At your option, you may elect to void the coverage and receive a full refund of premium.

The Initial Diagnosis Benefit is not payable for: (1) any Internal Cancer or Associated Cancerous Condition diagnosed or

treated before the Effective Date of the policy and the subsequent recurrence, extension, or metastatic spread of such Internal Cancer or Associated Cancerous Condition; (2) Internal Cancer or an Associated Cancerous Condition diagnosed during the policy's 30-day waiting period; or (3) the diagnosis of Nonmelanoma Skin Cancer. **Any Covered Person who has had a previous diagnosis of Internal Cancer or an Associated Cancerous Condition will NOT be eligible for an Initial Diagnosis Benefit under the policy for a recurrence, extension, or metastatic spread of that same Internal Cancer or Associated Cancerous Condition.**

Aflac will not pay benefits whenever coverage provided by the policy is in violation of any U.S. economic or trade sanctions. If the coverage violates U.S. economic or trade sanctions, such coverage shall be null and void.

Aflac will not pay benefits for any loss that is diagnosed or treated outside the territorial limits of the United States or its possessions.

Aflac may void the policy and will not pay benefits whenever: (1) material facts or circumstances have been concealed or misrepresented in making a claim under the policy; or (2) fraud is committed or attempted in connection with any matter relating to the policy. If you have received benefits that were not contractually due under the policy, then Aflac reserves the right to offset any benefits payable under the policy up to the amount of benefits you received that were not contractually due.

- (7) Renewability:** The policy is guaranteed renewable for your lifetime as long as you pay the premiums when they are due or within the grace period. We may discontinue or terminate the policy if you have performed an act or practice that constitutes fraud, or have made an intentional misrepresentation of material fact, relating in any way to the policy, including claims for benefits under the policy. We may change the premium we charge, but not specific to any one person. Any premium change will be made for all policies of the same form number and premium classification in the state where the policy was issued that are then in force.
