

RSA TODAY

A Riverside Service Area Newsletter

Monday, March 13, 2023 | News & updates for local leaders.

Huddle Message: People Pulse Survey Starts March 15

People Pulse is open March 15 through 30 and provides you an important opportunity to share your experiences. We encourage all eligible employees to take the survey. It takes about 10 minutes to complete.

Look for an email Wednesday, March 15, from Glint, our survey administrator, asking you to complete the confidential survey. You can access the survey from the Glint survey invite or at kp.org/peoplelistening.

Note: Employees who were hired on or before November 30, 2022, are eligible for the March survey as long as their status was not listed as being on leave in HRconnect on February 28, 2023.

Learn more about [People Pulse](#). Download the [Huddle Message here](#) and see what [prizes you can win here](#).

March TB Screenings: See If Your Department Is on The List

Providers and employees working in the departments on Employee Health's TB Screening List for March are due to complete their annual screening prior to the month's end.

[Click here to see the list](#), screening details and Employee Health hours at both RMC and MVMC.

You're Invited! KP Pride Southern California Invites You to Be a Member

The regional Kaiser Permanente Pride Business Resource Group is actively seeking members and allies to join their cause. The BRG is committed to promoting an environment that respects and encourages equity, inclusion and diversity in our workforce and throughout the communities we serve.

This year marks KP's 31st year of celebrating LGBTQA+ Pride through the BRG program.

Personnel Announcement: Changes to the RSA Management Team

There is a change happening in the Riverside Service Area Management team, [click here to see the details](#) or download the announcement for the staff listed below:

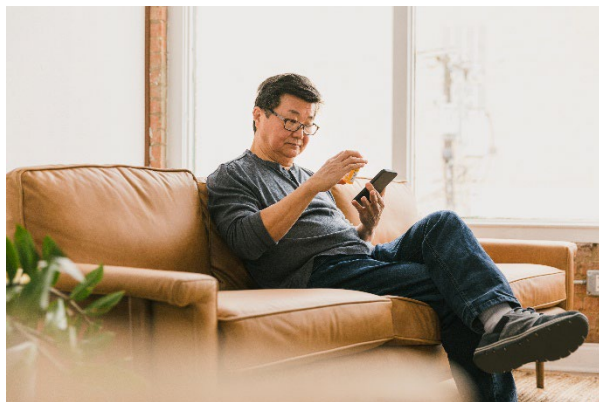

- [Dr. Sacha Lewis](#)—Assistant Area Medical Director
- [Dr. Sabah Langston](#)—Chief of Service, OB/GYN
- [Bassam Koussa](#)—ADA, Iris MOB

KP Cares: Lab employee & family support local nonprofit feeding area community in need

Recently, Eleanor Callasan, SCPMG Laboratory Practice Leader from Chino Hills lab, volunteered with our community partner Food Forward to harvest oranges in Riverside near the California Citrus State Historic Park. Eleanor logged on to KP Cares to find a local volunteer event that she and her family could enjoy together. The oranges picked were distributed to local hunger relief partners for free to provide to local people in our community who need food assistance ([see pics here!](#)).

If you're interested in volunteer opportunities near you, visit [KP Cares](#). FYI, you can find **local volunteer opportunities near your home/community if you live outside of the Riverside Service Area**. Also, if you do volunteer work or you would like to coordinate a volunteer activity and need support, you can place your event on KP Cares to get help from other KP employees and physicians. KP Cares is a website open to all KP physicians and staff across KP's eight regions. Visit the [kpcares.org](#) for more information.

Pharmacy made easier. Convenient Rx delivery or pick up options at your fingertips—and much more!

Did you know that your prescription medication can be delivered to your door within 3-5 days? Or you can choose same-day or next-day deliver if that works better for you. You can even do same-day pick up at no extra cost! All this and much more when you use the KP app or [kp.org/pharmacy](#) to get your prescription medication. [Share this flier](#) with your coworkers and members to promote KP's convenient pharmacy services.
